ORDINANCE NO. 16-2015

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ELK GROVE
FINDING THE DEVELOPMENT AGREEMENT EXEMPT FROM CEQA AND
APPROVING A DEVELOPMENT AGREEMENT BETWEEN THE CITY OF ELK
GROVE, SOUZA ELK GROVE, LLC, AND SOUZA DAIRY LIMITED PARTNERSHIP
FOR THE SOUZA DAIRY PROJECT (EG-13-030)

WHEREAS, on July 9, 2014, the City Council adopted the Southeast Policy Area
(SEPA) Strategic Plan; and

WHEREAS, adoption of the SEPA Strategic Plan was accompanied by the
certification of Southeast Policy Area Strategic Plan Environmental Impact Report
(State Clearinghouse No. 2013042054); and

WHEREAS, the Planning Department of the City of Elk Grove received an
application on May 9, 2013 from Souza Elk Grovc, LLC (the Applicant) requesting
approval of a Development Agreement, Large Lot Tentative Subdivision Map, Small Lot
Tentative Subdivision Map, Design Review for subdivision layout, and Abandonment
for the Souza Dairy Project (the Project); and

WHEREAS, the proposed Project is located on real property in the incorporated
portions of the City of Elk Grove more particularly described as Parcels "A" and "B" of
Parcel Map entitled "Being the Southeast ¼ of Section 11, and the Southwest ¼ of
Section 12, the Northwest ¼ of Section 13, and the Northeast ¼ of Section 14,
Township 6 North, Range 5 East, M.D.B. & M., Sacramento County," filed February 6,
1973 in Book 10 of Parcel Maps, Page No. 27, and commonly referred to as APN: 132-
0320-006; and

WHEREAS, the Project qualifies as a project under the California Environmental
Quality Act (CEQA), Public Resource Code §§21000 et seq.; and

WHEREAS, Section 15183 (Projects Consistent with a Community Plan, General
Plan, or Zoning) of Title 14 of the California Code of Regulations (State CEQA
Guidelines) provides an exemption from CEQA for projects that are consistent with the
applicable General Plan and Zoning for which an Environmental Impact Report (EIR)
was certified; and

WHEREAS, the City has reviewed the Project and analyzed it based upon the
provisions in Sections 15183 and 15162 of the State CEQA Guidelines; and

WHEREAS, the proposed Project is consistent with the projects described in the
previously certified EIR; and

WHEREAS, based on staff's review of the Project, no special circumstances
exist that would create a reasonable possibility that the Project will have a significant
effect on the environment beyond what was previously analyzed and disclosed; and
WHEREAS, the City considered the Project request pursuant to the Elk Grove General Plan, the Elk Grove Municipal Code Title 23 (Zoning), the Southeast Policy Area Special Planning Area, and all other applicable State and local regulations; and

WHEREAS, the Planning Commission held a duly noticed public hearing on July 16, 2015 as required by law to consider all of the information presented by staff, information presented by the Applicant, and public testimony presented in writing and at the meeting and voted 5-0 to recommend approval of the Project to the City Council with certain modifications specified in their action as described in Planning Commission Resolution 2015-18; and

WHEREAS, the City Council held a duly noticed public hearing on August 12, 2015 as required by law to consider all of the information presented by staff, information presented by the Applicant, and public testimony presented in writing and at the meeting;

NOW, THEREFORE, the City Council of the City of Elk Grove does hereby ordain as follows:

Section 1: Purpose

The purpose of this Ordinance is to approve the Development Agreement with Souza Elk Grove, LLC and the Souza Dairy Limited Partnership for the Project known as The Souza Dairy (EG-13-030).

Section 2: Findings

This Ordinance is adopted based upon the following findings:

California Environmental Quality Act (CEQA)

Finding: The Project is categorically exempt from the California Environmental Quality Act (CEQA) pursuant to Title 14 of the California Code of Regulations, Chapter 3, Division 6 (State CEQA Guidelines) Sections 15183 (Projects Consistent with a Community Plan, General Plan, or Zoning) and 15162 (Subsequent EIRs and Negative Declarations).

Evidence: The Project is exempt from the California Environmental Quality Act (CEQA) pursuant to Title 14 of the California Code of Regulations, (State CEQA Guidelines) Sections 15183 (Projects Consistent with a Community Plan, General Plan, or Zoning). State CEQA Guidelines Section 15183 (Public Resources Code §21083.3), provides that projects that are consistent with a Community Plan, General Plan or Zoning for which an EIR has been certified “shall not require additional environmental review, except as might be necessary to examine whether there are project-specific significant effects which are peculiar to the project or its site.”
On July 9, 2014, the City Council certified an EIR for the Southeast Policy Area Strategic Plan (State Clearinghouse No. 2013042054). The SEPA EIR analyzed full buildout of SEPA based upon the land plan, development standards, and policies contained in the Community Plan and Special Planning Area, as well as the improvements identified in the accompanying infrastructure master plans.

The Souza Dairy Project is being undertaken pursuant to and in conformity with the approved Southeast Policy Area Community Plan and Special Planning Area. No special circumstances exist and no changes in the project have occurred that would necessitate the preparation of subsequent environmental review. No additional environmental impacts have been identified for the Souza Dairy Project other than those previously disclosed and analyzed in the EIR for the Southeast Policy Area Strategic Plan. The Souza Dairy project is subject to the Southeast Policy Area Mitigation Monitoring and Reporting Program. Consequently, pursuant to CEQA Guidelines Section 15183, no further environmental review is required for this project.

Additionally, State CEQA Guidelines Section 15162 (Subsequent EIRs and Negative Declarations) requires that when an EIR has been certified for an adopted project, no subsequent EIR shall be prepared for that project unless the lead agency determines, on the basis of substantial evidence in light of the whole record, that one or more of the following exists:

1. Substantial changes are proposed in the project which will require major revisions of the previous EIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects;

2. Substantial changes occur with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or

3. New information of substantial importance, which was not known and could not have been known with exercise of reasonable diligence at the time of the previous EIR was certified as complete shows any of the following:
   a. The project will have one or more significant on discussed in the previous EIR;
   b. Significant effects previously examined will be substantially more severe than shown in the previous EIR;
   c. Mitigation measures or alternatives previously found not to be feasible would in fact be feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or
d. Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measures or alternative.

Staff has reviewed the Project and analyzed it based upon the above provisions in Section 15162 of the State CEQA Guidelines. The Souza Dairy Project is being undertaken pursuant to and in conformity with the approved Southeast Policy Area Community Plan and Special Planning Area. There are no substantial changes in the Project from that analyzed in the 2014 EIR and no new significant environmental effects, or substantial increase in the severity of previously identified significant effects. No new information of substantial importance has been identified. Further, since no changes to the EIR are necessary to support the Project, the City is not required to prepare an Addendum to the EIR as required by State CEQA Guidelines Section 15164. Therefore, the prior EIR is sufficient to support the proposed action and no further environmental review is required.

Development Agreement

Finding #1: The Development Agreement is consistent with the General Plan objectives, policies, land uses, and implementation programs and any other applicable specific plans.

Evidence: The proposed Development Agreement is consistent with the General Plan as the General Plan designates the subject property as the Southeast Policy Area Community Plan area and the proposed Project is consistent with the adopted Land Use Plan for the Southeast Policy Area. The Development Agreement would allow the Project site to development consistent with the Southeast Policy Area Strategic Plan. The Proposed Development Agreement would provide a mechanism for the recordation of the Large Lot Tentative Subdivision Map without surety for certain improvement because the Developer will be restricted from any building until such time as security is provided or improvements are constructed. Under the Subdivision Map Act Section 66462 and EGMC Section 22.30.005, public improvements are required at the time of final map or after if secured through an agreement with security. In this case the public improvements won’t be required by the City until such time as building moves forward on the site. The DA is a mechanism for delaying the improvements until they are required. The DA will also ensure the complete construction of Phase 1 Shed C improvements from Lotz Parkway to Big Horn Boulevard. As such, the DA is consistent with General Plan Policy ED-7, which requires the City to maximize the use of non-residential land for employment generating and revenue generating uses by improving Elk Grove’s jobs/housing ration as well as supporting efforts to provide a supply of land ready for the development of buildings.
Finding #2: The Development Agreement is in conformance with the public convenience and general welfare of persons residing in the immediate area and will not be detrimental or injurious to property or persons in the general neighborhood or to the general welfare of the residents of the City as a whole.

Evidence: The Project is in conformity with public convenience, general welfare and good land use practices because the consistent with the Southeast Policy Area Strategic plan, the Developer proposes to develop the Project site with office, commercial, and educational job opportunities within the Project site combined with a broad range of housing opportunities at a variety of densities and price points in close proximity to employment opportunities. The Project also includes a Village Center mixed use residential/retail/commercial complex anticipated to provide services to the Project site and to adjacent properties. The Project will also provide major public infrastructure, including sanitary sewer, storm drainage, domestic water, and arterial roads from existing locations along the Project site and to the adjacent employment lands to the south and west of the Project site. The Project will also provide 4.5 miles of off-street trails and open-space corridors linking all public parks together. The Project includes a transit corridor along Big Horn Boulevard and Bilby Road to accommodate a future light rail extension of Sacramento Regional Transit’s Blue Line. The Development Agreement is necessary in order to obtain the major investment necessary to develop the Project. Absent approval of the Development Agreement, the City would not obtain the benefits of the Project to the community. The Development Agreement will establish land use regulations for a reasonable period to allow project build out in accordance with the approved entitlements for development, and to ensure a cohesive development. The Project will also create indirect economic benefits and serve as a catalyst for additional employment development activity as a result of completed infrastructure. Thus, in accordance with land use practices, the Project will promote a better balance of employment, services and housing, and improve the mix of uses in the community.

Finding #3: The Development Agreement will promote the orderly development of property or the preservation of property values.

Evidence: Approval of the Project will result in the development of a large portion the Southeast Policy Area and the provision of urban levels of public infrastructure and services to areas within the City. Thus, the uses proposed by the Project are consistent with those envisioned for the area in the General Plan. The Project will contribute to a balance of land uses within the City by providing a diversity of necessary services that respond to the needs of the surrounding community and the region. The Project will be compatible with and preserve (or even increase) the property values of the predominantly residential development proposed or otherwise approved for surrounding areas, by providing necessary and desirable services nearby. The Project, as designed, will be a cohesive,
planned multi-use development, and will provide a visually pleasing, safe and attractive gathering place that will encourage community identity. The Project will provide the necessary infrastructure, including sewer, water, and roadways, to serve the Project. As a result, the Project will not adversely affect the orderly development of property, and property values will be preserved or increased.

Section 3: Action

The City Council hereby approves the Development Agreement between the City of Elk Grove and Souza Elk Grove, LLC and the Souza Dairy Limited Partnership for the Project known as The Souza Dairy (EG-13-030), in substantially the form attached hereto as Exhibit A and incorporated herein by this reference. The City Manager is hereby authorized and directed to execute the Development Agreement on behalf of the City.

Section 4: No Mandatory Duty of Care

This ordinance is not intended to and shall not be construed or given effect in a manner that imposes upon the City or any officer or employee thereof a mandatory duty of care towards persons and property within or without the City, so as to provide a basis of civil liability for damages, except as otherwise imposed by law.

Section 5: Severability

If any provision of this ordinance or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the ordinance which can be given effect without the invalid provision or application, and to this end the provisions of this ordinance are severable. This City Council hereby declares that it would have adopted this ordinance irrespective of the invalidity of any particular portion thereof and intends that the invalid portions should be severed and the balance of the ordinance be enforced.

Section 6: Savings Clause

The provisions of this ordinance shall not affect or impair an act done or right vested or approved or any proceeding, suit or prosecution had or commenced in any cause before such repeal shall take affect; but every such act done, or right vested or accrued, or proceeding, suit or prosecution shall remain in full force and affect to all intents and purposes as if such ordinance or part thereof so repealed had remained in force. No offense committed and no liability, penalty or forfeiture, either civilly or criminally incurred prior to the time when any such ordinance or part thereof shall be repealed or altered by said Code shall be discharged or affected by such repeal or alteration; but prosecutions and suits for such offenses, liabilities, penalties or forfeitures shall be instituted and proceeded with in all respects as if such prior ordinance or part thereof had not been repealed or altered.
Section 7: Effective Date and Publication

This Ordinance shall take effect thirty (30) days after its adoption. In lieu of publication of the full text of the ordinance within fifteen (15) days after its passage, a summary of the ordinance may be published at least five (5) days prior to and fifteen (15) days after adoption by the City Council and a certified copy shall be posted in the office of the City Clerk, pursuant to GC 36933(c)(1).

ORDINANCE: 16-2015

DEVELOPMENT AGREEMENT

BETWEEN THE

CITY OF ELK GROVE

AND

SOUZA ELK GROVE, LLC
DEVELOPMENT AGREEMENT

This Development Agreement (this "Agreement") is entered into by the City of Elk Grove ("City") and Souza Elk Grove, LLC ("Developer"), a California limited liability corporation. City, Owner, and Developer each may be referred to herein as a "Party" and together may be referred to as the "Parties."

RECITALS

A. In July 2014, City adopted the Southeast Policy Area Strategic Plan made up of the Southeast Policy Area Community Plan (the "Community Plan") the Southeast Policy Area Special Planning Area zoning regulations (the "SPA"), the Environmental Impact Report (State Clearinghouse No. 2013042054) (the "EIR") and all accompanying engineering technical studies. The Southeast Policy Area ("SEPA") comprises approximately 1,200 acres in southeast Elk Grove, and the Community Plan established the policy bases for the development and adoption of subsequent programs, regulations and guidelines for future development of the Southeast Policy Area. The primary objective for the Southeast Policy Area is to establish an employment-oriented development that offers a range of job opportunities supported by a balanced mix of locally-oriented retail uses and residential densities.

