4.0 REGULAR AGENDA ITEMS/POSSIBLE RECOMMENDATIONS

4.1 SUBJECT: Laguna Creek Trail & West Stockton Blvd. Multi Modal Improvements and Elk Grove Creek Trail Gap Closure

Jerome said Laguna Creek Trail is primarily a pavement rehab project. It's federally funded so there's a requirement to upgrade all non-compliant curb ramps within project limits. Currently it includes upgrades to 34 ramps. He mentioned that Pinkerton Park has no parking next to it, so you have to park on the other side of the street and use the crosswalk. The City is exploring adding six street parking to the side adjacent to the park. They'll do the research to determine ADA requirements. They're planning on a crosswalk at Crichton with a flashing beacon. Jerome described the existing multiuse trail starting at Pinkerton Park that goes all the way to the bridge to Laguna Creek and is about 2800ft long. They're rehabilitating the surface and looking at creating a link from the trail to the sidewalk. They're working on design along with the ElkGrove Creek Trail project Looking at construction starting in early 2024.

Jerome introduced the Elk Grove Creek Trail project and that it connects Laguna Springs Drive to Oneto Park to the west. This is a new trail built on an already very flat existing grade. A retaining wall will be added to ensure stability, and a guard rail will be installed at appropriate points along the retaining wall. Along with these improvements, they're looking at possible street parking at Colton Park and Rain Garden Park. They will look at ADA requirements for on-street parking. They will review the possibility for a mid-street crossing as well.

The committee overall liked the projects and will provide any further individual member feedback to the project manager through the committee's Staff Liaison.

5.0 GENERAL ADMINISTRATIVE UPDATE

Ann mentioned the Inter-regional Laguna Trail Master Plan is having a town hall at District56 on Aug 4th at 6pm – 8pm.

6.0 COMMITTEE COMMENTS/FUTURE AGENDA ITEMS
