SECTION 2. HOME QUALIFIED

(a) This Corporation at its sole discretion, may elect to organize itself to qualify for and operate under the Federal HOME Investment Partnership Act as a not-for-profit, community-based service organization, under the HUD-HOME Program definition of a Community Housing Development Organization ("CHDO") and as a special nonprofit sub-recipient under HUD regulations. If the Corporation elects to operate as a CHDO, it's business and operation may be conducted in a manner that conforms to the following;

(b) This Corporation recognizes and supports public policy that promotes the creation of affordable housing with linkage to needed social services for the poor and lower-income people. Therefore, the Corporation's purposes included the following;

(c) To the maximum extent feasible, the Corporation will endeavor to provide affordable housing and serve lower-income households. Collectively, the term "lower-income" refers to households with income levels that are moderate-income, low-income, extremely low-income and poverty income levels. Lower-income levels are based upon and determined by federal, state or local agencies having authority in such matters;

(d) Public awareness of challenges facing the poor and lower-income people is important to the Corporation. Therefore, public participation, support and advocacy of these challenging issues are main components of the Corporation's efforts;

(e) The Corporation may organize advisory representatives from interested sectors of the community to help in relief of the poor, and lessening the burdens of government;

(f) Public fund raising, if any, will be for the creation, maintenance and preservation of affordable housing and providing social services for the poor and lower-income people that the Corporation serves;

(g) The Corporation may use any form of communication to raise awareness concerning the poor, housing and social service needs and to request economic support;

(h) The Corporation's activities will be capable of engaging the use of government funding for the creation of decent, safe affordable housing with social and educational services to the poor, the needy and lower-income people residing in the housing and communities that the Corporation serves;

(i) The communities to be served are located in the United States of America, and contiguous areas to these communities. The location of the affordable housing must be within or nearby neighborhoods considered deteriorating or in need of additional affordable housing. The claim of actual or potential deterioration or need for additional affordable housing must be substantiated by an independent needs assessment and or a federal, state or local agency having the authority in such matters. An agency must designate the area as deteriorated, threatened by deterioration, for community redevelopment or otherwise approve the Corporation's proposed housing and/or social service plan;

Community may further be defined as one or several neighborhoods, a city, county, metropolitan area or multicounty area (but not the whole state). Provided that the governing Board contains lower-income residents from the community that is being served;

(j) The structure of Board of Directors may reflect the community that it serves and will otherwise meet the regulatory requirements of the IRS under Section 501(c)(3), State of California and the federal HOME Investment Partnership Act/HUD-Home Program. The Corporation will create and maintain a close relationship between the public and private sectors of the community;

(k) Board Composition: The Corporation may maintain on the governing Board lower-income community representation of at least one-third (1/3) of the Board of Directors who may be either:

- 1) Residents of lower-income neighborhoods in the community; or
- 2) Lower-income residents of the community; or
- 3) Elected representatives of lower-income neighborhood organizations;

(1) HOME Certification: Each Board member that is intended to meet the requirement of Section 2 (k) above must provide verification or certification on an annual basis of his or her lower-income status;

(m) The Corporation will be responsive to the needs of the community. The Board composition may have a minimum of one-third (1/3) of the Board consisting of representatives of the community. There are three ways to meet this Board composition requirement:

- 1) Residents of lower-income neighborhoods in the community:
 - a) Lower-income neighborhoods are defined as neighborhoods where fifty-one percent (51%) or more of the residents are low-income; Residents of lower-income neighborhoods on the Board do not have to be lower-income themselves.
 - 2) Lower-income residents of the community:
 - a) In urban areas, "community" is not necessarily limited to a single neighborhood, but may include several neighborhoods, the city, county or metropolitan area; lower-income residents of lower-income neighborhoods in the community do not need to submit proof of their income; if lower-income residents of the community do not live in lower-income neighborhoods necessary to meet this threshold, then the resident must submit certification that the resident does qualify as low-income; and the HUD Section 8 definition of "lower-income and lower-income" applies: an annual gross income less than eighty percent (80%) of the area median income.

- 3) Elected representatives of lower-income neighborhood organizations:
 - a) A lower-income neighborhood organization is an organization composed primarily of residents of a lower-income neighborhood; The primary purpose of the organization must be to serve the interests of the neighborhood residents; block groups, town watch organizations, civic associations, neighborhood church groups and NeighborWorks organizations can be examples of lower-income neighborhood organizations; and the governing body of the lower-income neighborhood organization may elect the representative(s) to serve on the Board.