B. Developer hereby represents and warrants that it holds a legal interest in that certain property described with particularity in Exhibit 1 hereto, that is comprised of approximately 370 acres of land within the Southeast Policy Area and is currently known as the Souza Property (the "Property"). Developer further represents and warrants that it has the consent of the Property owner to record this Agreement in the public records of the County of Sacramento, as evidenced by the written consent attached hereto as Exhibit 1.A.

C. The Community Plan and accompanying SPA designates the Property for a wide range of land uses, including office, commercial, residential, school, parks, trails and public facilities. Consistent with the Community Plan and SPA, Developer proposes to develop the Property with the goal of providing office, commercial and educational job opportunities directly within the Property combined with a broad range of housing opportunities at a variety of price points in close proximity to the larger employment opportunities that will be created by the Strategic Plan. Generally, the Property is proposed to include:

1 A Village Center mixed-use commercial/retail/residential complex located in the central portion of SEPA anticipated to provide services for both the large employment lands to the south and west of the Property and the Property itself;

2 Major public infrastructure (sanitary sewer, storm drainage, domestic water, arterial roads, power and telecommunications) extensions from existing locations, then along the Property’s frontages to the boundary of SEPA’s major employment lands to the south and west of the Property;

3 Public park sites and an elementary school site;

4 Over 4.5 miles of internal off-street public trails and open-space corridors linking all public parks together and to the Village Center and providing a continuous south-to-north connection from the SEPA employment lands through the Village Center, the elementary school site, and toward the
Reardon Community Park, Pinkerton Middle School and Cosumnes Oaks High School sites within the Laguna Ridge Specific Plan;

5 A transit corridor along Big Horn Boulevard and Bilby Road to accommodate the future light rail extension of Sacramento Regional Transit’s Blue Line.

These proposed land uses and development intents, together with the Project major infrastructure and portions of the SEPA Major Infrastructure extensions, generally comprise the Souza Dairy Project (the “Project”).

D. City wishes to obtain commitments from Developer to provide certain amenities and infrastructure improvements necessary to implement the Community Plan and achieve City goals and policy objectives set forth in City’s General Plan, which commitments the City would not be able to obtain in the absence of this Agreement.

E. As consideration for providing such commitments to City, Developer wishes to obtain certain vested rights as specifically laid out within the Agreement, and to receive other City commitments and assurances regarding Developer’s right and ability to develop the Project on the Property, as set forth herein.

F. The Parties wish to accomplish these purposes by entering into this Agreement pursuant to the Development Agreement Law;

NOW, THEREFORE, the Parties agree as follows:

TERMS AND CONDITIONS

1. Definitions

1.1. “Adopting Ordinance” is the ordinance of the City Council approving this Agreement, as adopted on August 26, 2015 by City Ordinance No. 16-2015.

1.2. “Agreement” has the meaning set forth in the Preamble.

1.3. “CCSD” means the Cosumnes Community Services District, and depending on the context, may include its agents, officers, employees, representatives and elected and appointed officials.

1.4. “CFD” means a Community Facilities District formed pursuant to the Mello-Roos Community Facilities Act of 1982 (Government Code § 53311 et seq.).

1.5. “City” means the City of Elk Grove, and depending on the context, may include its agents, officers, employees, representatives and elected and appointed officials.

1.6. “City Council” shall mean the City Council of the City of Elk Grove and its designees.

1.7. “Developer” means Souza Elk Grove, LLC or any Successor.

1.9. “Effective Date” means that day which is thirty (30) days following the
date that the City Council adopts the Adopting Ordinance, unless the Adopting Ordinance becomes subject to a qualified referendum, in which case the Effective Date shall be the day after the referendum election, if the Adopting Ordinance is approved by a majority of the voters. Litigation filed to challenge the Adopting Ordinance or this Agreement shall not affect the Effective Date, absent a court order or judgment overturning or setting aside the Adopting Ordinance, or staying the Effective Date, or remanding the Adopting Ordinance to the City.

1.10. "EIR" means that certain Draft and Final Environmental Impact Report for the Project, State Clearinghouse No. 2013042054, as certified by the City Council.

1.11. "Final Subdivision Map" means a "final map," as that term is used in the Subdivision Map Act (Government Code § 66410 et seq.) that has been approved by the City Council.

1.12. "Large Lot Final Subdivision Map" means a Final Subdivision Map that substantially conforms to the Souza Dairy Large Lot Tentative Subdivision Map, as determined by the City, and has been approved by the City Council Resolution No. 2015-164.

1.14. "Mitigation Measures" mean the mitigation measures included in the EIR or its mitigation monitoring plan as adopted by the City Council.

1.15. "Project" has the meaning set forth in Recital C.

1.16. "Project Approvals" shall mean the following land use approvals, all of which were approved on or before August 26, 2015, which govern development of the Property:

1.16.1. The Southeast Policy Area Special Planning Area zoning regulations as adopted on July 23, 2014 by City Ordinance No. 16-2014

1.16.2. The Large Lot Tentative Subdivision Map as defined by Section 1.13

1.16.3. The Small Lot Tentative Subdivision Map as defined by Section 1.21.

1.17. "Project Major Infrastructure" shall mean the arterial and collector roads and associated underground utilities necessary to provide access and circulation to and within the Project, including but not limited to Big Horn Boulevard, Lotz Parkway, Bilby Road, and A, B, C, D, F, G, H, and K Drives. It also includes, but is not specifically limited to, the Shed C Drainage Channel improvements, Basins S1b and S3, water (potable and recycled) and sewer trunk lines to and within the Project, and other off-site infrastructure necessary to serve the Project as more particularly described in Exhibit 3, which is intended to be a non-exclusive list of Project Major Infrastructure.

1.18. "This Agreement", as adopted by the Adopting Ordinance.

1.19. "SEPA Major Infrastructure" shall mean the arterial roads and associated underground utilities necessary to provide access and circulation to and within the Southeast Policy Area, including but not limited to Big Horn Boulevard, Lotz Parkway, Bilby Road, and Kammerer Road. It also includes, but is not specifically limited to, the sewer lift station and
force main system, trunk drainage in the arterial roads, water trunk lines (potable and recycled), as well as the Shed C Drainage Channel improvements and other infrastructure and improvements as more particularly described in Exhibit 3.

1.20. "Small Lot Final Subdivision Map" means a Final Subdivision Map that substantially conforms to the Souza Dairy Small Lot Tentative Subdivision Map, and has been approved by City Council.

1.22. "SPA" means the Southeast Policy Area Special Planning Area zoning regulations, as initially adopted on July 23, 2014 by City Ordinance No. 16-2014 .

1.23. "Property" is that certain real property consisting of approximately 376 acres in the City of Elk Grove, and as more particularly described in Exhibit 1 hereto. The term "Property" may include all or any part of the Property, depending on the context.

1.24. "Successor" is any assignee approved by the City pursuant to Section 15 (i.e., any recognized successor-in-interest under this Agreement), and all subsequent assignees approved by the City pursuant to Section 15.1.4.

1.26. "Subsequent Approval" means any and all land use, environmental, building and development approvals, entitlements and permits granted by City after the Effective Date to develop and operate the Project on the Property, including but not limited to amendments and modifications to any Project Approvals; boundary changes; tentative and final subdivision maps; parcel maps and lot line adjustments; subdivision improvement agreements; development review; site plan review; conditional use permits; design review; building permits; grading permits; encroachment permits; certificates of occupancy; formation of financing districts or other financing mechanisms; and any amendments thereto (administrative or otherwise).

1.27. "Vested Right" is a right to proceed with the development of the Project in accordance with the terms and scope of the Project Approvals and as limited under Section 4 of this Agreement.

2. Representations, Warranties and Acknowledgments

2.1. Title to Property. Developer represents and warrants that as of the Effective Date, Developer holds a legal or equitable interest in and to the Property.

2.2. Authority. The Parties represent and warrant that the persons signing this Agreement are duly authorized to enter into and execute this Agreement on behalf of their respective principals.

2.3. Brokers. The Parties represent and warrant that they have had no dealings with any real estate broker or agent in connection with the negotiation of this Agreement, and that they know of no other real estate broker or agent who is entitled to a commission in connection with this Agreement. In the event any real estate broker or agent shall come forward and claim the right to a commission or other form of compensation in connection with this Agreement,
Developer shall indemnify, defend and hold harmless the City in accordance with Section 14.1.

2.4. Compliance with Government Code Section 66473.7. A subdivision, as defined in Government Code section 66473.7, shall not be approved unless any tentative map prepared for the subdivision complies with the provisions of said Section 66473.7. This provision is included in this Agreement to comply with Section 65867.5(c) of the Government Code.

3. Term and Termination

The provisions of this Agreement shall be valid for the following terms:

a) The Large Lot Tentative Subdivision Map shall be valid for 20 years from the Effective Date of this Agreement.

b) The restriction on further development of the lots created by the recordation of the Large Lot Final Map(s) set forth in Section 6.1.4 shall continue until such time as the necessary improvements, as determined by the City, have either been completed or sufficient security to complete the improvements has been provided.

c) The Small Lot Tentative Subdivision Map shall be valid for 20 years from the Effective Date of this Agreement.

d) Except as otherwise provided in Exhibit 2 hereto, the restriction to the City of imposing new City development impact fees provided under this Agreement shall only be valid for a term not exceeding ten (10) years from the Effective Date of this Agreement; provided, however, that such restriction shall not preclude the City from enacting and applying to the Project increases in the applicable development impact fees based on normal updates to the City-wide fee programs, to the extent that any such increase applies to the Project on the same basis as applied to all other properties in the City.

Should the Developer be found in breach of this Agreement following completion of the Default procedures set forth in Sections 13.1, 13.2 and 13.3 of this Agreement, all Vesting Rights listed above excluding subsection (b) which shall remain in effect until such time as all of the requirements of Section 6 are fulfilled shall terminate and be of no further force and effect.

3.1. Automatic Termination Upon Sale and Completion of Individual Small Lots. Except as otherwise provided herein, this Agreement shall automatically be terminated with respect to any improved commercial lot or residential lot within a parcel that is shown on a Final Subdivision Map and designated by the Project Approvals for such use, without any further action by any party or need to execute or record any additional document(s), upon issuance by the City of a final occupancy certificate for a residential or non-residential structure or dwelling unit upon such lot and conveyance of such lot by Developer to a bona-fide, good-faith purchaser. In connection with its issuance of a final inspection for such lot, the City shall confirm that all improvements which are required to serve the lot have been completed and dedicated to and accepted by the City, and all applicable fees have been paid by Developer. Termination of this Agreement as to any such lot shall not be construed to terminate or modify any applicable assessment district or special tax lien with respect to such lot.

3.2. Termination by Mutual Consent. This Agreement may be terminated in whole or in part by the mutual written consent of the Parties. Any fees paid or improvements dedicated
to the City prior to the effective date of termination shall be retained by the City.

3.3. **Effect of Termination.** Termination of this Agreement, whether by mutual written consent as provided in Section 3.2, default as provided in Section 13, or by expiration of its own accord, shall not: (1) affect any obligation under this Agreement owed by one party to the other which has already arisen under the terms of this Agreement as of the date of such termination and which remains unsatisfied as of the effective date of termination; (2) affect those provisions of this Agreement which provide that they shall survive the termination of this Agreement; (3) be construed to terminate or modify an applicable covenant, condition, servitude or restriction that runs with the land and binds Successors; (4) affect the validity of any structure on the Property or improvement which is completed as of the date of termination and is in compliance with all necessary permits; or (5) prevent Developer from completing any structure on the Property or improvement under construction at the time of termination, provided that any such structure or improvement is completed in accordance with all necessary permits.

3.3.1. Upon termination of this Agreement, whether by mutual written consent as provided in Section 3.2, default as provided in Section 13, or by expiration of its own accord, the Project Approvals and any amendments thereto shall remain in effect and not automatically be repealed or rescinded, but Developer shall no longer have a vested right to them except to the extent that Developer has independently acquired a common law vested right to them.

4. **Project Approvals and Vested Rights**

4.1. **Vesting of Project Approvals.** Commencing on the Effective Date, and at all times during the terms of the Large Lot Tentative Subdivision Map and the Small Lot Tentative Subdivision Map as set forth in Section 3, Developer shall have Vested Rights in the Project Approvals, subject to the limitations set forth in this Agreement.

4.2. **Subsequent Approvals.** The Parties acknowledge that to develop the Project on the Property, Developer will need to obtain City approval of various Subsequent Approvals, which may include without limitation final subdivision maps, use permits, design reviews, building permits, grading permits, improvement plans, encroachment permits and certificates of occupancy. For any Subsequent Approval proposed by Developer, Developer shall file an application with City for the Subsequent Approval at issue in accordance with the requirements of the City Municipal Code. Provided that such application is in a proper form and includes all required information and payment of any applicable fees, City shall diligently and expeditiously process each such application and the City shall exercise its discretion and Developer shall pay all costs associated therewith. City shall retain the full range of its discretion in its consideration of any and all Subsequent Approvals as provided for under applicable law.

4.2.1. **Substantial Conformance.** To the extent that an application for a Subsequent Approval does not propose either (a) a net reduction in overall employment acreage within the Project, or (b) a net increase in the number of single-family residential units within the Project, the proposed modification(s) may be deemed by the City to substantially conform to the Project Approvals and to all previously-issued Subsequent Approvals, and the fact that such application would result in adjustments to street and lot patterns, lot sizes and specific land uses within the Property (without reducing employment-generating acreage and without increasing the number of permitted residential units) may not, in and of itself, be a basis for the City to deny such application, at the discretion of the City.

