**DEFINITION of ASSISTANCE DOG:**

Assistance dogs are defined as dogs that are individually trained to do work or perform tasks for people with disabilities. Examples of such work or tasks include guiding people who are blind or have low vision, altering people who are deaf or hearing impaired, pulling a wheelchair, alerting and protecting a person who is having a seizure, alerting a person to the presence of allergens, retrieving items, providing physical support and assistance with balance and stability, preventing or disrupting impulsive or destructive behaviors, or performing other duties. Assistance dogs are working animals, not pets. The work or task a dog has been trained to provide must be directly related to the person's disability. Dogs whose sole function is to provide companionship, comfort, or emotional support do not qualify as service animals under the ADA.