(n) The Corporation may foster and provide a formal process for lower-income and poor people to advise and participate with the Corporation in all of its decisions regarding the design, siting, development, providing, management and social services of government subsidized housing, including, the HOME-assisted affordable housing projects;

(o) Input from the lower-income community is not met only by having lower-income representation on the Board. The Corporation must also foster and provide a formal process for low-income, program beneficiaries to advise the Board on design, location of sites, development, providing and management of affordable housing;

(p) The formal process for low-income, program beneficiaries to advise and provide input to the Corporation may include the establishment of systems for community involvement in the Corporation's service areas where affordable housing will be developed, but which are not represented on the Board. Examples of these systems may be:

- 1) ad hoc, or special committees of neighbors of a proposed affordable housing site;
- 2) neighborhood advisory councils;
- 3) one or a series of open neighborhood meetings; and
- 4) temporary expansion of the Board to include neighbors during the period of housing and social service planning and development activity.

(q) The structure of the Corporation's Board of Directors may balance community representation on the Board with, limits on representation from the public and private sectors. The Corporation may avoid external control of the Board by the public sector or by for-profit entities. The Corporation's Board of Directors may include experienced community and neighborhood members. Governmental, technical and business people may represent additional portions of the Board of Directors with expertise in creating affordable housing and/or social service planning. The Corporation may encourage representatives from various sectors of the community to participate as advisors;

(r) Public Sector Limits: A maximum of one-third (1/3) of the governing Board may consist of representatives of the public sector. This limitation is intended to ensure that separation exists between the government and the Corporation, and that the Corporation is indeed community-based and community-controlled. This limitation is broadly interpreted in order to avoid public control of community-based nonprofits. A member of the Board of Directors would be considered to be a representative of the public sector if they are a public official, which includes elected officials, appointed public officials, public employees, or is appointed by a public official to serve on the Board of Directors. Members of the Board appointed by public officials cannot select other members of the Board, such that more than one-third (1/3) of the members of the governing Board can be traced back to public officials. Public officials and/or appointees who themselves are either lower-income community residents or residents of a lower-income neighborhood, count against the one-third (1/3) maximum limit of public sector representatives, not towards the one-third (1/3) minimum requirement of community representatives;

(s) The Corporation shall be controlled by itself, and in service to, poor and lower-income communities. This Corporation shall be free of external controls, either from public or for-profit interests. This Corporation shall not be controlled by any public or for-profit entities;

FY 2021

(t) The Corporation is committed to, and capable of, engaging in the development and providing of affordable housing and providing social service to the poor, the needy and lower-income people who reside in the housing that is created by the Corporation;

(u) The Corporation will demonstrate the capacity of its key staff to carry out the proposed activities of the Corporation. This means that the key staff is experienced in and has successfully completed projects similar to those proposed by the Corporation.

ARTICLE 13 CONFLICT OF INTEREST

SECTION 1. PURPOSE

The management of the corporation is vested in its Board of Directors and officers, and each director and officer has undertaken a duty of loyalty, fidelity, and fiduciary responsibility toward the corporation.

The Board of Directors has included and should continue to include individuals from the communities served by the corporation, many of which have other activities, interests, or involvements with businesses or organizations in addition to their services as a director and/or officer of the corporation.

Such other interests or involvements by officers and directors may result in instances of dualities of interest and potential or apparent conflicts of interest.

The matter of potential conflicts of interest is deemed to be best addressed by adoption by the Board of Directors of an unequivocal expression of its policies on conflicts of interest, ethical standards, and principles of behavior for individual directors and officers, and by adoption of procedures for identifying and dealing with instances of potential conflicts of interest.

SECTION 2. POLICY

Each officer and director of the corporation shall, in the course of his or her duties on behalf of the corporation, act with strict loyalty and fidelity to the best interests of the corporation, exercise the utmost good faith in all matters and transactions involving the corporation, and adhere to the highest ethical standards of fiduciary duty as an officer and/or director of the corporation.

Each officer and director of the corporation shall endeavor to avoid, to the best of his/her ability, any situation which may result in a compromise of his/her duty to the corporation personally because of a duality or conflict of interest with any other organization with which the officer and/or director may be involved; and each officer and/or director shall endeavor to avoid even the appearance of a conflict of interest which may have an adverse effect on the corporation.

