Conditionally Exempt Small Quantity Generator Program

Part 1: Application

Generator Contact Information

Company Name:	
Contact Person:	
Email:	Phone:
Mailing / Billing Address:	Site Address (if different):

Additional Generator Information

1) Does your company have an EPA or State ID Number?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	EPA or State ID Number?	
<p>Please call the Department of Toxic Substances and Control (800) 618-6942 or (916) 255-1136 to obtain your EPA or State ID number. When you hear the recorded message, press 1 and then 3 to speak to staff. If you only generate Universal waste or latex paint you DO NOT need an EPA ID or State number.</p>				
2) Have you previously disposed of hazardous waste within this calendar year?	Yes <input type="checkbox"/>	No <input type="checkbox"/>	Estimated date of your most recent drop off:	Facility name:
3) Briefly describe your business.				

Certification of Generator Status:

I certify that the above information is true and correct. I further certify that the entity I represent is a Conditionally Exempt Small Quantity Generator pursuant to 40 CFR 261.5 and that I am authorized to sign this document on behalf of the entity.

I understand that it is the responsibility of the Generator to comply with all applicable Federal, State, and local regulations concerning hazardous waste management. I further understand that if the Generator does not meet all of the requirements, or generates hazardous waste in quantities greater than those specified in 40 CFR 261.5, the Generator will no longer qualify as a Conditionally Exempt Small Quantity Generator and can no longer use this service. Acceptance of these wastes is solely at the discretion of the Conditionally Exempt Small Quantity Generator Program.

CESQG Laws
California Health and Safety Code Section 25218.1

25218.1. For purposes of this article, the following terms have the following meaning (a) "Conditionally exempt small quantity generator" or "CESQG" means a business concern which meets the criteria specified in Section 261.5 of Title 40 of the Code of Federal Regulations.

Code of Federal Regulations 40 Section 261.5

261.5 Special requirements for hazardous waste generated by conditionally exempt small quantity generators.

(a) A generator is a conditionally exempt small quantity generator in a calendar month if he generates no more than 100 kilograms of hazardous waste in that month.

(b) Except for those wastes identified in paragraphs (e), (f), (g), and (j) of this section, a conditionally exempt small quantity generator's hazardous wastes are not subject to regulation under parts 262 through 266, 268, and parts 270 and 124 of this chapter, and the notification requirements of section 3010 of RCRA, provided the generator complies with the requirements of paragraphs (f), (g), and (j) of this section.

(c) When making the quantity determinations of this part and 40 CFR part 262, the generator must include all hazardous waste that it generates, except hazardous waste that:

(1) Is exempt from regulation under 40 CFR 261.4(c) through (f), 261.6(a)(3), 261.7(a)(1), or 261.8; or

(2) Is managed immediately upon generation only in on-site elementary neutralization units, wastewater treatment units, or totally enclosed treatment facilities as defined in 40 CFR 260.10; or

(3) Is recycled, without prior storage or accumulation, only in an on-site process subject to regulation under 40 CFR 261.6(c)(2); or

(4) Is used oil managed under the requirements of 40 CFR 261.6(a)(4) and 40 CFR part 279; or

(5) Is spent lead-acid batteries managed under the requirements of 40 CFR part 266, subpart G; or

(6) Is universal waste managed under 40 CFR 261.9 and 40 CFR part 273.

(d) In determining the quantity of hazardous waste generated, a generator need not include:

(1) Hazardous waste when it is removed from on-site storage; or

(2) Hazardous waste produced by on-site treatment (including reclamation) of his hazardous waste, so long as the hazardous waste that is treated was counted once; or

(3) Spent materials that are generated, reclaimed, and subsequently reused on-site, so long as such spent materials have been counted once.

(e) If a generator generates acute hazardous waste in a calendar month in quantities greater than set forth below, all quantities of that acute hazardous waste are subject to full regulation under parts 262 through

266, 268, and parts 270 and 124 of this chapter, and the notification requirements of section 3010 of RCRA:

(1) A total of one kilogram of acute hazardous wastes listed in 261.31, 261.32, or 261.33(e).

(2) A total of 100 kilograms of any residue or contaminated soil, waste, or other debris resulting from the clean-up of a spill, into or on any land or water, of any acute hazardous wastes listed in 261.31, 261.32, or 261.33(e). [Comment: "Full regulation" means those regulations applicable to generators of greater than 1,000 kg of non-acutely hazardous waste in a calendar month.] (f) In order for acute hazardous wastes generated by a generator of acute hazardous wastes in quantities equal to or less than those set forth in paragraph (e)(1) or (2) of this section to be excluded from full regulation under this section, the generator must comply with the following requirements:

(1) Section 262.11 of this chapter;

(2) The generator may accumulate acute hazardous waste on-site. If he accumulates at any time acute hazardous wastes in quantities greater than those set forth in paragraph (e)(1) or (e)(2) of this section, all of those accumulated wastes are subject to regulation under parts 262 through 266, 268, and parts 270 and 124 of this chapter, and the applicable notification requirements of section 3010 of RCRA. The time period of 262.34(a) of this chapter, for accumulation of wastes on-site, begins when the accumulated wastes exceed the applicable exclusion limit;

(3) A conditionally exempt small quantity generator may either treat or dispose of his acute hazardous waste in an on-site facility or ensure delivery to an off-site treatment, storage or disposal facility,

either of which, if located in the U.S., is:

(i) Permitted under part 270 of this chapter;

(ii) In interim status under parts 270 and 265 of this chapter;

(iii) Authorized to manage hazardous waste by a State with a hazardous waste management program approved under part 271 of this chapter;

(iv) Permitted, licensed, or registered by a State to manage municipal or industrial solid waste;

(v) A facility which:

(A) Beneficially uses or reuses, or legitimately recycles or reclaims its waste; or

(B) Treats its waste prior to beneficial use or reuse, or legitimate recycling or reclamation; or

(vi) For universal waste managed under part 273 of this chapter, a universal waste handler or destination facility subject to the requirements of part 273 of this chapter.

