Areas of Greatest Need:

The City used several data sources in evaluating the areas of greatest needs, including HUD data and City data on the number of bank-owned properties. Foreclosures are scattered throughout the City, with no area showing a significant concentration.

HUD provided data at the Census block group level, including home price declines since peak, unemployment rates, high cost loan rates, predicted 18-month foreclosure rates, and vacancy rates (see Appendix A). This information was used to create a foreclosure and abandonment risk score. Of the City’s 41 block groups, scores ranged from 5 to 7 on a 10-point scale. This indicates that all areas of the City face roughly the same foreclosure risk.

The City compiles its own list of foreclosures, using information on bank-owned properties receiving utility billings. Bank-owned residential properties are generally considered foreclosures. The mapping of these foreclosed homes does not indicate a concentration of foreclosures in any particular area (see Appendix B). Foreclosures may be slightly more prevalent in residential areas built since 2003, but the correlation is weak and foreclosures are scattered throughout the City.

Foreclosures also have little relation to low-, moderate-, and middle-income (LMMI) areas of the City, occurring in those areas about as frequently as in the rest of the City. The LMMI areas generally have a higher concentration of rental housing, and in particular affordable rental housing, which has not suffered from foreclosure at nearly the rate of single-family homes.

Based on this data, all neighborhoods within the City are anticipated to have approximately the same risk of foreclosure and thus a similar level of need. The City’s areas of greatest need encompass all areas within the City.

Distribution and uses of Funds:

As noted in the previous section, the City’s areas of greatest need include all Census block groups within the City, as all have similar foreclosure risk. Appendix B shows that home foreclosures are scattered throughout the City, with no discernable concentration in any one residential area.

High cost loan rates correlate closely to subprime loans. Subprime loans are typically high cost because of the higher risk associated with making them, while prime loans generally have more favorable terms and lower risk of defaulting. The percentage of high cost loans in Census block groups within the City (the smallest area possible to aggregate) range from 16.1 percent to 27.3 percent, with a median of 23.6 percent.

The majority of Elk Grove’s housing is newer, and there is a slightly higher percentage of foreclosures in areas built since 2003 than in older areas. However, foreclosures are occurring throughout the City, and are anticipated to continue to occur throughout the City. Between 2002 and 2007, housing in Elk Grove sold very quickly and at prices much higher than current sales prices. Housing within the older areas of Elk Grove remained some of the most affordable in the Sacramento region at the time, and many subprime loans were made for housing purchases there, as well as in the newer areas of the City.

The City will distribute funds to all areas of the City, and will reevaluate foreclosure statistics on a quarterly basis to ensure that our assumptions of the similar foreclosure risk faced by all areas continue to be accurate.

Definitions and Descriptions:

"Blighted Structure" shall mean buildings or conditions causing blight as defined in California Health and Safety Code, Section 33031(a)(1) and (2).

"Affordable rents" will be defined as not more than 30 percent of household income.

To ensure continued affordability for NSP assisted housing:

The City currently ensures affordability on its affordable ownership and rental properties using deed restriction documents, such as Regulatory Agreements, and will continue to use this strategy for all NSP-assisted housing. Rental housing will be required to maintain affordability for a minimum of 45 years, and ownership housing will be required to maintain affordability for the term that the owner occupies the home. For-sale housing will be required to be owner-occupied.

The City will adopt the HOME program standards at 24 CFR 92.252(a), (c), (e), and (f), and 92.254, but may make the...
affordability periods longer.
Housing rehabilitation standards that will apply to NSP assisted activities:
The City’s housing rehabilitation standards will conform to the Uniform Building Code and any local code.

Low Income Targeting:
The City will provide a minimum of 25 percent of total NSP funding ($597,413), plus 25 percent of total NSP program income, to serve households with incomes not exceeding 50 percent of the area median income (currently $35,500 for a family of four). The City plans to partner with a non-profit to own and manage a long-term affordable housing resource for very low-income individuals and/or families.

Acquisition and Relocation:
The City does not plan to demolish or convert any low- and moderate-income dwelling units. The majority of the City’s low- and moderate-income units are recently built and have low vacancy, and therefore would not be good candidates for demolition or conversion.

Public Comment:
NSP Action Plan
Public comment on the NSP Substantial Amendment was taken from October 28, 2008 until November 12, 2008. The City noticed the NSP Substantial Amendment online and in the local newspaper (see Attachment C). A public hearing to approve the NSP Substantial Amendment was held on November 12, 2008. No public comment was received.

NSP Action Plan – Amendment #1
Public comment on the NSP Substantial Amendment was taken from March 10, 2009 until March 25, 2009. The City noticed the NSP Substantial Amendment online on the City’s website. A public hearing to approve the NSP Substantial Amendment was held on March 25, 2009. No public comment was received.

NSP Action Plan – Amendment #2
Public comment on Amendment #2 to the NSP Action Plan was taken from February 23, 2016 until March 9, 2016. The City noticed the NSP Substantial Amendment on the City’s website. A public hearing to approve the NSP Action Plan – Amendment #2 was held on March 9, 2016. One public comment was received. The commenter noted the City lacks a policy for intervening in individual foreclosures. The commenter also stated that the City should use youth to make repairs to acquired properties, and should consider a $15 minimum wage law.

The City has completed all of its original NSP activities and made amendments to the Action Plan to accommodate a few new activities on which primarily program income will be spent. The City received technical assistance to discuss moving this grant toward closeout and making required edits to DRGR. While responding to COVID-19 has temporarily put some implementation items on hold, staff anticipates getting back on track later this year.

Activity Description:
In order to prevent further blight and decline in housing values, the City will purchase or assist in the purchase of residential properties that have not been occupied. These properties will have been either foreclosed upon or abandoned. Properties may include foreclosed homes requiring substantial rehabilitation, half-built homes abandoned by developers, and build-ready lots. The City will redevelop these properties as housing. The City may demolish existing improvements or structures on these properties subsequent to purchase and prior to redevelopment, as necessary.

**Activity Description:**
Administrative costs of the NSP local program.

**Location Description:**
Citywide

**Activity Progress Narrative:**
Implementation of several items necessary for closeout was on hold as staff efforts were largely diverted to COVID-related efforts. The City will be exploring hiring a consultant to assist with moving this grant toward closeout.

Activity Description:
The City will purchase vacant tax-defaulted residential properties (generally meaning property taxes have not been paid in at least five years). These properties will meet the definition of “abandoned.” The City will rehabilitate the properties for use as permanent housing, either as stand-alone units or as shared housing, in which bedrooms are rented to separate households. The City anticipates transferring the properties to one or more nonprofit partners for long-term ownership and management. Properties will be deed-restricted to ensure affordability to low-income households (at or below 50 percent of the area median income).

Location Description:
8679 Adamstown Way, Elk Grove, CA 95624
Other locations to be determined

Activity Progress Narrative:
The City is exploring hiring a consultant to advance this activity in light of staff efforts being diverted to COVID-related tasks.

**Activity Description:**

The City will purchase vacant tax-defaulted properties (generally meaning property taxes have not been paid in at least five years). These properties will meet the definition of "abandoned," and may be residential, commercial, or industrial properties. The City will redevelop the properties with uses consistent with public benefit, which may include permanent affordable housing for renters and owners. For multi-family residential uses, the City anticipates transferring the properties to one or more nonprofit partners for long-term ownership and management. Residential properties will be deed-restricted to ensure affordability to LMMI households.

**Location Description:**

9625 Kent Street, Elk Grove, CA 95624  
Other locations to be determined