Each officer and director of the corporation shall disclose to the Board any potential conflict of interest he/she has with an officer or director. Such disclosure shall be made in writing and shall identify any material, financial or other beneficial interest held by such officer and/or director of his/her immediate family in organizations engaged in the same businesses or services as the corporation or engaged in the delivery of products or services to the corporation. The manner of such disclosure shall be set forth in written procedures adopted by the corporation pursuant to this statement of policy.

Any officer or director of the corporation having a potential conflict of interest in connection with a matter before the Board, such that the officer or director cannot in good faith act with undivided loyalty to the corporation shall abstain from voting or taking part in any Board action or activity on that matter. Such officer shall refrain from exercising personal influence on the matter and shall not be counted in determining whether a quorum exists from any meeting on the matter.

All disclosures of potential conflicts of interest shall be made a matter of corporation record. All abstentions from voting or other activities because of potential conflicts of interest shall be noted in the minutes of meeting and record of proceedings concerning the matter in question.

A disclosed interest shall not prevent the Board from taking any action on the matter in question, provided an open and frank discussion is had, nor shall the disclosure of such interest prevent the Board from taking any inquiries or obtaining such information or assistance from the officer or director in question as it deems advisable under the circumstances.

Each officer and director shall refrain from using any information or opportunities gained in his/her role as an officer and/or director of the corporation for personal benefit or gain or for the benefit or gain of any organization with which he/she may be involved, without prior disclosure to the Board and express approval from the Board.

The written procedures presented to the Board are hereby adopted for the purpose of administering this statement of policy. The Board shall review at least annually this statement of policy and the procedures hereby adopted, to ensure that potential conflicts of interest are being effectively addressed and managed. The Board shall advise new officers and directors of this statement of policy and the procedures hereby adopted, as amended, upon his/her election as an officer.

Whistleblower: All directors, staff and volunteers are encouraged to come forward with credible information on questionable and or illegal practices or violations of adopted policies of the Corporation. Such information can be reported to any of its Board members, or the executive director, or the assistance director. The Corporation will protect the individual from retaliation.

Document Retention: The Corporation's documents and records are retained electronically and scanned to the Corporation's database. Paper copies are stored off-site and are delivered to storage on a periodic, as space-needed basis. The Corporation does not destroy its documents and records. The executive director and the assistant director are responsible for the oversight of document handling.

SECTION 3. PROCEDURES

The Board of Directors of the corporation shall administer and monitor these procedures to carry out the statement of purpose and policy of the corporation with respect to potential conflicts of interest of directors and officers of the corporation. If a disclosure statement is called for, each director and officer shall provide the Board with such disclosure statement in a form suitable for the circumstances and these procedures.

Each director and officer shall provide additional written disclosures to the Board if and when additional material, financial or other beneficial interests develop and if any potential conflict of interest develops, within the meaning of the statement of policy.

Each director and officer shall be responsible for voluntarily abstaining from any Board action or activity where he/she is obliged to do so under the statement of policy. In the event of a disclosed interest which a director or officer believes will not affect his/her loyalty to the corporation, an open and frank discussion of the interest and the matter in question shall be held by the Board, without the interested director or officer present. The Board shall then decide whether or not the director or officer shall abstain from action on the matter, and the director or officer shall not participate in the decision on such abstention nor be counted for purposes of determining whether a quorum exists for a meeting on the matter.

Where a director or officer abstains from Board action or activity on a matter because of a disclosed interest, he/she shall not attempt to influence the vote or actions of any other director or officer on that matter, by argument or other means. The abstaining director or officer may, however, briefly state his/her position on the matter to the Board for information or assistance in connection with the matter.

Dear Sir or Madam:

This letter is in response to your request for a copy of your organization's determination letter. This letter will take the place of the copy you requested.

Our records indicate that a determination letter issued in October 1990, granted your organization exemption from federal income tax under section 501(c)(3) of the Internal Revenue Code. That letter is still in effect.

Based on information subsequently submitted, we classified your organization as one that is not a private foundation within the meaning of section 509(a) of the Code because it is an organization described in sections 509(a)(1) and 170(b)(1)(A)(vi).

