

Native Tree Planting Saturday February 11, 2012 8:45 am- Noon

Please join the Cosumnes River Preserve, the City of Elk Grove and the Sacramento Tree Foundation in planting 200 new native trees on the Delta Breeze property, part of the Cosumnes River Preserve.

These native trees will increase wildlife habitat, clean the air, capture storm water, provide shade for ranching operations and beautify the area.

Join us!!

Volunteers are asked to pre-

resister at www.sactree.com/events