4.2.2. **Parkland Requirements.** City hereby acknowledges and agrees that the
Project inclusive of future parkland obligations as part of the Village Center as described in the conditions of approval, complies with the applicable Quimby Act land dedication requirements (5.0 acres/1,000 population), and that no additional land dedications other than that conditioned as part of future development of the Village Center shall be required beyond those shown on the Project’s Large Lot and Small Lot Tentative Subdivision Maps.

4.2.3. Development Plan Design Review. The areas designated as Mixed Use Village Center (MUV) and Mixed Use Residential (MUR) on the SEPA Special Planning Area Land Plan shall be required to undertake additional Development Plan Design Review consistent with the requirements of FGMC Section 23.16.080 B.6 prior to approval of any subsequent development or improvement plans. The City acknowledges the MUV and MUR areas may be developed by independent owners over an extended period of time. As such, Developer and City herein agree that the Development Plan Design Review processes for the MUV and MUR areas may proceed independent of each other, consistent with the provisions of the Community Plan and the Project Approvals. The Conditions of Approval provide a process for the review and completion of this requirement.

4.3. City’s Reserved Discretion; Subsequently Adopted Rules. City may apply to the Property and the Project any new or modified rules, regulations and policies adopted after the Effective Date ("Subsequently Adopted Rules"), only to the extent that such Subsequently Adopted Rules are generally applicable to other similar residential and non-residential (as applicable) developments in the City of Elk Grove (including other areas of the SPA) and only to the extent that such application would not conflict with any of the Vested Rights granted to Developer under this Agreement.

4.3.1. For purposes of this Agreement, any Subsequently Adopted Rule shall be deemed to conflict with Developer’s vested rights hereunder if it:

4.3.1.1. Seeks to limit or reduce the density or intensity of development of the Property or the Project or any part thereof.

4.3.1.2. Would change any land use designation or permitted use of the Property without the consent of Developer.

4.3.1.3. Would limit or control the location of buildings, structures, grading, or other improvements of the Project, in a manner that is inconsistent with the Project Approvals, subject to this Agreement.

4.3.1.4. Would limit the timing or rate of the development of the Project. City hereby acknowledges and agrees that Developer shall have the right to develop the Project on the Property (or any portion thereof) in such order, at such rate, and at such times as Developer deems appropriate within its exercise of subjective business judgment. City further acknowledges and agrees that, except as expressly provided to the contrary herein in Exhibit 4, this Agreement does not require Developer to commence or complete development of the Project or any portion thereof within any specific period of time. This limitation on Subsequently Adopted Rules is expressly intended to prohibit City Council initiated moratoria or other City Council initiated land use or growth controls for a period of ten (10) years. Such moratoria or land use growth controls that are adopted by a vote of the electorate of the City of
Elk Grove pursuant to initiative are not prohibited.

4.3.1.5. Seeks to impose on the Property or the Project any Development Impact Fees that are not in effect on the Effective Date of this Agreement, except as otherwise provided in Exhibit 2 hereto.

4.3.2. Notwithstanding the foregoing, and by way of example but not as a limitation, City shall not be precluded from applying any Subsequently Adopted Rules to development of the Project on the Property where the Subsequently Adopted Rules are:

4.3.2.1. Specifically mandated by changes in state or federal laws or regulations adopted after the Effective Date as provided in Government Code Section 65869.5;

4.3.2.2. Specifically mandated by a court of competent jurisdiction;

4.3.2.3. Changes to the Uniform Building Code or similar uniform construction codes, or to City’s local construction standards for public improvements so long as such code or standard has been adopted by City Council and is in effect on a Citywide basis; or

4.3.2.4. Changes to development standards set forth in the SPA and the City’s zoning ordinance that do not eliminate an established land use designation or a permitted use, provided that the allowable changes described in this Agreement may not be applied to development of the Project on the Property earlier than for a period of ten (10) years from the Effective Date.

4.3.2.5. Required as a result of facts, events or circumstances presently unknown or unforeseeable that would otherwise have an immediate and substantially adverse risk on the health or safety of the surrounding community as reasonably determined by City.

4.3.3. Notwithstanding the foregoing, and as provided in Section 15 below, the Developer or any Successor may request, and the City may consent to the application of, Subsequently Adopted Rules as provided for in an amended SPA or other City regulation that would be applicable to the Property subject to the terms of this Agreement. Application of the Subsequently Adopted Rules shall not constitute an amendment to this Agreement. An individual Successor’s agreement to apply Subsequently Adopted Rules shall be applicable only to Successor’s interest in the Project and/or Property and shall not be binding on the Developer or other Successor parties without their express written consent.

4.4. Building Codes Applicable. The Project shall be constructed in accordance with the California Building Standards Codes, Title 24 of the California Code of Regulations, as adopted and amended by the City, as the same shall be in effect as of the time of approval of the permit in question. If no permit is required for a given infrastructure improvement or other improvement, such improvement will be constructed in accordance with said Codes in effect in the City as of the commencement of construction of such improvement.
4.5. **Meet and Confer.** If Developer believes that the City is taking action that may impair a vested right conferred by this Agreement, Developer shall provide written notice to City describing the basis for Developer’s position within thirty (30) days of such claim and shall request a meeting within 30 days with the City. If no such meeting is requested, no such impairment can be claimed. This shall not impair any right to interim relief such as an injunction or temporary restraining order. Before taking such action, the City shall meet and confer with Developer in a good faith effort to arrive at a mutually acceptable solution.

4.6. **Referendum.** Developer acknowledges that those Project Approvals which are legislative land use approvals are potentially subject to referendum. Notwithstanding anything in this Agreement to the contrary, Developer shall not acquire a vested right to any legislative land use approval (or to any amendment thereto): (1) while such approval or amendment is still potentially subject to referendum as provided in Section 9235 of the California Elections Code, or (2) in the event that such approval or amendment is reversed by referendum.

4.7. **Court Order or Judgment.** Notwithstanding anything in this Agreement to the contrary, a vested right acquired by Developer with respect to any Project Approval shall be deemed a nullity without compensation to Developer in the event that such Project Approval is overturned or set aside by a court of law. An invalidated Project Approval shall regain its vested right status in the event the court’s decision invalidated Project approval is reversed on appeal.

5. **Term of Subdivision Maps.** The term or “life” of any Tentative Subdivision Maps for the Project shall be as provided in Section 3 above.

6. **Large Lot Final Subdivision Map.**

6.1. Developer and City acknowledge that the Large Lot Final Subdivision Map is for the purposes of (a) creating rights-of-way and easements to facilitate the construction of public roadways and major infrastructure facilities needed to serve the Property and the adjacent SEPA employment lands; and (b) allowing Developer to market and sell the subdivided parcels. To further facilitate and achieve these purposes, Developer and City herein agree that:

6.1.1. No bonding, financial security or other encumbrances shall be required as conditions of approval or prior to recordation of a Large Lot Final Subdivision Map, provided the terms of this Agreement are satisfied.

6.1.2. Mass grading on the Property shall be allowed, subject to Developer providing bonding or other security in such forms as are allowed by the Subdivision Map Act and the Elk Grove Municipal Code, and subject to the issuance of a grading permit.

6.1.3. Construction shall be allowed for roadways and utilities for which rights-of-way or easements are provided on the Large Lot Final Subdivision Map, subject to Developer entering into a public improvement agreement and providing bonding or other security in such forms as are allowed by the Subdivision Map Act and Elk Grove Municipal Code prior to the issuance of a construction or building permit, as applicable.

6.1.4. Prior to the satisfactory completion, as reasonably determined by City, of the public improvements ("Project Major Infrastructure" and portions of the "SEPA Major Infrastructure") necessary to provide improved public access to each lot created by a Large Lot Final Subdivision Map (collectively, the "Necessary Improvements"), or provision of security for such Necessary Improvements, the Developer acknowledges and agrees that Developer will not
be entitled to the issuance of any building permits for structures on the lots created by the Large Lot Final Subdivision Map, and will not be entitled to approval of any Small Lot Final Subdivision Map applicable to any property that is covered by the Large Lot Final Subdivision Map.

7. Fees, Improvements and Mitigation Measures

7.1. Development Impact Fees. Developer shall pay or cause to be paid, at the time normally required by the City or as specified in the Conditions of Approval, the Applicable Development Impact Fees in the amounts due and in effect at the time of payment, unless otherwise noted herein or in conformance with a fee deferral program administered by any specific agency or district. Consistent with Section 4.2.1.4 above, and any and all provisions of this Agreement to the contrary notwithstanding, Developer shall not be required to pay any Development Impact Fees adopted by City after the Effective Date except as otherwise provided in Exhibit 2.

7.2. Credits and Reimbursements. Developer shall be eligible for reimbursement in form of cash or credits for all development of the Project on the Property, including without limitation all land acquisitions and dedications, in accordance with the City’s normal rules and practices including its Municipal Code Chapters 16.95 and 22.40 and all other applicable Codes and Policies for cash or credit and reimbursement, and as otherwise provided herein. City will provide reimbursement to the Project against public improvements and land dedications covered under existing Development Impact Fee Programs or Community Facilities Districts or those created to apply to the SEPA by the City Council. The applicable fee programs and/or use of Community Facilities District bond proceeds or special taxes as a source of cash or credit reimbursement shall be, governed by their respective governing documents (as to Community Facilities Districts, including but not limited to the bond indenture and acquisition agreement and as to Development Impact Fee Programs, the applicable Nexus Reports) which shall set forth how reimbursement is to occur and which shall include applicable limitations imposed by the City in accordance with the City’s Land Secured Financing Policy dated December 13, 2013 (and any subsequent amendments thereto) or otherwise imposed, which shall include that in no event may Developer be reimbursed twice (as determined by the City) for the same facility.

7.3. Project Specific Parks and Trails. Developer shall have the right, but not the obligation, to design and construct the parks and trails within Project, provided that if Developer exercises such right, it shall design and construct such parks and trails in accordance with applicable SEPA and City standards (and to the reasonable satisfaction of the City and CCSD) within time frames mandated by the City and the CCSD as may be required by the April 27, 2015 Memorandum of Understanding between the City of Elk Grove and the Cosumnes Community Services District Concerning the Development of Park and Recreation Facilities and any amendment, extension, or subsequently approved similar document. Park lands shall be dedicated by Developer as part of its standard final mapping processes.

7.4. Mitigation of EIR Impacts. Development of the Project on the Property shall conform to and implement the Mitigation Measures in accordance with the schedule in the mitigation monitoring plan adopted by the City Council in connection with the certification of the SEPA EIR.

7.5. Liens. Whenever Developer shall dedicate an interest in land to the City, the property shall be free and clear of all liens, taxes, assessments and encumbrances except as allowed by the City.
7.6. Escrow Account. An escrow account may be used at the City’s discretion, in connection with any of Developer’s required dedications. All fees and costs of such escrow accounts shall be shared equally by the Parties.

7.7. Other Public Agencies. Nothing in this Agreement is intended to affect the authority of public agencies other than the City to impose dedication or improvement conditions or fees on development of the Property.

7.8. City Engineer. All improvements and work performed by Developer in connection with the Project shall be to the reasonable satisfaction of either the City Engineer or Public Works Director or Development Services Director, or their designee.

8. Participation in Existing City Community Facilities and/or Assessment Districts

8.1. Annexation. Prior to the approval of any Small Lot Final Subdivision Map for the Project, Developer shall consent to annexation of that portion of the Property to the City’s facilities maintenance and services financing districts as provided in the Conditions of Approval.

8.2. Assessment Rate. The assessment rate for each maintenance or service district shall be calculated and determined by the City in its sole discretion and shall be subject to annual adjustments in accordance with the provisions of the applicable district, state and local rules and regulations and City policies and practices.

9. Formation of New Community Facilities District (New CFD)

9.1. Formation. Developer may petition for the formation of one or more community facilities districts (New CFD(s)) for the purpose of financing the acquisition or construction of any Project Major Infrastructure required by this Agreement, and/or for the any other SEPA Major Infrastructure necessary for development of the Project, and issuing bonds thereon. The decision of whether to undertake and/or complete New CFD formation procedures shall be within the absolute discretion of the City.

9.2. Costs - Formation. Developer shall be solely responsible for the costs of forming and establishing any CFD’s, or other Applicable Development Impact Fee programs. Such establishment shall be pursuant to and subject to the City’s Land Secured Financing Policy dated December 13, 2013, and any subsequent amendments by the City. Deposit(s) shall be required as the City determines are appropriate.

9.3. Costs – Construction. Developer acknowledges there shall be no cost to City arising out of the construction of the public improvements necessary for the Project, other than as fee credits and/or reimbursements from the existing or new Applicable Development Impact Fee programs, subject to Section 7.3.

9.4. Payment Prior to Issuance of Bonds. Nothing in this Agreement shall preclude the payment by an owner of any of the parcels to be included within a New CFD an amount equal to its proportionate share of costs for the improvements to be financed by the CFD, or any portion thereof, prior to the issuance of bonds.

9.5. Acquisition and Payment. Prior to constructing any public improvements contemplated by, and subject to an acquisition in, an existing CFD or a New CFD, Developer and City shall execute an Acquisition Agreement that provides for, among other things, the
payment (including progress payments) for and City's acquisition of the contemplated public improvements and/or specific beneficial elements of such improvements. City's payments for such public improvements and beneficial elements thereof shall be funded from either CFD bond proceeds, or impact fee funds funded by CFD bond proceeds, to the extent sufficient funding capacity exists in an existing CFD or a New CFD to acquire the public improvements and beneficial elements, and may be paid to the person or entity constructing the public improvements and/or beneficial elements, or directly to the contractors responsible for such construction.