This classification was based on the assumption that your organization's operations would continue as stated in the application. If your organization's sources of support, or its character, method of operations, or purposes have changed, please let us know so we can consider the effect of the change on the exempt status and foundation status of your organization.

Your organization is required to file Form 990, Return of Organization Exempt from Income Tax, only if its gross receipts each year are normally more than \$25,000. If a return is required, it must be filed by the 15th day of the fifth month after the end of the organization's annual accounting period. The law imposes a penalty of \$20 a day, up to a maximum of \$10,000, when a return is filed late, unless there is reasonable cause for the delay.

All exempt organizations (unless specifically excluded) are liable for taxes under the Federal Insurance Contributions Act (social security taxes) on remuneration of \$100 or more paid to each employee during a calendar year. Your organization is not liable for the tax imposed under the Federal Unemployment Tax Act (FUTA).

. .

January 5, 1999 Riverside Charitable Corporation 95-4158713

Organizations that are not private foundations are not subject to the excise taxes under Chapter 42 of the Code. However, these organizations are not automatically exempt from other federal excise taxes.

Donors may deduct contributions to your organization as provided in section 170 of the Code. Bequests, legacies, devises, transfers, or gifts to your organization or for its use are deductible for federal estate and gift tax purposes if they meet the applicable provisions of sections 2055, 2106, and 2522 of the Code.

Your organization is not required to file federal income tax returns unless it is subject to the tax on unrelated business income under section 511 of the Code. If your organization is subject to this tax, it must file an income tax return on the Form 990-T, Exempt Organization Business Income Tax Return. In this letter, we are not determining whether any of your organization's present or proposed activities are unrelated trade or business as defined in section 513 of the Code.

Because this letter could help resolve any questions about your organization's exempt status and foundation status, you should keep it with the organization's permanent records.

Please direct any questions to the person identified in the letterhead above.

This letter affirms your organization's exempt status.

Sincerely,

las Bulland

In the heading of this letter we have indicated whether you must file Form 990, Return of Organization Exempt From Income Tax. If Yes is indicated, you are required to file Form 990 only if your gross receipts each year are normally more than \$25,000. However, if you receive a Form 990 package in the mail, please file the return even if you do not exceed the gross receipts test. If you are not required to file, simply attach the label provided, check the box in the heading to indicate that your annual gross receipts are normally \$25,000 or less, and sign the return.

If a return is required, it must be filed by the 15th day of the fifth month after the end of your annual accounting period. A penalty of \$10 a day is charged when a return is filed late, unless there is reasonable cause for the delay. However, the maximum penalty charged cannot exceed \$5,000 or 5 percent of your gross receipts for the year, whichever is less. This penalty may also be charged if a return is not complete, so please be sure your return is complete before you file it.

You need an employer identification number even if you have no employees. If an employer identification number was not entered on your application, a number will be assigned to you and you will be advised of it. You must comply with this revenue procedure to maintain your tax-exempt status.

If we have indicated in the heading of this letter that an addendum applies, the anclosed addendum is an integral part of this letter.

We have audited the accompanying consolidating financial statements of Riverside Charitable Corporation (a non-profit organization) as of December 31, 2019 and 2018, which comprise the consolidating statements of financial position and the related consolidating statements of activities and functional expenses, changes in net assets and cash flows for the years then ended, and the related notes to the consolidating financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidating financial statements referred to above present fairly, in all material respects, the financial position of Riverside Charitable Corporation as of December 31, 2019 and 2018, and the changes in its net assets and its cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Notes to Consolidating Financial Statements December 31, 2019 and 2018

Note 1 - Organization and nature of operations

Riverside Charitable Corporation ("RCC") was initially incorporated in the State of California on July 18, 1988, amended on June 29, 1999, and is organized under the Nonprofit Public Benefit Corporation Law for charitable purposes. Riverside Charitable Corporation wholly owns RCC Vintage Oaks, LLC; RCC CG, LLC; RCC RW, LLC; RCC JGP, LLC; and RCC MGP, LLC which are collectively reported as RCC. RCC's specific purpose is to lessen the burden of government by fostering and providing charitable assistance, services and relief to those unable to afford the necessities of life. RCC's focus is on families and persons of lower income in the communities that RCC serves. RCC serves to foster, create, manage and preserve safe and decent, social service-enriched affordable housing for people of lower income. RCC is exempt as a charitable organization under Section 501(c)(3) of the Internal Revenue Code. Its assets are irrevocably dedicated to charitable purposes and not to be used for the private gain of any person.

