Progress Continues at the Franklin/Elk Grove Blvd. Intersection

The Franklin/Elk Grove Boulevard Intersection improvement project continues on-schedule. New signals have been placed at the intersection and work continues on widening the road. In September, there will be new curbs, gutters, and sidewalks (at the intersection). Paving will then follow immediately with project completion in late fall 2010. When complete, the new-and-improved intersection will provide greater mobility and improved traffic flow, and safer access to residential and commercial developments and schools.