10. **Formation of New Assessment Districts (New AD)**

10.1. **Formation.** Developer may petition for the formation of a New AD(s) for the purpose of maintaining any Project Major Infrastructure and/or SEPA Major Infrastructure required by this Agreement. The decision of whether to initiate New AD formation procedures shall be within the absolute discretion of the City, for which such petition may not be unreasonably denied.

10.2. **Costs - Formation.** Developer shall be solely responsible for the costs of forming and establishing any New AD's. Such establishment shall be pursuant to and subject to the City's Land Secured Financing Policy dated December 13, 2013, and any subsequent amendments by the City.

10.3. **Costs – Maintenance.** Developer acknowledges there shall be no cost to City arising out of the maintenance of the SEPA Major Infrastructure or Project Major Infrastructure, or other public infrastructure established to serve the Project, other than from existing or new City Assessment District programs established pursuant to all applicable laws. It is anticipated that Developer shall be placed in Community Facilities District 2006-1 and an appropriate subset zone has yet to be determined by City staff. Developer may provide any input it deems appropriate to the City to assist the City in its determination as to the correct zone for the Project. CFD 2006-1 has a maintenance component for both City-wide maintenance and maintenance specific to the location of the Project. It should be noted that Developer is also conditioned to participate in Stormwater Drainage Fee Zone 2, Police Services 2003-2, and Street Maintenance.

10.4. **Cost of Maintenance Obligations.** Developer acknowledges the total annual cost of the maintenance obligations will not be known as of the Effective Date, and therefore will be determined thereafter. The determination of costs shall be in the sole discretion of the City. The annual assessment of the New AD shall be adjusted annually consistent with City policy and practice, based upon an index approved by the City.

11. **Establishment of Homeowners' and/or Business Owners' Association(s)**

11.1. **Formation.** Developer may cause to be established or shall cause to be established where required by law a Homeowners' and/or a Business Owners' Association(s) or other non-governmental entity, to the reasonable satisfaction of the City, to own and perform the maintenance of private, common area improvements within the Project, if such areas are designated by the Developer.

11.2. **Bylaws and CC&R's.** The City shall have the right but not the obligation to approve and enforce all bylaws for any Homeowners' and/or Business Owners' Association(s) and all Covenants, Conditions and Restrictions on the Property as they pertain to maintenance
and repair obligations and parking restrictions on any private roads, if such areas are designated by Developer.

12. Amendments to this Agreement

12.1. Amendment by Mutual Consent. This Agreement may be amended in writing from time to time by mutual consent of all of the Parties hereto and in accordance with the procedures of the Development Agreement Law.

12.2. Amendment of Project Approvals. Any amendment of Project Approvals shall require an amendment of this Agreement in accordance with the procedures of the Development Agreement Law. Amendments of other Project Approvals shall not require amendment of this Agreement.

13. Default

13.1. Default. The failure of any Party to this Agreement to perform any obligation or duty under this Agreement within the time required by this Agreement shall constitute an event of default. (For purposes of this Agreement, a party asserting that the other party is in default shall be referred to as the “Complaining Party” and the other party shall be referred to as the “Defaulting Party.”)

13.2. Notice. The Complaining Party may not place the Defaulting Party in default unless it has first given written notice to the Defaulting Party, specifying the nature of the default and the manner in which the default may be cured. Any failure or delay by the Complaining Party in giving such notice shall not waive such default or waive any of the Complaining Party’s remedies.

13.3. Cure. The Defaulting Party shall have thirty (30) days from the receipt of notice to cure the default. If the default is not cured within 30 days of receipt of such notice, the Defaulting Party shall be in breach of this Agreement; provided, however, that if the default cannot be reasonably cured within such 30-day period, the default shall be deemed cured if: (1) the cure is commenced at the earliest practicable date following receipt of notice; (2) the cure is diligently prosecuted to completion at all times thereafter; (3) at the earliest practicable date (but in no event later than thirty (30) days after receiving the notice of default), the Defaulting Party provides written notice to the Complaining Party that the cure cannot be reasonably completed within such thirty (30) day period; and (4) the default is cured at the earliest practicable date, but in no event later than ninety (90) days after receipt of the first notice of default.

13.4. Remedies. If the Defaulting Party fails to cure a default in accordance with the foregoing, the Complaining Party shall have the right to terminate this Agreement upon notice to the Defaulting Party and may pursue such legal and equitable remedies as are available under this Agreement.

13.5. Waiver of Damages. Developer acknowledges that under the Development Agreement Law, land use approvals (including development agreements) must be approved by the City Council and that under law, the City Council’s discretion to vote in any particular way may not be constrained by contract. Developer therefore waives all claims for damages against the City in the event that this Agreement or any Project Approval is: (1) not approved by the City Council or (2) is approved by the City Council, but with new changes, amendments, conditions
or deletions to which Developer is opposed. Developer further acknowledges that as an instrument which must be approved by ordinance, a development agreement is subject to referendum; and that under law, the City Council's discretion to avoid a referendum by rescinding its approval of the underlying ordinance may not be constrained by contract, and Developer waives all claims for monetary damages against the City in this regard. Notwithstanding anything in this Agreement to the contrary, the Parties acknowledge that the City would not have entered into this Agreement had it been exposed to liability for monetary damages from Developer, and that therefore, Developer hereby waives any and all claims for monetary damages against the City for breach of this Agreement. Nothing in this section is intended to nor does it limit Developer's or the City's rights to equitable remedies as permitted by law, such as injunctive and/or declaratory relief, provided that Developer waives any claims to monetary damages in conjunction with any such requested relief.

13.6. Rescission. In the event Developer believes that the purposes of this Agreement have been frustrated by the City Council's approval of this Agreement or any Project Approval with new changes, amendments, conditions or deletions to which Developer is opposed, Developer shall have ten days after such approval in which to provide written notice to the City that this Agreement shall be rescinded, without any further liability of the parties. However, if any maps have been recorded the restriction on issuance of building permits and recordation of Small Lot Final Maps shall remain in effect.

14. Insurance and Indemnity

14.1. Indemnification, Defense and Hold Harmless. Developer shall indemnify, defend, and hold harmless to the fullest extent permitted by law, the City (as defined in this Agreement) from and against any and all claims, liability, loss, damage, expense, costs (including without limitation costs and fees of litigation) of every nature arising out of or in connection with the Project, the Project Approvals or the Property (including any challenge to the adoption or validity of any provision of this Agreement or the Project Approvals, and including any actions or inactions of Developer's contractors, subcontractors, agents, or employees in connection with the construction, improvement, operation, or maintenance of the Property or the Project), or Developer's failure to comply with any of its obligations in this Agreement, or Developer's failure to comply with any current or prospective Law; provided, however, that Developer shall have no obligations under this Section for such loss or damage which was caused by the sole negligence or willful misconduct of the City, or with respect to the maintenance, repair or condition of any Improvement after dedication to and acceptance by the City or another public entity (except as provided in an improvement agreement or warranty bond). This indemnification obligation shall survive this Agreement and shall not be limited by any insurance policy, whether required by this Agreement or otherwise.

14.1.1. In the event of any administrative, legal or equitable action instituted by any third party challenging this Agreement or any City approval, consent or action made in connection with this Agreement (each a "Third Party Challenge"), the City may tender the defense to Developer. In the event of such tender, Developer shall indemnify the City, against any and all fees and costs arising out of the defense of such Third Party Challenge. Developer shall be entitled to direct the defense such Third Party Challenge, provided the City's consent shall be required for any settlement.

14.1.2. If Developer should fail to timely accept a tender of defense as provided above, City (and CCSD, as applicable) may assume the control of the defense and settlement of such Third Party Challenge, and make any decisions in connection therewith in its sole
discretion. Such assumption of the defense by the City shall not relieve Developer of its indemnification obligations for such Third Party Challenge.

14.2. **Required Policies.** Developer shall at all times during any construction activity with respect to the Project maintain a policy in an amount of $2 million combined single limit of: (1) comprehensive general liability insurance with policy limits reasonably acceptable to the City; and (2) Workers’ Compensation insurance for all persons employed by Developer for work at the Project site. Developer shall require each contractor and subcontractor similarly to provide Workers’ Compensation insurance for their respective employees.

14.3. **Policy Requirements.** The aforesaid required policies shall: (1) contain an additional insured endorsement naming the City, their elected and appointed boards, commissions, officers, agents, employees and representatives; (2) include either a severability of interest clause or cross-liability endorsement; (3) require the carrier to give the City at least fifteen (15) business days’ prior written notice of cancellation or reduction in coverage; (4) be issued by a carrier admitted to transact insurance business in California; and (5) be in a form reasonably satisfactory to the City.

14.4. **Evidence of Insurance.** Prior to commencement of any construction activity with respect to the Project, Developer shall furnish evidence satisfactory to the City of the insurance required above.

15. **Binding Effect on Successors**

15.1. Assignment.

15.1.1. Developer shall have the right to assign or transfer all or any portion of its interests, rights, or obligations under the Project Approvals, this Agreement, and the Subsequent Approvals to Successors acquiring a legal or equitable interest in the Property, or any portion thereof, as provided for herein.

15.1.2. Developer shall provide the City Manager notice of any sale, transfer, or assignment of all or any portion of the Property not less than ten (10) business days prior to the effective date of such sale, transfer or assignment. No sale, transfer or assignment of all or any portion of the Property by Developer shall be effective without the written consent of the City Manager, which consent shall not be unreasonably withheld; however, the assignee, to the extent to which they are assuming the obligation, shall demonstrate sufficient financial backing, experience, and capacity to deliver the necessary SEPA Major Infrastructure and Project Major Infrastructure to serve the Project and fulfill the terms of the Agreement. Upon issuance by the City Manager of written consent of such sale, assignment or transfer, Developer shall be released from any further liability or obligation hereunder related to that portion of the Property so conveyed, and the Successor shall be deemed to step into the shoes of Developer for purposes of this Agreement with respect to such conveyed property.

15.1.3. The City Manager’s withholding of consent shall be deemed reasonable if the proposed assignee is unable to satisfy the City that it possesses the financial resources to pay the fees, make dedications or complete improvements required under this Agreement.

15.1.4. Any attempt to assign any rights under this Agreement without the written consent of the City Manager as provided in this Section 15 shall be void and constitute a default under this Agreement.
15.1.5. Transfer Agreements

15.1.5.1. In connection with the transfer or assignment by Developer of all or any portion of the Property, Developer and the Successor shall enter into a written transfer agreement ("Transfer Agreement") regarding the respective interests, rights, and obligations of Developer and the Successor in and under the Project Approvals, this Agreement, and the Subsequent Approvals. Such Transfer Agreement must be in a form approved by the City and shall, to the extent applicable and approved by the City.

a) Release Developer, in whole or in part, from obligations under the Project Approvals and this Agreement, or the Subsequent Approvals that pertain to that portion of the Property being transferred, as described in the Transfer Agreement, provided that the Successor expressly assumes such obligations and City consents to Successor's assumption;

b) Transfer to the Successor vested rights, to the extent provided in this Agreement, to improve that portion of the Property being transferred;

c) Require the Successor to secure all required bonds and insurance as required under this Agreement; and

d) Address any other matter deemed by Developer, Successor and/or City to be necessary or appropriate in connection with the transfer or assignment of this Agreement.

15.1.5.2. The Developer and/or Successor shall pay to City all of City's reasonable costs associated with review, approval or denial, and/or appeal of the Transfer Agreement, including but not limited to City staff time (including staff, agents, and authorized consultants) and resources, including but not limited to preparation and production of Staff Report(s) and publication of hearing notice(s) as City deems necessary.

15.1.5.3. Any Transfer Agreement shall be binding on Developer and the Successor. The Transfer Agreement shall be recorded by the City on the subject property at Successor's expense.

15.1.6. Subsequent Assignments. Any Successor may assign its rights under this Agreement by complying with the procedures set forth in this Section.

15.1.7. Runs with the Land. Except as otherwise provided in this Section 15, all of the provisions, rights, terms, covenants, and obligations contained in this Agreement shall be binding upon the parties and their respective heirs, successors and assignees, representatives, lessees, and all other persons acquiring the Property, or any portion thereof, or any interest therein, whether by operation of law or in any manner whatsoever. All of the provisions of this Agreement shall be enforceable as equitable servitudes and shall constitute covenants running with the land pursuant to applicable laws, including, but not limited to, Section 1466 of the Civil Code of the State of California. Each covenant to do, or refrain from doing, some act on the
Property hereunder, or with respect to any owned property; (a) is for the benefit of such properties and is a burden upon such properties; (b) runs with such properties; and (c) is binding upon each party and each successive owner during its ownership of such properties or any portion thereof, and shall be a benefit to and a burden upon each party and its property hereunder and each other person succeeding to an interest in such properties.

15.1.8. **Subsequently Adopted Rules.** As provided in Section 4.3.3 above, the City and any individual Successor may mutually agree, in a writing signed by the Parties, to apply to the Property and the Project any Subsequently Adopted Rules that would otherwise not be applicable to the Property under this Agreement.

16. **Miscellaneous**

16.1. **Estoppel Certificate.** Either Party may at any time request another Party to certify in writing that: (1) this Agreement is in full force and effect; (2) this Agreement has not been amended except as identified by the other party; and (3) to the best knowledge of the other party, the requesting Party is not in default, or if in default, the other Party shall describe the nature and any amount of any such default. The other Party shall use its best efforts to execute and return the estoppel certificate to the requesting party within thirty (30) days of the request. The City Manager shall have authority to execute such certificates on behalf of the City.

16.2. **Recordation.** This Agreement shall not be operative until recorded with the Sacramento County Recorder’s office. The City Clerk shall record this Agreement at Developer’s expense within the County Recorder’s office within ten (10) days of the Effective Date, and shall cause any amendment to this Agreement or any instrument affecting the term of this Agreement to be recorded within ten (10) days from date on which the same become effective. Any amendment to this Agreement or any instrument affecting the term of this Agreement which affects less than all of the Property shall contain a legal description of the portion thereof that is the subject of such amendment or instrument.