Additionally, in furtherance of its specific purpose, RCC provides partnership management and social services to various low-income housing tax credit entities in which it has an ownership interest. The services are provided in accordance with the respective regulatory and fee agreements.

Note 2 - Summary of significant accounting policies

Principles of consolidation

The consolidating financial statements include the accounts of RCC. Additionally, the consolidating financial statements include the accounts of Vintage Oaks Note Holder in which RCC owns a minority financial interest, but has a controlling interest in. This entity is included in the consolidation in accordance with accounting principles generally accepted in the United States of America ("GAAP"). All significant inter-company transactions have been eliminated in consolidation.

For the affordable housing entities in which RCC, or its wholly owned entities, serves as the general partner or managing member, RCC has determined that the presumption of the financial and accounting control is held by other general partners, and as a result, RCC records its ownership interest in these entities under the equity method of accounting.

Basis of presentation

RCC presents its financial statements in accordance with the accounting guidance for nonprofit entities. Under this guidance, RCC is required to report information regarding its financial position and activities according to two classes of net assets: net assets without donor restrictions and net assets with donor restrictions. All the net assets of RCC are without donor restrictions. Furthermore, information is required to segregate program service expenses from management and general expenses.

RCC conforms to accounting guidance on revenue recognition for nonprofit entities. Under this guidance, contributions received, if any, are recorded as net assets without donor restrictions support or net assets with donor restrictions support depending on the existence and/or nature of any donor restrictions.

Notes to Consolidating Financial Statements December 31, 2019 and 2018

Use of estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting period. Actual results could differ from those estimates.

Cash and cash equivalents

RCC considers all highly-liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Due from affiliate

The advances due from affiliates are reported net of an allowance for doubtful accounts. As of December 31, 2019, there is no allowance for doubtful accounts.

Accounts receivable

Accounts receivable are reported net of an allowance for doubtful accounts. Management's estimate of the allowance is based on historical collection experience and a review of the status of accounts receivable. It is reasonably possible that management's estimate of the allowance will change. As of December 31, 2019 and 2018, there is no allowance recorded.

Investment in affiliated entities

RCC holds co-general partner interests in various limited partnerships and limited liability companies which are accounted for using the equity method. Under the equity method of accounting, the initial investment is recorded at cost and is subsequently increased by RCC's share of the earnings and contributions and decreased by RCC's share of losses and distributions.

Under the equity method, losses from operating partnerships and companies in which RCC has no deficit funding obligations, or has not been required to fund any obligations, are no longer recognized once the balance in the investment account reaches zero. Consequently, no loss from those limited partnerships or companies in which the investment account has reached zero is being recognized. The non-recognized losses will be offset against RCC's share of future income from the respective partnerships and companies. Losses from operating partnerships and companies in which RCC has been required to fund deficits are fully recognized as they are incurred. The excess losses on a cumulative basis that have not been recognized as of December 31, 2019 and 2018 are \$1,258,331 and \$58,683, respectively.

Notes to Consolidating Financial Statements December 31, 2019 and 2018

Notes receivable

Notes receivable are reported net of an allowance for uncollectible amounts. Management's estimate of the allowance is based on historical collection experience and a review of the current status of notes receivable. It is reasonably possible that management's estimate of the allowance will change. As of December 31, 2019 and 2018, the allowance is \$10,858,960 and \$4,379,000, respectively.

Property and equipment

Property and equipment are recorded at cost if purchased and at fair market value at date of donation if received by contribution. Donations of property and equipment are recorded as support at their estimated fair value. Such donations are reported as unrestricted support unless the donor has restricted the donated asset to a specific purpose. Major replacements and refurbishing are charged to the property accounts while replacements, maintenance, and repairs which do not improve or extend the lives of the respective assets are expensed currently. Depreciation is computed based upon the straight-line method over the estimated useful lives of the assets using the straight-line method, ranging from 5 to 40 years.

Impairment of long-lived assets

RCC reviews its investments and property and equipment for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. When recovery is reviewed, if the undiscounted cash flows estimated to be generated by the asset are less than its carrying amount, management compares the carrying amount of the asset to its fair value to determine whether an impairment loss has occurred. The amount of the impairment loss is equal to the excess of the asset's carrying value over its estimated fair value. No impairment losses have been recognized during the years ended December 31, 2019 and 2018.

