Dignity Health is making Elk Grove’s first full-service hospital a reality. City entitlements and environmental approvals are already complete for the future medical campus, and work continues in advance of the groundbreaking and construction at Wymark Road and Elk Grove Boulevard. This location is perfectly situated to serve all of Elk Grove’s neighborhoods.

Proven Expertise
Decades of experience have been invested to plan a hospital that will meet the needs of Elk Grove’s residents now and in the future. The first phase of development includes a new, 200,000 square foot, 100-bed hospital equipped with the latest technology, private rooms for every patient and amenities that provide comfort and expedite healing. Dignity Health has more than 30 major hospital campuses in California and has profound expertise in master planning projects of all sizes; from new hospitals to major expansions, or growth of existing campuses.

More Than Just a Hospital
Patients at Dignity Health’s Elk Grove hospital will receive care from top-quality physicians who are part of the award-winning Mercy Medical Group and aligned independent community physicians. Patients will also be connected to Dignity Health’s broad regional network of six hospitals and dozens of clinics, including the Alex G. Spanos Heart & Vascular Center. The hospital will be part of Dignity Health’s Sacramento Family Medicine Residency Program to help foster the next generation of local physicians.

Dignity Health’s Elk Grove community hospital will offer the following services:

- Emergency Department
- Operating Rooms
- Intensive Care Unit
- Women’s Services
- Diagnostic Imaging
- Pharmacy
- Laboratory
- Respiratory Therapy
- Physical Therapy