16.3. **Notices.** All notices required by this Agreement or the Development Agreement Law shall be in writing and personally delivered or sent by certified mail, postage prepaid, return receipt requested. Notice required to be given to the City shall be addressed as follows:

City of Elk Grove
Planning Director
8401 Laguna Palms Way
Elk Grove, CA 95758
(With a copy to the City Manager)

Notice required to be given to Developer shall be addressed as follows:

Souza Elk Grove, LLC
Mr. Gerry N. Kamilos, Manager Member
11249 Gold Country Blvd., Ste. 190
Gold River, CA 95670

Either Party may change the address stated herein by giving notice in writing to the other Party, and thereafter notices shall be addressed and transmitted to the new address. All notices shall be deemed received on the earlier of the date that personal delivery is effected or the date shown on the return receipt.
16.4. **Further Assurances, Consent and Cooperation.** The Parties agree to execute such additional instruments as are reasonably necessary to effectuate the Parties' intent of this Agreement; provided, however, that the City Council's discretion to vote in a particular manner cannot be constrained and that the City shall not be required to incur any costs thereby. Whenever the consent or approval of the other Party is required under this Agreement, such consent shall not be unreasonably withheld, conditioned or delayed. The Parties shall cooperate in good faith in obtaining any permits, entitlements or approvals required by other government entities for the Project.

16.5. **Business Relationship.** The Parties acknowledge that Developer is not an agent, joint venturer, or partner of either the City.

16.6. **Third Party Beneficiaries.** This Agreement is entered into for the sole benefit of the Parties hereto and any Successors. No other Party shall have any cause of action or the standing to assert any rights under this Agreement.

16.7. **Force Majeure.** Neither Party shall be liable for, and the Parties shall be excused from, any failure to deliver or perform or for delay in delivery or performance (except any obligation to pay any sum of money) due to any act of God.

16.8. **Bankruptcy.** The obligations of this Agreement shall not be dischargeable in bankruptcy.

16.9. **Liability of Officials.** No City official or employee shall be personally liable under this Agreement.

16.10. **Delegation.** Any reference to any City body, official or employee in this Agreement shall include that the designee of that body, official or employee, except where delegation is prohibited by law.

16.11. **Severability.** Should any provision of this Agreement be found invalid or unenforceable by a court of law, the decision shall affect only the provision interpreted, and all remaining provisions shall remain enforceable.

16.12. **Integration.** This Agreement constitutes the entire understanding and agreement of the Parties with respect to the subject matter hereof and supersedes any previous oral or written agreement. This Agreement may be modified or amended only by a subsequent written instrument executed by all of the Parties.

16.13. **Counterparts.** This Agreement may be signed in one or more counterparts, and will be effective when all of the Parties have affixed their signatures to the counterparts, at which time the counterparts together shall be deemed one original document; provided, however, that all executed counterparts are provided to the City Clerk.

16.14. **Interpretation.** The Parties acknowledge that this Agreement has been negotiated by all Parties and their legal counsel and agree that this Agreement shall be interpreted as if drafted by all Parties.

16.15. **Inconsistency.** In the event of any conflict or inconsistency between the provisions of this Agreement and the Project Approvals or Exhibits, this Agreement shall prevail.
16.16. **Incorporation.** The recitals and all defined terms in this Agreement are part of this Agreement. The following Exhibits attached hereto are incorporated into this Agreement and made a part hereof by this reference:

- Exhibit 1: Legal Description
- Exhibit 1.A Consent to Recordation
- Exhibit 2: Development Impact Fees
- Exhibit 3: Project Major Infrastructure
- Exhibit 4: SEPA Major Infrastructure
- Exhibit 5: Project Major Infrastructure Obligations
- Exhibit 6: Elk Grove City Council Resolution 2015-164

16.17. **Compliance with Laws.** In connection with its performance under this Agreement, Developer shall comply with all applicable present and prospective Laws. Applicable Law.

16.18. **Applicable Law.** This Agreement shall be construed and enforced in accordance with the laws of the State of California without regard to principles of conflicts of law. In the event of litigation arising under this Agreement, venue shall reside exclusively in the Superior Court of the County of Sacramento.

16.19. **Time of the Essence.** Time is of the essence with respect to all rights, obligations and provisions of this Agreement.

IN WITNESS WHEREOF, this Agreement has been executed as of this 26th day of August, 2015.

**CITY OF ELK GROVE**

Re: Development Agreement between the City of Elk Grove and Souza Elk Grove, LLC; Consent to Record Development Agreement

Dear Ms. Gill:

This firm represents Souza Dairy, LP ("Dairy") in connection with their efforts to sell approximately 376 acres of land in the City of Elk Grove ("City") within the City's Southeast Policy Area, currently known as the Souza Property (the "Property"). Dairy currently owns the Property and has executed an Agreement of Purchase and Sale ("PSA") with Souza Elk Grove, LLC ("SEG") which provides for SEG to obtain certain land use entitlements from the City and for SEG to purchase the Property subject to the satisfaction of certain conditions set forth in the PSA.

We understand that, SEG and the City have negotiated the terms of a Development Agreement ("DA") to govern development of the Property as provided by California Government Code Section 65864 et seq., and which will be considered by the City Council on August 12, 2015. Dairy is not a party to the DA. A copy of the DA has been provided to and reviewed by me on behalf of Dairy. We further understand that, upon executing a DA governing the development of property within its jurisdiction, the City is required by Government Code Section 65868.5 to record the DA in the official records of Sacramento County, and that the City has requested of SEG that it obtain the consent of Dairy for such recording of the DA. By the signatures below, Dairy, through its General Partner, hereby consents to the City's recording of the DA in the official records of Sacramento County, as provided by Government Code Section 65868.5, if it is approved by the City Council and executed by SEG and the City.

(00131900.)
Please direct any questions to me at the above address.

Sincerely,

Brett S. Jolley
Shore, McKinley & Conner, LLP

EXHIBIT 2

DEVELOPMENT RELATED FEES

The development related fees applicable to the Project are described below. More information about the City-administered fees, including fee values, may be found in the City’s Development Related Fee Booklet, which is published on a regular basis and available from the City’s Finance Department.

1. Applicable Development Impact Fees

The Applicable Development Impact Fees are listed below. The amount of the fee collected shall be the amount normally due at the time of payment. Developer shall be eligible for credits and or reimbursements for all development of the Project on the Property, including land acquisitions and dedications when in accordance with the City’s normal rules and practices including its Municipal Code Chapters 16.95 and 22.40 and all other applicable Codes and Policies for credits and reimbursements, except as otherwise expressly provided herein. City will provide credit and or reimbursement to the Project against public improvements and land dedication covered under applicable fee programs administered by the City, including but not limited to roadways, parks, trails, drainage, and capital facilities.

Any fee lock described in the Development Agreement shall only be effective for a term not exceeding ten (10) years from the Effective Date of this Agreement; provided, however, that such restriction shall not preclude the City from enacting and applying to the Project increases in the applicable development impact fees based on normal updates to the City-wide fee programs, to the extent that any such increase applies to the Project on the same basis as applied to all other properties in the City. These fees shall be the following, or their equivalent, as may be updated from time to time.

- Existing Fees applicable to the Project:
  - Capital Facilities Fee
  - Affordable Housing Fee
  - Roadway Fee
- Pending Fees applicable to the Project:
  - Southeast Policy Area Cost Recovery Fee Program
  - Southeast Policy Area Drainage Fee
  - Southeast Policy Area Parks Fee
  - Southeast Policy Area Trails Fee
  - I-5 Freeway Sub-Regional Corridor Mitigation Fee

1 The Parties understand that the I-5 Freeway Sub-Regional Corridor Mitigation Fee will be coming before City Council for consideration of adoption in the foreseeable future. If City Council should adopt the Fee the Fee shall apply to the Project according to the Fee Program terms.
2. Other City Permit and Inspection Fees

Additionally, and consistent with this Agreement and in accordance with the published City of Elk Grove Development Related Fee Booklet, the Project shall be subject to all other City Permit and Inspection Fees, including but not limited to the following. This list is separate and not part of the list of Applicable Development Impact Fees.

- Building Permit Fee
- General Plan Update Fee
- Technology Fee
- CBSC Fee
- Construction and Demolition Fee
- Improvement Plan Check and Inspection Fees
- Mitigation Monitoring and Reporting
- Condition Compliance pursuant to the City of Elk Grove Planning and Application Agreement Section 7 “Processing Fee Agreement”
- Subsequent project processing (entitlement) fees and charges
- Swainson’s Hawk Fee
- Agricultural Land Mitigation Fee
- Oak Tree Mitigation Fee

3. Other Agency Fees

The Project shall be subject to all other applicable agency fees as required by Cosumnes Community Services District (CCSD), Elk Grove Unified School District (EGUSD), Sacramento Area Sewer District (SASD), Sacramento County Water Agency (SCWA), or other agencies or services providers, including but not limited to the following fees as may or may not be collected by the City on behalf of these agencies:

- EGUSD School Impact Fee
- SASD Sewer Impact Fee
- Sacramento Regional County Sanitation District (SRCSD) Sewer Impact Fee
- SCWA Water Fee
- CCSD Fire Fee
- Sacramento County Transportation Mitigation Fee Program (SCTMFP) Measure A Development Impact Fee
- Capital Southeast Connector JPA Fee (to the extent the fee replaces or supplants the roadway fee applicable to Kammerer Road.)
- Any other fees mandated by any State or Federal Agency whether imposed now or later such as the Army Corps of Engineers or the Department of Fish and Wildlife whether collected as a City fee or separate agency fee.

This Agreement does not lock in any outside agency fees.
EXHIBIT 3

PROJECT MAJOR INFRASTRUCTURE

"Project Major Infrastructure" means the following roads and utility facilities intended to serve the Project on the Property and to extend services beyond the Property to SEPA's primary employment areas adjacent to the Property:

1. Major Infrastructure Arterial Roadways:
   1.1. Big Horn Boulevard from its existing terminus at Cosumnes River College south to and including the crossing of the Shed C Drainage Channel;
   1.2. Lotz Parkway from the southeast corner of the Project south to Kammerer Road; and
   1.3. Bilby Road from Big Horn Boulevard east to and including the crossing of the Shed C Drainage Channel.

2. Major Infrastructure Primary Utility Facilities:
   2.1 Sanitary Sewer Lift Station and Force Mains, which are facilities necessary for and shared with the development areas within Laguna Ridge South;
   2.2 Sanitary Sewers: 1) Trunk Sewers from the Lift Station east within the Bilby Road corridor to and including the crossing of the Shed C Drainage Channel and north and south within the Big Horn Boulevard corridor to the extent of the Project's Big Horn Boulevard construction; and 2) the portions of the Collection Sewers which are located within the Project's Arterial Roadway construction;
   2.3 Storm Drainage: 1) Shed C Drainageway from Big Horn Boulevard east to Lotz Parkway, including those arterial roadway crossings; 2) Trunk Storm Drains and the portions of Local Storm Drains which are located within the Project's Arterial Roadway construction;
   2.4 Domestic Water: Transmission Mains and the portions of the Distribution Mains which are located within the Project's Arterial Roadway construction;
   2.5 Reclaimed Water: Distribution Mains which are located within the Project's Arterial Roadway construction; and
   2.6 Dry Utilities: The electric, gas and telecommunication utility facilities common with the Project's Arterial Roadway construction.

4. Onsite Utility Facilities: All utilities required as part of the construction of the Onsite Roadways; and 2) Drainage Basins S1b and S3.

5. Onsite Trail Corridors: Shed C Drainageway and those within the designated Parkways and the extensions of those Trail Corridors through the Parks. Note – these could also be listed as Lots E, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z, AA, BB, CC, DD, EE, FF, and GG.

6. Onsite Parks.
EXHIBIT 4

SEPA MAJOR INFRASTRUCTURE

"SEPA Major Infrastructure" means the following arterial roadways and primary utility facilities required to serve all development areas within the Southeast Policy Area, including but not limited to the Property:

1. Arterial Roadways:
   1.1. Big Horn Boulevard from its existing terminus at Cosumnes River College south to Kammerer Road;
   1.2. Lotz Parkway from Whitelock Parkway south to Kammerer Road;
   1.3. Bilby Road from Bruceville Road east to Lotz Parkway; and
   1.4. Kammerer Road from Bruceville Road east to Lotz Parkway.

2. Primary Utility Facilities:
   2.1 Sanitary Sewer Lift Station and Force Mains, which are facilities necessary for and shared with the development areas within Laguna Ridge South;
   2.2 Sanitary Sewers: All Trunk Sewers and the portions of the Collection Sewers which are located within the Arterial Roadway corridors;
   2.3 Storm Drainage: Shed C Drainageway from Bruceville Road east to Lotz Parkway;
      Trunk Storm Drains and the portions of Local Storm Drains which are located within the Arterial Roadway corridors;
   2.4 Domestic Water: Transmission Mains and the portions of the Distribution Mains which are located within the Arterial Roadway corridors;
   2.5 Reclaimed Water: Distribution Mains which are located within the Arterial Roadway corridors; and
   2.6 Dry Utilities: The electric, gas and telecommunication utility facilities common with the Arterial Roadway corridors.

