

e-tran Service Improvements

Good programs can sometimes be victims of their own success. Full buses and regular requests for new routes have been a regular part of business at e-tran since the popular service has seen record-breaking ridership. Responding to public input, e-tran will be working hard to make service improvements in the months ahead.

Schedules have changed to improve service. Check the website at www.e-tran.org, or call us at (916) 68E-TRAN.
