

SECTION 31 – REINFORCEMENT

31-1 GENERAL

Steel reinforcement shall conform to Section 52, “Reinforcement”, of the State Specifications.

Reinforcing steel lists showing lengths and bending details shall be prepared by the Contractor and submitted to the City for approval. Such approval is intended only as an additional precaution against error, and does not relieve the Contractor of the responsibility for the accuracy of the steel reinforcement.

31-2 MEASUREMENT AND PAYMENT

Unless otherwise specified in the Special Provisions, reinforcement will not be measured or paid for separately.

Full compensation for furnishing and placing reinforcement as specified in these Specifications, including preparing and submitting reinforcing steel lists, is included in the prices paid for the various items of work involved, and no separate payment will be made.