City and Developer hereby acknowledge and agree that the term "SEPA Major Infrastructure," as used herein, applies to public infrastructure improvements that are designed and intended to serve properties other than the Property, and if Developer elects or is required to design, construct, or otherwise contribute to the costs of SEPA Major Infrastructure, Developer shall, to the extent that Developer Incurs such costs in excess of Developer’s fair share, be eligible for reimbursement (in the form of cash or fee credits) consistent with the requirements of Section 7.2 of this Agreement.
PROJECT MAJOR INFRASTRUCTURE OBLIGATIONS

It is the Developers' intent and obligation to deliver the infrastructure necessary to serve the Project as detailed in the accompanying conditions of approval. As part of this, certain improvements will be concurrently completed which provide a portion of the infrastructure necessary to serve the adjoining employment (office and industrial) lands in the North-East and South Business Parks. This Agreement cannot contemplate all the details and issues that will arise during the course of the design and construction of the Project Major Infrastructure. It is understood that good engineering, construction and environmental practices will likely require the addition of items not detailed in this Agreement. Such may include, but not be limited to construction, drainage or environmental easements/land acquisition, roadway transition sections, utility stubs, intersections, Stormwater Pollution Prevention Plans (SWPPP), etc.

The Project Major Infrastructure contemplated in this Agreement includes the following components, each of which are individually detailed in this Exhibit 3:

1. LRSP Phase III/SEPA Sanitary Sewer Lift Station, Force Mains and Trunk Sewer Mains
2. SEPA Shed C Channel
3. Detention Basins
4. Trail Corridor along Shed C Channel
5. Big HU111 Boulevard
6. Lotz Parkway
7. Bilby Road
8. Environmental Agency Permitting
9. Reclaimed Water System
10. Select Bidding Process

With respect to the roadway improvements identified in this Exhibit, the Developer acknowledges that the Property is currently physically landlocked and that certain off-site improvements are necessary, as conditioned on the map, to access the property. Developer shall provide access easements, consistent with the provisions of this Agreement before recordation of the Large Lot Map and transferring any property. Notwithstanding anything in this Agreement or the conditions of approval, Developer is obligated to acquire, dedicate, design, and construct the necessary improvements, to the satisfaction of the City, to provide public access to the site in a quantity, design, and location consistent with City ordinance and the City-adopted Fire Code. Pursuant to this Agreement, these improvements (completion and/or security) may be deferred to the recordation of the Small Lot Map, provided no building permits shall be issued until such time as physical improvements are made or adequate security as determined in the sole discretion of the City is provided.

Given the location of the Project and its relationship to other projects in both the Southeast Policy Area and other development areas (Laguna Ridge, Sterling Meadows, Lent Ranch, collectively and inclusively with the Southeast Policy Area referred to as the New Growth Area), the City intends to provide a process for developers in the New Growth Area to meet,
discuss, and resolve concerns and design constraints and conflicts. Developer shall be responsible for City costs incurred in this process through the normal entitlement, project processing, and implementation mechanisms.

1. LRSP Phase III/SEPA Sanitary Sewer Lift Station, Force Mains and Trunk Sewers

A. Background and Concept:

The Sanitary Sewer Lift Station (the “Lift Station”) and its associated facilities are the most significant and critical infrastructure required to bring the SEPA employment lands to a developable state. The Lift Station is proposed to be located adjacent to Bilby Road between Big Horn Boulevard and Bruceville Road, from where a Force Main system (“Force Mains”) will carry sewage flows west along the Bilby Road alignment, then north along the Bruceville Road alignment to the existing force main system near Whitelock Parkway. A Trunk Sewer will be constructed east along Bilby Road to and beyond Big Horn Blvd to provide service to the primary employment lands within the SEPA South Business Park (SEPA-SBP).

Delivery of Lift Station

The City's Engineering Consultant Wil+dan Engineering has been issued task order 15-2 by the City to obtain a sub consultant to work with the City on sewer infrastructure and specifically the Lift Station. Wil+dan Engineering entered into such contract on February 12, 2015. It is anticipated the consultant will also design the Lift Station and Force Mains and the City intends to undertake all aspects of the delivery of the Lift Station and Force Mains as well as acquisition of the required land (through adopted conditions of approval on prior projects in the Laguna Ridge Specific Plan), easements or rights-of-way. The City has in its 2015-2016 budget allocated over 5 million dollars in general fund reserves to move forward with the Lift Station. This money will be repaid by future revenues generated by development in the SEPA.

Should Developer become concerned about the time in which it is taking the City to move forward with delivery of the Lift Station it may make a request to the City to step in and deliver the Lift Station. Should the City approve such request it will provide to Developer all studies, plans and project-related documents prepared-to-date at no immediate cost to Developer. City design expenses may be reimbursed to the extent they are covered by an applicable fee program. Developer shall pay all applicable fees related to the subject infrastructure. Developer will proceed at its own cost, subject to credit/reimbursements as provided by Sacramento Area Sewer District (“SASD”). If the City allows the Developer to step in it will work with Developer and SASD to assist in a timely delivery of the Lift Station and Force Mains and to determine the most expeditious way to provide reimbursement.

In the event that the City has not built the Lift Station and Force Mains but the Developer is at the point where it can't move forward with occupancy of its Project without the Lift Station and Force Mains the City will consider Interim service opportunities, as may be approved by SASD, for interim storage and/or pumping of sewage flows from completed structures within SEPA-SBP and/or Project.
B. Developer Obligation:

1. Payment of any required impact fees for sewer service, which, in addition to covering other facilities and improvements, is intended to repay the City for its advancement of the Lift Station and Force Mains.

2. Finance, design and construct the Trunk Sewer to service the primary employment lands within the Project to the Project’s southern boundary with the South Business Park at Bilby Road and Big Horn Boulevard

3. Dedicate any right-of-way or easement required to construct the Trunk Sewer within the Project.

2. SEPA Shed C Drainageway (the “Drainageway”), Stormwater Detention/Stormwater Quality Basins (the “Basins”) and Drainageway Trail Corridor (the “Trail Corridor”).

A. Background and Concept:

The Drainageway and Basins are critical elements of the overall SEPA Land Plan, providing both a stormwater control system and an open space and trail corridor. In keeping with its role as overall SEPA project sponsor, the City has moved forward with a 35% design, land acquisition, construction cost estimates and the environmental permitting of the Drainageway and its associated facilities.

During this early design effort, it has become apparent there are two logical and separate phases of the Drainageway, primarily known as the upstream and downstream of Big Horn Boulevard segments. Developer’s Project encompasses the northern portion of the entire upstream segment, and as such has a potential independent utility capability.

In conformance with City Council direction at its May 13, 2015 meeting, the upstream segment may proceed with environmental permitting, design and construction independent of the downstream segment to the extent allowed by the Permitting Agencies (e.g., US Army Corps of Engineers, US Fish and Wildlife Service, California Department of Fish and Wildlife). The City intends to complete permitting for the upstream segment and will coordinate with and involve the Developer in the process. Given the City’s desire to bring the employment lands forward expeditiously for development, it intends to work with the permitting agencies to complete the permitting for the upper reach as soon as practical. This is in the mutual interest of the Parties.

The City will assist the Developer with acquisition of the drainage right-of-way along the upstream portion but off-site of the Project (within the South Business Park), including any consideration of necessary eminent domain proceedings; however, all costs associated with acquisition of any kind shall be the responsibility of the Developer. Such costs are included as reasonable expenditures in the Southeast Policy Area Drainage Fee Program and may be creditable towards the Project’s required fee payments.

B. Developer Obligation:

Developer is responsible for those storm drainage facilities upstream of Big Horn Boulevard including:
1. Providing land (either by dedication to the City or by special fee program acquisition, for the Project’s portion of the Drainageway (full width, including basin outfalls), Basins (S1b and S3) and Trail Corridor. Such lands shall be in substantial conformance to those land areas identified on the Large and Small Lot Tentative Subdivision Maps and the Southeast Policy Area Strategic Plan.

2. Acquisition of land (either by dedication to the City or by special fee program acquisition, for that portion of the Drainageway (full width, including basin outfalls) and Basins (S1b and S3) identified in the Southeast Policy Area Strategic Plan on the properties adjacent to the south boundary of the Property.

3. Design and construction of the entire Drainageway (full width, including basin outfalls) and Basin (S1b and S3) system upstream of Big Horn Boulevard as a single project, subject to the Southeast Policy Area Drainage Fee Program credit/reimbursement as provided under the adopted program. Developer reserves the right to:

   3.1. Design and construct Drainageway consistent with the City’s applicable Reimbursement Policies and Procedures as part of its private Project improvements;

   3.2. Defer design and construction of individual Basins until they are needed to meet stormwater attenuation and quality of their respective drainage subsheds;

   3.3. Defer design and construction of roadway crossing culverts and major utility crossings until those roads and utility systems are constructed; as described in sections 3 (Big Horn Boulevard), 4 (Lotz Parkway), and 5 (Bilby Road) of this Exhibit; however, the improvements relative to Bilby Road, including, without limitation, installation of water (potable and recycled), sewer, drainage, electrical, gas, and telecommunications utilities, culverts, and, at a minimum, one vehicle travel lane in each direction, from the intersection of Big Horn Boulevard and Bilby Road to the Shed C culvert shall be completed prior to issuance of the 501st single family residential building permit within the Project and

   3.4. Design and construct certain portions of the Project in advance of construction of the Drainageway by providing interim storm drainage facilities, to the satisfaction of the City, within the Property which meet or exceed requirements for stormwater attenuation/quality. Such interim facilities shall be at the sole cost of the Developer.

4. Construction of the Drainageway by Developer shall include the required outfall structures from the basins which outfall to the upstream portion of the Drainageway. These shall be creditable improvements under the SEPA Drainage Fee Program.

5. Design and construction of the Trail Corridor within the Property, subject to credits/reimbursements associated with any existing or special fee program. Developer reserves the right to:
5.1. Defer design and construction of that portion of the Trail Corridor within the area designated by the SEPA SPA as Village Center (MUV) except as provided in Section 4.3 below; and

5.2. Defer design and construction of those portions of the Trail Corridor which may be deemed as grade-separated crossings at Big Horn Boulevard and Rilby Road until those roads are constructed and servicing utility systems are extended to those locations.

5.3. If development of the MUV does not progress to a point where that portion of the Trail Corridor will be constructed as a part of the MUV development, within 5 years of the Effective Date, Developer shall construct a temporary corridor within the MUV along the Drainageway. Such interim trail section may be subsequently closed and demolished as part of the development of the MUV and such an interim facility is not eligible for reimbursement.

3. **Big Horn Boulevard**

   A. **Background and Concept:**

   The extension of Big Horn Boulevard south from its current terminus adjacent to the Cosumnes River College satellite campus (CRC), just north of Poppy Ridge Road, is one of the primary access points to the Project and, subsequently, would provide access to various employment lands in SEPA.

   This road alignment has existing houses located within the future right-of-way on both the east and west sides, north of the Property and on lands not in Developer's control. In order to facilitate construction of Big Horn Boulevard, it is necessary to acquire this right-of-way and relocate or acquire the houses. Phasing may allow an initial phase of the Project to occur with the acquisition/relocation of only one house. These costs have been allocated in the City's current Roadway Fee Program. The City intends to assist the Developer in procuring this right-of-way, if upon a good faith effort the Developer is unable to acquire the property by itself.

   Sanitary sewer and storm drain utilities which service SEPA's westerly "Piano Key" properties (those properties north of the Project and south of Poppy Ridge Road) will be located in Big Horn Boulevard south of Poppy Ridge Road. To the extent that these improvements provide an oversizing of infrastructure beyond what is necessary to serve the Project, the City and the Developer acknowledge that these improvements may be subject to SCWA and SASD fee credits and reimbursements to extent these facilities are included in these agencies impact fee programs.

   Pursuant to the SEPA Strategic Plan (Community Plan Policy SEPA-2 and corresponding Action 5), the City may allow the design and construction of portions of arterial or thoroughfare roadways to be deferred where capacity associated with such portions is not immediately needed to meet Level of Service goals set forth in the General Plan and/or applicable environmental document(s). If the deferral involves improvements within or adjacent to a development and the improvements are not eligible under the Elk Grove Roadway Fee Program, the City will require the Developer to make an in-lieu payment pursuant to Elk Grove Municipal Code Chapter 12.03 or establish and/or participate in a finance mechanism acceptable to the City to fund the deferred
improvement.

B. Developer Obligation:

1. Acquire offsite right-of-way and temporary construction easements needed to construct Big Horn Boulevard. Developer will dedicate right-of-way and easements for land within Project.

2. Finance, design and construct Big Horn Boulevard and the associated utilities, including water main and joint trench. The cross-section of roadway shall be consistent with the SEPA SPA and Laguna Ridge Specific Plan (as applicable) and as illustrated on the Project Tentative Subdivision Maps, and as described in the Conditions of Approval, to the satisfaction of the City.

3. Dedicate right-of-way and utility easements required to construct Big Horn Boulevard within the Project as part of its standard final mapping processes.

4. Lotz Parkway

A. Background and Concept:

Future Lotz Parkway may be considered the primary north-south transportation access to the eastern portion of the Project and, ultimately, both the East and South Business Park. As such, it may be considered an "early-order of work" coincident with development of the eastern portions of SEPA.

This road alignment extends beyond the Project's boundary on lands not in Developer's control for either a northerly connection to Poppy Ridge Road or a southerly connection to Kammerer Road. In order to facilitate construction of Lotz Parkway, it is necessary to acquire off-site right-of-way.

Development of the eastern portions of the Project will require a point of access to an existing arterial road. Such access may be attained by the extension of Lotz Parkway in either a northerly or southerly direction, or by the extension of existing Kyler Road from its terminus just west of Promenade Parkway through the Sterling Meadows project to where it connects to the Project at 'A' Drive.

Developer will provide, at a minimum one of the 3 access solutions as a part of its development of the eastern portions of the Project.