(g) In order for hazardous waste generated by a conditionally exempt small quantity generator in quantities of less than 100 kilograms of hazardous waste during a calendar month to be excluded from full regulation under this section, the generator must comply with the following requirements:

(1) Section 262.11 of this chapter;

(2) The conditionally exempt small quantity generator may accumulate hazardous waste on-site. If he accumulates at any time more than a total of 1000 kilograms of his hazardous wastes, all of those accumulated wastes are subject to regulation under the special provisions of part 262 applicable to generators of between 100 kg and 1000 kg of hazardous waste in a calendar month as well as the requirements of parts 263 through 266, 268, and parts 270 and 124 of this chapter, and the applicable notification requirements of section 3010 of RCRA. The time period of 262.34(d) for accumulation of wastes on-site begins for a conditionally exempt small quantity generator when the accumulated wastes exceed 1000 kilograms;

(3) A conditionally exempt small quantity generator may either treat or dispose of his hazardous waste in an on-site facility or ensure delivery to an off-site treatment, storage or disposal facility, either of which, if located in the U.S., is:

(i) Permitted under part 270 of this chapter;

(ii) In interim status under parts 270 and 265 of this chapter;

(iii) Authorized to manage hazardous waste by a State with a hazardous waste management program approved under part 271 of this chapter;

(iv) Permitted, licensed, or registered by a State to manage municipal or industrial solid waste;

(v) A facility which:

(A) Beneficially uses or reuses, or legitimately recycles or reclaims its waste; or

(B) Treats its waste prior to beneficial use or reuse, or legitimate recycling or reclamation; or

(vi) For universal waste managed under part 273 of this chapter, a universal waste handler or destination facility subject to the requirements of part 273 of this chapter.

(h) Hazardous waste subject to the reduced requirements of this section may be mixed with non-hazardous waste and remain subject to these reduced requirements even though the resultant mixture exceeds

the quantity limitations identified in this section, unless the mixture meets any of the characteristics of hazardous waste identified in subpart C.

(i) If any person mixes a solid waste with a hazardous waste that exceeds a quantity exclusion level of this section, the mixture is subject to full regulation.

(j) If a conditionally exempt small quantity generator's wastes are mixed with used oil, the mixture is subject to part 279 of this chapter if it is destined to be burned for energy recovery. Any material produced from such a mixture by processing, blending, or other treatment is also so regulated if it is destined to be burned for energy recovery

Item Description	City of Elk Grove
Acids (gal)	\$9.00 per gal
Acids (lb)	\$.90 per lb
Aerosols	\$.45 per lb
Antifreeze (gal)	\$.55 per gal
Auto Batteries (ea)	Free
Caustics (gal)	\$9.00 per gal
Caustics (lb)	\$.90 per lb
Compact Fluorescents & U-Tubes (ea)	\$.35 each
Fire Extinguisher (full or empty)	\$.10 per lb
Flammable Liquids (non-pourable)(gal)	\$5.00 per gal
Flammable Liquids (pourable)(gal)	\$2.80 per gal
Flammable Paint (Enamel) (gal)	Free
Flammable Paint unlabeled, leaking, or non-program product (Enamel) (gal)	\$3.05 per gal
Flammable Solids (lb)	\$7.70 per lb
Fluorescent Tubes (per foot)	\$.10 per foot
Halogen Lamps (ea)	\$.35 each
HHW Admin Fee	\$25.00
Household Batteries (lb)	\$.75 per lb
Latex Paint (gal)	Free
Latex Paint, unlabeled, leaking, or non-program product (gal)	\$2.65
Mercury (lb)	\$4.70 per lb
Metal Halide Bulbs & Sodium Vapor Lamps (ea)	\$1.00 each
Motor Oil (gal)	Free
Non-RCRA Waste-Liquids (gal)	\$3.80 per gal
Non-RCRA Waste-Solids (lb)	\$.40 per lb
Oil Filters (lb)	Free
Oxidizer Liquids (lb)	\$16.00 per lb
Oxidizer Solids (lb)	\$1.60 per lb
Poison/Toxic-Liquids (gal)	\$10.60 per gal
Poison/Toxic-Solids (gal)	\$1.30 per lb
Propane (1 gal)	\$.80 each
Propane (5 gal)	\$1.80 each
Small or Large Ballasts (lb)	\$.50 Non-PCB & \$1.10 PCB per lb
Small or Large Capacitors (lb)	\$.50 Non-PCB & \$1.10 PCB per lb
Unknown (ea)	\$7.50 each
