CITY COUNCIL STAFF REPORT**

**AGENDA TITLE:** Adopt resolution dispensing with competitive bidding and authorizing the City Manager to execute a Memorandum of Understanding with the County of Sacramento for the purchase of replacement police radio equipment in an amount not to exceed \$895,219 over 10 years

**MEETING DATE:** May 14, 2014

**PREPARED BY:** Nicole York-Singh, Management Analyst

**DEPARTMENT HEAD:** Robert Lehner, Chief of Police

---

**RECOMMENDED ACTION:**

Staff recommends that the City Council adopt a resolution dispensing with competitive bidding and authorizing the City Manager to execute a Memorandum of Understanding with the County of Sacramento for the purchase of replacement police radio equipment in an amount not to exceed \$895,219 over 10 years.

**BACKGROUND INFORMATION:**

In 1994, the Sacramento County Regional Radio Communications System (SRRCS) implemented a Motorola SmartNet Trunked Radio System. The system provided law enforcement radio coverage to over 1,000 square miles for Sacramento County and parts of Yolo County. Since that time, upgrades and modifications to the system have taken place in an effort to maintain updated system technology as well as to fulfil the needs of the SRRCS member agencies.

In February 2013, SRRCS began transitioning from its current 4.1 Motorola SmartZone radio system to a new Project 25 compliant (P25 or APCO-25) system. This transition is expected to be completed by October 2019. SRRCS started transitioning to the new P25 radio system for the following reasons:

1. Transition from analog to digital radios by most users, including public safety, is a requirement of the Federal Communications Commission. Eventually, all radios will need to be transitioned to P25 or APCO-25 systems.
2. Technical support will no longer be available for the current system starting in 2013.
3. Repairs on components of the radios will be with spare parts estimated to last until 2019.
4. Other key components of the radio system will cease to be supported starting in 2017.

On December 11, 2012, the Sacramento County Board of Supervisors approved a resolution to sign a contract with Motorola Solutions to begin the phased replacement of the current 4.1 system. The current 4.1 SRRCS system is an analog system. About 40% of the law enforcement radios operating on this radio system are analog radios, including Elk Grove. These radios were purchased in 1996 and are no longer supported. Analog radios will not be able to use the digital P25 system.

Through a series of negotiations, Motorola has offered SRRCS a 40% discount off the suggested retail price for replacement radios. Motorola will also finance these replacement radios via a ten-year municipal lease-purchase for all participating law enforcement agencies.

As a participating SRRCS member agency, the City of Elk Grove's Police Department will receive replacement radios from the County of Sacramento under this program. The County will be responsible for making annual lease payments to Motorola when they are due; however, the City of Elk Grove will be responsible for payment to the County for the equipment it receives.

The term of this municipal lease purchase will be ten years. The first payment will be due and payable on July 1, 2014. Subsequent payments are due on July 1 of each year, and the final payment will be due on July 1, 2023.

Based on the total equipment purchase of \$895,219, the annual lease payment will be \$107,860. If approved, this purchase shall be made pursuant to Elk Grove Municipal Code Section 3.42.180(B)(3), which provides an exception to the competitive bidding process when compliance with the procedure is not in the best interest of the City for those commodities, equipment or general services. Staff feels that purchasing this equipment through the County without competitive bidding is in the City's best interest. SRRCS has set a standard for the model and type of radio that can be operated on its system. As a participating agency of SRRCS, the City of Elk Grove is required to follow that standard. If the City of Elk Grove was to negotiate the purchase of these standardized radios separate from the County, pricing would likely be significantly higher.

**FISCAL IMPACT:**

The FY 2014-15 budget will include an annual payment, and future budgets will include required annual payments. Total payments will not exceed the contract maximum.