Project development costs

RCC incurs costs in connection with properties it is considering for development as well as costs associated with projects in the initial stages of development. These costs include such items as market studies, purchase options, environmental study costs, legal and accounting costs. Project development costs are capitalized until such time as the project is no longer considered desirable or feasible, at which time the costs are expensed. Project development costs related to projects that are ultimately developed are subsequently recorded as receivables to be repaid by the applicable projects.

Deferred loan costs

Debt issuance costs, net of accumulated amortization, are reported as a direct reduction from the face amount of the note payable to which such costs relate. Amortization of debt issuance costs is reported as a component of interest expense and is computed on a straight line basis.

Revenue recognition

Revenue primarily consists of program service revenue, rental income and interest income.

Program service revenue

RCC receives various fees for the performance of partnership management services from entities in which it has an ownership interest. Such fees include:

• Property tax exemption compliance fees – RCC performs such services at certain affordable housing projects and the fees are generally earned and paid monthly in accordance with the terms of the applicable agreement. The payment of these fees is funded from the entities' cash flow.

Notes to Consolidating Financial Statements December 31, 2019 and 2018

- Managing general partner fees in connection with their role as a managing general partner, RCC earns an annual fee from certain project partnerships that are paid from project operations or surplus cash, as defined.
- Other fees per an agreement with an unrelated party, whereby both parties are general partners in a project partnership, RCC is entitled to receive 10% of profits, distributions, gains, cash and capital account distributions and development fees. Under the agreement, in the event any lender or investor requires any guarantee or indemnification in connection with the formation, development or operation of a project partnership, such guarantees are solely provided by the unrelated party, and not RCC. In general, these fees are paid from debt or equity proceeds, or surplus cash when available. As RCC has no future performance obligations, the amounts are recognized as revenue upon receipt of cash.
- RCC has various other arrangements with unrelated parties, similar to the agreement noted above, in which they are entitled to receive certain percentages of fees which are paid from debt or equity proceeds, or surplus cash, as defined. Generally, RCC has no future performance obligations, and the amounts are recognized as revenue upon receipt of cash.

Rental income

Rental income from tenants is recognized as rents become due. Rental payments received in advance are deferred until earned. All leases between RCC and the tenants are operating leases.

Functional allocation of expenses

The costs of providing program services and other activities are summarized on a functional basis in the statements of activities and functional expenses. Accordingly, certain costs are allocated among program services and management and general services based on usage of resources. All expenses are directly attributable to a specific function.

Income taxes

RCC has applied for and received a determination letter from the Internal Revenue Service ("IRS") to be treated as a tax-exempt entity pursuant to Section 501(c)(3) of the Internal Revenue Code and did not have any unrelated business income for the years ended December 31, 2019 and 2018. Due to its tax-exempt status, RCC is not subject to income taxes. RCC is required to file tax returns with the IRS and other taxing authorities. Accordingly, these financial statements do not reflect a provision for income taxes and RCC has no other tax positions which must be considered for disclosure. While no income tax returns are currently being examined by the Internal Revenue Service, tax years since 2016 remain open.

Allocation of costs

RCC has an economic relationship with Community Housing Assistance Program, Inc. (CHAPA), a nonprofit organization. In January 2015, RCC entered an agreement to allocate certain administrative expenses to CHAPA. The allocation is based on the number of units managed by each organization. However, each organization has and maintains its separate corporate identity. Neither entity has any voting rights in the other and there are no contractual or oversight requirements imposed on either organization in favor of the other.

Recent accounting pronouncements

In November 2016, the Financial Accounting Standards Board issued Accounting Standards Update 2016-18, *Statement of Cash Flows (Topic 230) - Restricted Cash* ("ASU 2016-18") to address diversity in practice with respect to the cash flows presentation of changes in amounts described as restricted cash and cash equivalents. ASU 2016-18 requires a reporting entity to include amounts described as either restricted cash or restricted cash and cash equivalents (collectively referred to as "restricted cash" herein) when reconciling beginning and ending balances in its statement of cash flows. The update also amends Topic 230 to require disclosures about the nature of restricted cash and provide a reconciliation of cash, cash equivalents and restricted cash between the statement of financial position and the statement of cash flows. ASU 2016-18 was adopted retrospectively during the year ended December 31, 2019. Adoption of ASU 2016-08 had no impact on the statement of cash flows.