Similar to Big Horn Boulevard, significant sanitary sewer and storm drain utilities which service SEPA's easterly "Piano Key" properties (those properties north of the Project and south of Poppy Ridge Road) and the East Business Park will be located in the Project's frontage of Lotz Parkway. To the extent that these improvements provide an oversizing of infrastructure beyond what is necessary to serve the Project, the City and Developer acknowledge that these improvements may be subject to SCWA and SASD credits or cash reimbursement to extent these facilities are included in these agencies impact fee programs.

Pursuant to the SEPA Strategic Plan (Community Plan Policy SEPA-2 and corresponding Action 5), the City may allow the design and construction of portions of
arterial or thoroughfare roadways to be deferred where capacity associated with such portions is not immediately needed to meet Level of Service goals set forth in the General Plan and/or applicable environmental document(s). If the deferral involves improvements within or adjacent to a development and the improvements are not eligible under the Elk Grove Roadway Fee Program, the City will require the Developer to make an in-lieu payment pursuant to Elk Grove Municipal Code Chapter 12.03 or establish and/or participate in a finance mechanism acceptable to the City to fund the deferred improvement.

For purposes of providing transportation access to the primary employment lands within the SEPA-SBP and SEPA-EBP and the easterly access to the Project, this Agreement will identify the obligations associated with the Lotz Parkway southerly connection to Kammerer Road.

Developer will acquire/dedicate rights-of-way, design and construct Lotz Parkway consistent with the Conditions of Approval, including the water transmission main, joint trench and culverts from the Lent Ranch Mall/Sterling Meadows storm drainage facility into the SEPA Drainageway. The surface improvement costs for this work have been allocated in the City's Roadway Fee Program.

B. Developer Obligation:

1. Acquire offsite rights-of-way and temporary construction easements needed to construct Lotz Parkway. Developer will dedicate rights-of-way and easements for land within Project.

2. Finance, design and construct Lotz Parkway and the associated utilities, including water main and joint trench.

3. The ultimate cross-section of roadway shall be consistent with SEPA SPA and Sterling Meadows approvals (as applicable) and as illustrated on the Project Tentative Subdivision Maps, and as described in the Conditions of Approval to the satisfaction of the City.

4. Dedicate rights-of-way and utility easements required to construct Lotz Parkway within the Project as part of its standard final mapping processes.

5. Bilby Road

A. Background and Concept:

Future Bilby Road may be considered the primary east-west transportation and utility access to the primary employment lands within SEPA, in particular the SEPA South Business Park. As such, it may be considered a "first-order of work".

Developer will design and construct Bilby Road from Big Horn Boulevard easterly through the Project and across the Drainageway. The Trunk Sewer, water, storm drain and dry utilities for service to the SEPA-SBP will be included in this work. Additional off-site improvements may be necessary to provide access to the Property.
Pursuant to the SEPA Strategic Plan (Community Plan Policy SEPA-2 and corresponding Action 5), the City may allow the design and construction of portions of arterial or thoroughfare roadways to be deferred where capacity associated with such portions is not immediately needed to meet Level of Service goals set forth in the General Plan and/or applicable environmental document(s). If the deferral involves improvements within or adjacent to a development and the improvements are not eligible under the Elk Grove Roadway Fee Program, the City will require the Developer to make an in-lieu payment pursuant to Elk Grove Municipal Code Chapter 12.03 or establish and/or participate in a finance mechanism acceptable to the City to fund the deferred improvement.

B. Developer Obligation:

1. Acquire off-site rights-of-way and temporary construction easements needed to construct Bilby Road to the extent necessary. Developer will dedicate rights-of-way and easements for land within Project.

2. Finance, design and construct the Bilby Road improvements and the associated utilities, including the Drainageway crossing.

3. If rights-of-way and easements cannot be reasonably obtained from offsite property owners, the Developer may end its construction at the north bank of the Drainageway and provide an in lieu fee, to the satisfaction of the City, for that portion of construction which would have occurred within the Project’s boundary.

4. With regard to the portion of Bilby Road from Big Horn Boulevard to the Shed C culvert, the Developer shall complete construction of all improvements, including, without limitation, installation of water (potable and recycled), sewer, drainage, electrical, gas, and telecommunications utilities, culverts, and, at a minimum, one vehicle travel lane in each direction, from the intersection of Big Horn Boulevard and Bilby Road to the Shed C culvert, prior to issuance of the 501st single family residential building permit within the Project.

6. Environmental Agency Permitting

A. Background and Concept:

The City has taken the lead in obtaining all required environmental permitting necessary to construct both the Phase 1 Drainageway improvements and the SEPA Major Infrastructure Improvements. This process is underway currently. The City will coordinate with and involve the Developer (and their technical staff) in the process.

Should Developer become concerned about the time in which it is taking the City to move forward with obtaining all required environmental permits necessary to construct both Phase 1 Drainageway Improvements and the SEPA Major Infrastructure Improvements it may make a request to the City to step in and obtain the necessary permits. Should the City approve such request, which approval shall not be unreasonably denied, it will provide to Developer all documents prepared-to-date. Developer will proceed at its own cost, subject to applicable credits and reimbursements available from the City. If the City allows Developer to step in, the City will reasonably cooperate with Developer to the extent necessary in the timely issuance.
of all required environmental permits and to determine the most expeditious way to provide reimbursement.

B. Developer Obligation:

1. Provide all Project-related environmental investigations, studies and agency verification documents to City for use in its permitting process.

2. Provide Property access to City, its contractors and agents as may be needed for the permitting process.

3. Provide Project's environmental consultants, at Developer's cost, to participate in City's preparation of permit applications, permit strategies and agency meetings.

7. Reclaimed Water System

A. Background and Concept:

SEPA received environmental and land use entitlements without a requirement from SCWA or SASD for a reclaimed water system to provide landscape irrigation. City desires to incorporate a reclaimed water system within SEPA as a matter of prudent public policy. City will work with SCWA in an attempt to attach/annex the SEPA to the Zone 40 Special Service Area A or will work with SCWA to create a separate special service area, if possible.

Developer understands benefit of reclaimed water, but is concerned with the added cost burden of such a system without assurance of the availability of a reclaimed water supply.

Developer shall incorporate a landscape water irrigation system as part of the SEPA Major Infrastructure and Project improvements as specified below:

1. SCWA and SASD intend to provide a reclaimed water supply to SEPA within 10 years of the Effective Date of this Agreement.

2. Reimbursement, including cash and/or fee credits, for components of the reclaimed water system shall be available to the extent provided by City and SCWA, provided that Developer shall not be entitled to reimbursement by both City and SCWA for costs incurred by Developer for the same improvement components, in other words, duplicative reimbursements shall not be allowed.

B. Developer Obligation:

1. Include design and construction of a reclaimed water system, as part of its Project Major Infrastructure obligations set forth in this Exhibit 5.

2. Include design and construction of a reclaimed water system within the Project to serve the parks and landscape corridors consistent with the conditions of approval. Developer will prepare a schematic plan of this reclaimed water system for review and approval by City and SCWA.
8. **Select Bidding Process**

Developer desires to incorporate the Project Major Infrastructure roadway construction (2 center lanes and median) identified in this Exhibit 5 into its larger Project construction bidding, which may combine the roadway work with the other Project Major Infrastructure drainage and utility work and the Project's mass grading and subdivision improvements.

Developer will use a "Select Bidding Process" (SBP) for a larger scope of construction work which provides significant advantages over separately bidding just the construction of 2 center lanes and median, including:

1. A completely competitive and prevailing wage public bidding process assuring proven construction contractor competency.

2. Not having 2 or more independently contracted construction contractors doing work on the site at the same time.

3. The combined size of the Project Major Infrastructure and Project on-site work will allow more competitive pricing than if construction work components are bid separately.

The City finds the SBP process as described to be analogous to the City’s reimbursement policy for public infrastructure in that that competitive bidding will occur and prevailing wage will be paid.

A. **Developer shall:**

1. Develop and implement a Request for Qualifications (RFO) for the combined initial phases of both the major infrastructure and Project on-site.

2. Evaluate and short list 3 or 4 qualified prevailing wage construction contractors for a select public bid process.

3. Administer the bidding process of the combined Project Major Infrastructure and Project on-site construction work to the select contractors with clear lines of separation for publicly reimbursable work items.

4. Award of the work to the overall lowest qualified bidder for the City reimbursable work items.
EXHIBIT 6

Elk Grove City Council Resolution 2015-164

[Attached]
RESOLUTION NO. 2015-164

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ELK GROVE
FINDING THE PROJECT EXEMPT FROM CEQA AND
APPROVING THE LARGE LOT TENTATIVE SUBDIVISION MAP, SMALL LOT
TENTATIVE SUBDIVISION MAP, DESIGN REVIEW FOR SUBDIVISION LAYOUT,
AND ABANDONMENT FOR THE SOUZA DAIRY PROJECT (EG-13-030),
SUBJECT TO FINDINGS AND CONDITIONS OF APPROVAL

WHEREAS, on July 9, 2014, the City Council adopted the Southeast Policy Area
(SEPA) Strategic Plan; and

WHEREAS, adoption of the SEPA Strategic Plan was accompanied by the
certification of Southeast Policy Area Strategic Plan Environmental Impact Report
(State Clearinghouse No. 2013042054); and

WHEREAS, the Planning Department of the City of Elk Grove received an
application on May 9, 2013 from Souza Elk Grove, LLC (the Applicant) requesting
approval of a Development Agreement, Large Lot Tentative Subdivision Map, Small Lot
Tentative Subdivision Map, Design Review for subdivision layout, and Abandonment
for the Souza Dairy Project (the Project); and

WHEREAS, the proposed Project is located on real property in the incorporated
portions of the City of Elk Grove more particularly described as Parcels “A” and “B” of
Parcel Map entitled “Being the Southeast ¼ of Section 11, and the Southwest ¼ of
Section 12, the Northwest ¼ of Section 13, and the Northeast ¼ of Section 14,
Township 6 North, Range 5 East, M.D.B. & M., Sacramento County," filed February 6,
1973 in Book 10 of Parcel Maps, Page No. 27, and commonly referred to as APN: 132-
0320-006; and

WHEREAS, the Project qualifies as a project under the California Environmental
Quality Act (CEQA), Public Resource Code §§21000 et seq.; and

WHEREAS, Section 15183 (Projects Consistent with a Community Plan, General
Plan, or Zoning) of Title 14 of the California Code of Regulations (State CEQA
Guidelines) provides an exemption from CEQA for projects that are consistent with the
applicable General Plan and Zoning for which an Environmental Impact Report (EIR)
was certified; and

WHEREAS, the City has reviewed the Project and analyzed it based upon the
provisions in Sections 15183 and 15162 of the State CEQA Guidelines; and

WHEREAS, the proposed Project is consistent with the projects described in the
previously certified EIR; and
WHEREAS, based on staff's review of the Project, no special circumstances exist that would create a reasonable possibility that the Project will have a significant effect on the environment beyond what was previously analyzed and disclosed; and

WHEREAS, the City considered the Project request pursuant to the Elk Grove General Plan, the Elk Grove Municipal Code Title 23 (Zoning), the Southeast Policy Area Special Planning Area, and all other applicable State and local regulations; and

WHEREAS, the Planning Commission held a duly noticed public hearing on July 16, 2015 as required by law to consider all of the information presented by staff, information presented by the Applicant, and public testimony presented in writing and at the meeting and voted 5-0 to recommend approval of the Project to the City Council with certain modifications specified in their action as described in Planning Commission Resolution 2015-18; and

WHEREAS, the City Council held a duly noticed public hearing on August 12, 2015 as required by law to consider all of the information presented by staff, information presented by the Applicant, and public testimony presented in writing and at the meeting;

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Elk Grove hereby finds the proposed Project exempt from the California Environmental Quality Act (CEQA) pursuant to the California Code of Regulations, Title 14 (State CEQA Guidelines), based on the following finding:

California Environmental Quality Act (CEQA)

Finding: The Project is categorically exempt from the California Environmental Quality Act (CEQA) pursuant to Title 14 of the California Code of Regulations, Chapter 3, Division 6 (State CEQA Guidelines) Sections 15183 (Projects Consistent with a Community Plan, General Plan, or Zoning) and 15162 (Subsequent EIRs and Negative Declarations).

Evidence: The Project is exempt from the California Environmental Quality Act (CEQA) pursuant to Title 14 of the California Code of Regulations, (State CEQA Guidelines) Sections 15183 (Projects Consistent with a Community Plan, General Plan, or Zoning). State CEQA Guidelines Section 15183 (Public Resources Code §21083.3), provides that projects that are consistent with a Community Plan, General Plan or Zoning for which an EIR has been certified "shall not require additional environmental review, except as might be necessary to examine whether there are project-specific significant effects which are peculiar to the project or its site."

On July 9, 2014, the City Council certified an EIR for the Southeast Policy Area Strategic Plan (State Clearinghouse No. 2013042054). The SEPA
EIR analyzed full buildout of SEPA based upon the land plan, development standards, and policies contained in the Community Plan and Special Planning Area, as well as the improvements identified in the accompanying infrastructure master plans.

The Souza Dairy Project is being undertaken pursuant to and in conformity with the approved Southeast Policy Area Community Plan and Special Planning Area. No special circumstances exist and no changes in the project have occurred that would necessitate the preparation of subsequent environmental review. No additional environmental impacts have been identified for the Souza Dairy Project other than those previously disclosed and analyzed in the EIR for the Southeast Policy Area Strategic Plan. The Souza Dairy project is subject to the Southeast Policy Area Mitigation Monitoring and Reporting Program. Consequently, pursuant to CEQA Guidelines Section 15183, no further environmental review is required for this project.

