

Planned Pavement Surface Treatments 2019 - 2023

City of Elk Grove
Street Locations for 2019-2023 Pavement Projects (By Year)

The following table identifies the streets tentatively planned for preventative treatment and rehabilitation over the next 5 years. The list is subject to change, and will be reviewed and revised annually based on changes in revenues, construction costs, grant funding, and as a more detailed analysis of the individual streets are conducted as part of project development. Residential streets are treated on a neighborhood basis and are identified as numbered subzones on the adjacent map. Collector streets and arterial streets are not included as part of the subzone and are addressed individually.