In June 2018, FASB issued ASU 2018-08, *Clarifying the Scope and the Accounting Guidance for Contributions Received and Contributions Made* ("ASU 2018-08"). This standard assists entities in evaluating whether transactions should be accounted for as contributions or exchange transactions and determining whether a contribution is conditional. RCC implemented the provisions of ASU 2018-08 applicable to both contributions received and to contributions made in the accompanying financial statements on a retrospective basis. There is no effect on net assets in connection with the implementation of ASU 2018-08.

Note 12 - Commitments and contingencies

Litigation

Properties owned and managed by RCC are subject to lawsuits and claims, which arise out of the normal course of its activities. In the opinion of management, based upon the opinions of legal counsel, the disposition of all such actions, of which it is aware, will not have a material effect on the financial position of RCC.

Notes to Consolidating Financial Statements December 31, 2019 and 2018

Note 13 - Subsequent events

Events that occur after the statement of financial position date, but before the financial statements were available to be issued, must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the statement of financial position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the statement of financial position date require disclosure in the accompanying notes. Management evaluated the activity of the RCC through July 22, 2020, the date the financial statements were available to be issued, and concluded that other than the subsequent event noted below, no subsequent events have occurred that would require recognition in the financial statements or disclosure in the notes to financial statements.

In early 2020, an outbreak of a novel strain of coronavirus (COVID-19) emerged globally. As a result, events have occurred including mandates from federal, state, and local authorities leading to an overall decline in economic activity. RCC is not able to estimate the length or severity of this outbreak and the related financial impact. Management will continue to assess and monitor the situation as it evolves. If the length of the outbreak continues for an extended period of time RCC may have to seek alternative measures to finance its operations including use of reserves. The extent of the impact of COVID-19 on RCC's operational and financial performance is uncertain and cannot be determined at this time.

RE: RFP Insurance Requirements Review

I have reviewed the attached insurance requirements provided to our office in attachment B Insurance Requirements. Our policies are able to meet all requirements as outlined excepting the one I have noted in the next paragraph.

Section 3 – Automobile liability, Sub Section B Coverage shall be at least as broad as insurance services office automobile liability coverage form CA 0001, symbol 1 (any auto) The partnerships do not own any automobiles so carriers won't allow for an auto symbol 1. However, we do carry hired and non-owned auto coverage at the \$1,000,000 as evidenced on the certificates.

Please let me know if this coverage will be acceptable. I have attached certificates as evidence of our current policies.

Thank you,

THE PACIFIC COMPANIES

Company Profile

Established in 1998, The Pacific Companies (TPC) is a privately held, vertically integrated real estate enterprise that develops, designs, builds, and owns special-use commercial real estate throughout the western United States. The firm's activities are concentrated in the production of high-quality affordable and market-rate multifamily housing as well as build-to-suit public charter school facilities.

Founder and CEO, Caleb Roope leads a cross-disciplinary team of over 40 professionals. The enterprise consists of multiple companies with complementary roles and missions. Pacific West Communities, Pacific Partners Residential, and Pacific Education Partners manage development, finance, and asset management for TPC's three dominant offers, specifically, workforce and senior multifamily housing, market-rate multifamily housing, and public charter school facilities, respectively. Pacific West Architecture designs TPC's projects in-house, and Pacific West Builders executes construction. TPC Insurance Services maximizes general liability and workers' compensation protection with captive insurance and wrap policy programs. Together, these companies form a fully-integrated investment and development team.

With over 140 projects developed and under ownership, TPC recurrently designs, develops, constructs and operates properties to a standard that produces resident, lender and investor satisfaction. The firm has maintained positive net income and cash flow in every year since inception, including throughout the recent real estate collapse and recession that began in 2008.

With no defaults, foreclosures, bankruptcies, or unanticipated investor capital calls in the firm's history and over \$1.5 billion in asset value produced, TPC today is a sought-after client among industry providers of debt and equity. This gives TPC an optimal environment to continue to pursue its mission of delivering high-quality, high-impact housing and schools to the communities we serve.

Site Acquisition

Site selection and acquisition is a key factor in the ultimate performance and acceptance of a quality multi-family residential community. Stringent standards of property selection, professional market research, and management help to establish the future success of any development.