Additionally, State CEQA Guidelines Section 15162 (Subsequent EIRs and Negative Declarations) requires that when an EIR has been certified for an adopted project, no subsequent EIR shall be prepared for that project unless the lead agency determines, on the basis of substantial evidence in light of the whole record, that one or more of the following exists:

1. Substantial changes are proposed in the project which will require major revisions of the previous EIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects;
2. Substantial changes occur with respect to the circumstances under which the project is undertaken which will require major revisions of the previous EIR due to the involvement of new significant environmental effects or a substantial increase in the severity of previously identified significant effects; or
3. New information of substantial importance, which was not known and could not have been known with exercise of reasonable diligence at the time of the previous EIR was certified as complete shows any of the following:
   a. The project will have one or more significant on discussed in the previous EIR;
   b. Significant effects previously examined will be substantially more severe than shown in the previous EIR;
   c. Mitigation measures or alternatives previously found not to be feasible would in fact be feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or
d. Mitigation measures or alternatives which are considerably different from those analyzed in the previous EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measures or alternative.

Staff has reviewed the Project and analyzed it based upon the above provisions in Section 15162 of the State CEQA Guidelines. The Souza Dairy Project is being undertaken pursuant to and in conformity with the approved Southeast Policy Area Community Plan and Special Planning Area. There are no substantial changes in the Project from that analyzed in the 2014 EIR and no new significant environmental effects, or substantial increase in the severity of previously identified significant effects. No new information of substantial importance has been identified. Further, since no changes to the EIR are necessary to support the Project, the City is not required to prepare an Addendum to the EIR as required by State CEQA Guidelines Section 15164. Therefore, the prior EIR is sufficient to support the proposed action and no further environmental review is required.

AND, BE IT FURTHER RESOLVED, that the City Council of the City of Elk Grove hereby approves a Large Lot Tentative Subdivision Map, Small Lot Tentative Subdivision Map, Design Review for subdivision layout, and Abandonment for the Souza Dairy Project (EG-13-030) subject to the Project Description as provided in Exhibit A and illustrated in the Project Exhibits as provided in Exhibit B and subject to the Conditions of Approval as provided in Exhibits C and D, all incorporated herein by this reference, based upon the following findings:

Tentative Subdivision Map, Large and Small

Finding: None of the findings (a) through (g) below in Section 66474 of the California Government Code that require a City to deny approval of a tentative map apply to this project.

A. That the proposed map is not consistent with applicable general and specific plans as specified in Section 65451.
B. That the design or improvement of the proposed subdivision is not consistent with applicable general and specific plans.
C. That the site is not physically suitable for the type of development.
D. That the site is not physically suitable for the proposed density of development.
E. That the design of the subdivision or the proposed improvements is likely to cause substantial environmental damage or substantially and avoidably injure fish or wildlife or their habitat.
F. That the design of the subdivision or type of improvements is likely to cause serious public health problems.

G. That the design of the subdivision or type of improvements will conflict with easements acquired by the public at large, for access through or use of, property within the proposed subdivision.

Evidence:

A. As described in the Project staff report, the proposed Project is consistent with the Southeast Policy Area Community Plan. The proposed map is consistent with the proposed land use designation and policies in the Southeast Policy Area Land Use Map, which has designated this site as Low Density Residential, Medium Density Residential, Estate Residential, High Density Residential, Office, Village Center, Mixed Use Residential, School, and Public Parks/Open Space. The proposed Large Lot and Small Lot Tentative Subdivision Plan will allow for development consistent with the Community Plan.

B. As described in the Project staff report, the proposed Project, the proposed subdivision design, lot sizes, lot configurations, and proposed infrastructure improvements are consistent with the Southeast Policy Area Special Planning Area development standards and land use designations for the proposed site.

C. The site is physically suitable for the proposed development. The Southeast Policy Area Community Plan land use map has anticipated the Project site for development. Access to the site will be provided or is available. Necessary services and facilities can be provided. Therefore, the site is physically suitable for the development proposed.

D. As described in the Project staff report, all residential lots proposed by the Project are consistent with the allowed densities as provided under the General Plan. Services and facilities to serve the projects, including water, sewer, electricity, and other utilities, will be provided or are available. Therefore, the sites are appropriate for the proposed density of development.

E. The Project site is physically suitable for the proposed type of development based upon the analysis presented in the Southeast Policy Area Strategic Plan EIR.

F. The design of the subdivision will not cause serious public health problems based upon the analysis presented in the Southeast Policy Area Strategic Plan EIR.

G. The design of the subdivision will not conflict with easements acquired by the public at large as demonstrated by review of the Project by the City’s Public Works Department.
Design Review

Finding #1: The proposed project is consistent with the objectives of the General Plan, complies with applicable zoning regulations, Specific Plan provisions, Special Planning Area provisions, and Citywide Design Guidelines adopted by the City.

Evidence: The site layout has been reviewed against the Southeast Policy Area Special Planning Area development standards and Citywide Design Guidelines for residential subdivisions and meets all applicable design requirements. The proposed subdivision map and related plans provide all the design elements required by the Southeast Policy Area Special Planning Area development standards, including interconnected street system, pedestrian connectivity, and sufficient open space and landscaping. The conditions of approval and subsequent design review of future residential, commercial, and office development will ensure consistency with all standard requirements.

Finding #2: The proposed project will not create conflicts with vehicular, bicycle, or pedestrian modes of transportation.

Evidence: The proposed Project provides over 4.5 miles of internal off-street public trails and open space corridors linking all public parks together and to the Village Center. The Project provides a continuous north-south connection from the employment lands to the south through the Village Center, elementary school site, and to other parks to the north.

Finding #3: The residential subdivision is well integrated with the City’s street network, creates unique neighborhood environments and establishes a pedestrian friendly environment.

Evidence: The Project includes an interconnected street system as well as sufficient open space and landscaping. The proposed Project provides over 4.5 miles of internal off-street public trails and open space corridors linking all public parks together and to the Village Center. The Project provides a continuous north-south connection from the employment lands to the south through the Village Center, elementary school site, and to other parks to the north. There are direct pedestrian connections from the majority of the proposed residential neighborhoods to the proposed trail system.
PASSED AND ADOPTED by the City Council of the City of Elk Grove this 12th day of August 2015.

PROJECT DESCRIPTION

The Project includes a Large Lot Subdivision Tentative Map to create a total of 45 large area lots. The Project also includes a Small Lot Tentative Subdivision Map, which will create a total of 1,162 lots, consisting of 1,094 residential lots at varying density, 11 large lots for future high density residential, commercial, and mixed use development, one (1) school site, 8 park lots, and various drainage, detention, landscape, light rail/bus rapid transit, and parkway lots on 375.5 +/- acres. The Project proposes a reduced greenway width (30-ft.) next to single-loaded streets. The Project proposes an Abandonment of easements and/or right-of-way as shown on the maps.

The tentative subdivision maps and corresponding compliance with the Southeast Policy Area Strategic Plan are illustrated in Exhibit B.

### Conditions of Approval

#### On-Going

1. Development and operation of the proposed Project shall be consistent with the Project Description and Project Plans as provided in Exhibits A through E, incorporated herein by this reference. Deviations from the approved plans shall be reviewed by the City for substantial compliance and may require amendment by the appropriate hearing body.

| 5. Except as otherwise specified or provided for in the Project plans or in these conditions or in a valid Development Agreement, the Project shall conform to the applicable development standards and design requirements adopted by the City of Elk Grove, specifically including but not limited to the following:  
  - Southeast Policy Area Community Plan  
  - The Elk Grove Zoning Code (Title 23 of the EGMC), including the Southeast Policy Area Special Planning Area (SEPA SPA)  
  - EGMC Chapter 19.12 (Tree Preservation and Protection)  
  - EGMC Chapter 14.10 (Water Efficient Landscape Requirements)  
  - The Southeast Policy Area Landscape Planning Prototype Manual, prepared in accordance with Chapter 5 (Design Protocol) of the SEPA SPA  
  - The Southeast Policy Area Architectural Style Manual, prepared in accordance with Chapter 5 (Design Protocol) of the SEPA SPA | On Going                 | Planning Public Works    |                                    |
| 6. Any improvements shall be dedicated, designed and constructed in accordance with the City of Elk Grove Improvement Standards, as further conditioned herein, and to the satisfaction of Public Works. All street improvements shall include vertical curb and gutter, except as approved by Public Works, in which case street improvements shall include rolled curb and gutter. Specific locations on median(s) that require emergency vehicle access will be evaluated during review and acceptance of the Improvement Plans. Public sewer, water, and other utility infrastructure shall be designed and constructed in accordance with the standards of the appropriate utility. | On Going                 | Public Works             | SCWA, SASD, SMUD, PG&E            |
| 7. The Applicant shall pay all plan check fees, impact fees, or other costs as required by the City, the Cosumnes Community Services District (CCSD), Sacramento Area Sewer District (SASD), Sacramento County Water Agency (SCWA), or other agencies or services providers as established by law. To the extent available and applicable, the Applicant shall purchase sewer impact credits from the City to satisfy Project sewer impacts. | On-Going                 | Planning Public Works    | CCSD, SCWA, SASD                  |

<td>Any costs for the approval and creation of such annual special tax, annexation of the property into a Mello-Roos Community Facilities District for the Cosumnes Community Services District, or administration of the amount deposited to fund fire and emergency services, shall be paid from the annual special taxes of the Community Facilities District or the amount deposited with the Cosumnes Community Services District. The Applicant shall notify all potential lot buyers prior to sale that this Project is a part of a benefit assessment district and shall inform potential buyers of the special tax amount. Said notification shall be in a manner approved by the City. The Applicant shall supplement these costs until sufficient revenue is provided by such special district. In the event that the Applicant fails to form or annex into a Community Facilities District or pay an equivalent amount as provided for herein for such purposes for the Cosumnes Community Services District, no further building permits for the property shall be issued.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
### Conditions of Approval

#### 20.
Prior to the recordation of the Final Map, the Applicant shall annex Lots 14, 24, 25, 26, 28, 29, 31, 34, 39, 40, and 43 into the Maintenance Mello-Roos Community Facilities District 2006-1 (CFD), to fund the Project's fair share of landscape related maintenance costs associated with public parkways, public parks, open space, landscape setbacks, bike and other paths, landscaped medians in and adjacent to roadways, maintenance and operation of a community center, sports (including aquatic) facilities, cultural arts center, and water features, and maintenance of other related facilities. The annexation process can take several months, so Applicants should plan accordingly. The application fee for the annexation is due prior to the Resolution of Intention to Annex the Property and Levy the Special Tax. For further information regarding this CFD, see [www.elkgrovecity.org/finance/financial-planning-division/cfd-information.htm](http://www.elkgrovecity.org/finance/financial-planning-division/cfd-information.htm).

- Shed C and Big Horn Blvd  
- Shed C and Bilby Road.  
  Unless a fee program covering these improvements is adopted by the City Council prior to recordation of Final Map, the Applicant shall pay a fair-share in-lieu payment for these improvements prior to the approval of the Final Map.  
  This condition may be subject to any provisions regarding timing and delivery contained in a valid Development Agreement. | Small Lot Improvement Plans | Public Works |
32. An abandoned well survey shall be performed by Sacramento County Environmental Management Department (EMD) prior to any grading of the property. The results of the survey will determine if additional requirements are needed pursuant to EMD policies, procedures, and regulations.

EMD will conduct the survey at no cost to the Applicant; once permission is granted by the landowner.

Prior to abandoning any existing agricultural wells, Applicant shall use water from agricultural wells for grading and construction. Nothing in this condition prohibits or allows the subdivider from using private wells to service water amenities in the Village Center or drainage corridor to the extent consistent with the SEPA Strategic Plan (EIR) and to the satisfaction of the City.
### Conditions of Approval

| Prior to or In Conjunction with Small Lot Final Map Submittal or Approval |
|---|---|---|---|
| 33. | \begin{itemize} 
1. Form or annex into an annual Mello-Ros Community Facilities District special tax for fire and emergency services, or 
2. Pay an equivalent amount for fire and emergency services as determined to be the fair share owed by the Applicant to the CCSD in their sole discretion. 
\end{itemize} | Small Lot Final Map | CCSD Fire |

Any costs for the approval and creation of such annual special tax, annexation of the property into a Mello-Ros Community Facilities District for the Cosumnes Community Services District, or administration of the amount deposited to fund fire and emergency services, shall be paid from the annual special taxes of the Community Facilities District or the amount deposited with the Cosumnes Community Services District. The Applicant shall notify all potential lot buyers prior to sale that this Project is a part of a benefit assessment district and shall inform potential buyers of the special tax amount. Said notification shall be in a manner approved by the City. The Applicant shall supplement these costs until sufficient revenue is provided by such special district. In the event that the Applicant fails to form or annex into a Community Facilities District or pay an equivalent amount as provided for herein for such purposes for the Cosumnes Community Services District, no further building permits for the property shall be issued.

<tbody>
<tr>
<td>72.</td>
<td>A street name from the City of Elk Grove Veterans Street Name Program shall be assigned to the Project for use on a street within the subdivision in accordance to City Policy and to the satisfaction of Public Works.</td>
<td>Small Lot Final Map</td>
<td>Public Works</td>
</tr>
<tr>
<td>73.</td>
<td>A District Development Plan Design Review for the Village Center (Lots 1101 through 1104 and Lot H) shall be reviewed and approved, consistent with the requirements of EGMC Section 23.16.080.B.6, prior to recordation of these lots. As part of the District Development Plan Design Review, the final siting and configuration of Lot H may be adjusted, subject to review and approval by the City. Alternatively, the Applicant may Final Map all of the subject lots as one lot prior to completion of the District Development Plan Design Review. If this is done, the District Development Plan Design Review shall be reviewed and approved prior to approval of any subsequent design review approval for any building in the subject area. Additionally, the recordation of the single lot shall include a reservation, in a form satisfactory the City, for a future park site of 4.5± net acres.</td>
