REASONS WHY THIS PROJECT IS EXEMPT OR DOES NOT REQUIRE FURTHER ENVIRONMENTAL DOCUMENTATION:

The California Environmental Quality Act (CEQA) requires analysis of agency approvals of discretionary “Projects.” A “Project,” under CEQA, is defined as “the whole of an action, which has a potential for resulting in either a direct physical change in the environment, or a reasonably foreseeable indirect physical change in the environment” (CEQA Guidelines Section 15378). The proposed Project is a project under CEQA.

The Project consists of amendments to an approved sign program that will allow for an increase in building sign letter height for current and future tenants and will eliminate outdated tenant information. CEQA Guidelines Section 15311 identifies an exemption for the construction or replacement of minor structures accessory to commercial, industrial, or institutional uses including on-premise signs. The modified sign program modifies the size of signs already allowed under the existing Major Uniform Sign Program (USP) and does not create any significant adverse effect on the environment; therefore, the project qualifies for an exemption under State CEQA Guidelines Section 15311.
