City Launches Online Tool to Connect Elk Grove Neighborhoods

Elk Grove, CA – Bringing neighbors together helps create a safer and stronger community. That's why the City of Elk Grove is launching an online program that connects residents with local homeowners associations and neighborhood groups.

Thanks to an online database and Geographic Information System (GIS), it's easier than ever for residents to find their homeowners association or neighborhood group.

"As a longtime resident, and now Mayor, I know firsthand the strength of Elk Grove as a community," said Elk Grove Mayor Pat Hume. "I encourage our residents to use this resource to connect with their neighbors and foster the tight-knit sense of community that continues to make Elk Grove a great place to call home."

By entering a street address on the easy-to-use Web page at www.elkgrovecity.org/public-info/hoa.asp, residents can now discover which group they belong to. Once the neighborhood has been identified, contact Angela Frost at 916-478-2203 for the contact information. The tool can also be used to find trash and recycle pick up days and nearest schools.

To form your own neighborhood association, contact the Nonprofit Resource Center at 916-264-2772, or visit the Web site at www.nprcenter.org.

For assistance or for more information about the City of Elk Grove's online Homeowners Associations and Neighborhood Groups tool, contact Angela Frost at 916-478-2203 or afrost@elkgrovecity.org.