TPC's land acquisition process is under the guidance and direction of Caleb Roope with several real estate specialists strategically situated in regional offices. The team combines nearly 60 years of experience and has successfully acquired over one hundred sites for the development of multi-family and senior citizen residential communities. The group specializes in close coordination with local government officials, which ensures proper community support in processing the proposed development through governmental approvals and regulations. Prior to acquisition and financing applications, each site has undergone careful analysis by in-house professionals in real estate, construction, architecture, engineering, legal, marketing, and finance.

Applications and Financing Due Diligence

TPC's qualified and experienced professionals are experts in the complicated realm of affordable housing finance. Key staff includes former state housing agency officers Denise Carter and Peter Van Dorne, who specialize in the acquisition of affordable housing resources and the management requirements this entails. With the successful financing of over 140 affordable housing developments in twelve states, each with their own unique application processes, compliance details and funding requirements, the team has developed an outstanding reputation among local and state housing finance agencies as well as private debt and equity providers throughout the industry.

Architecture and Engineering

TPC's affiliated design group, Pacific West Architecture, provides the architectural and engineering components of the real estate development process. TPC's architects work closely with civil engineering firms to craft an integrated design program that produces quality housing developments. Many times, potential residents and neighbors are surprised to learn that the properties are affordable housing communities. In addition to the attractive design of each unit, amenities are added for greater community interaction such as pool/spa areas, children's play areas, basketball courts, computer learning centers, fitness centers, and clubhouses and/or community centers. The philosophy of PWA is to embrace local architectural preferences first while designing facilities that fully meet developmental needs, are cost effective to construct and maintain, energy efficient to operate, responsive to environmental and site conditions, and are aesthetically pleasing to the natural landscape and surrounding land uses.

PWA is led by Douglas Gibson, a very accomplished architect licensed throughout the western United States. Mr. Gibson has been involved in the planning, design, and construction of

hundreds of developments and is a high-touch service provider of construction oversight, satisfaction of municipal entitlement requirements, and client program administration.

Project Development and Management

TPC employs specialty project management staff to coordinate the development activities associated with multi-family housing developments. The project management team coordinates the work of architects, engineers, infrastructure service providers, and contractors in order to ensure developments promptly complete the sometimes difficult entitlement processes in accordance with strict timeframes governed by financing, weather, and local agency requirements. The project management team views the planning and entitlement process as a partnership with local government, so that all agency staff and elected officials are satisfied with TPC's residential communities.

Construction

Pacific West Builders, Inc. (PWB) executes construction for the majority of TPC's housing developments. As a licensed and bonded general contractor and construction management firm, PWB specializes in energy efficient multifamily, single-family, and modular construction. By working with an extensive network of experienced regional and local subcontractors, PWB has a greater ability to ensure each project is built to quality standards that surpass expectations. Under the direction of executives with a combined 60 years of experience, the PWB team is fully equipped to meet and exceed quality, cost, and schedule expectations.

Asset Management

The ultimate success of any real estate venture rests in its long-term economic performance and acceptance within a community. TPC employs staff in its asset management division who are exclusively committed to following this principle. Properties are visited on a quarterly basis at a minimum, with significant attention devoted toward the outward appearance as well as confirming the development continues to maintain a positive local image. These comprehensive inspections also serve as a tool to evaluate and improve the performance of each local management agent. Such close coordination with the on-site team and their supervisors produces an environment in which quality control standards are upheld, operational goals are met, and residents enjoy the comfort and safety of an affordable home.

The same level of excellence that influences each property's physical condition is also applied to those seeking residency. Applicants are evaluated based upon their credit profile, their criminal history, and their previous housing references in an effort to ensure that we attract responsible individuals and families to our communities. Stringent standards of behavior and respect are applied to every resident with the goal of creating a community in which all can be proud.

Our Goal

At TPC, our goal is to bring quality real estate developments and desirable communities to an underserved segment of families and senior citizens. Not only do we believe in addressing the overwhelming need for affordable housing, we have the expertise, experience, and willingness to commit to the challenge of building safe, quality, affordable homes for those who need them most. By working with government agencies, non-profit organizations, and other developers, we will continue to bring enviable housing options to communities across the western United States.

Overland Property Group

Overland Property Group (OPG) achieved its highest production rate of new development in 2016, almost tripling any single year's production, with over \$80 million in closings.

¶ Headed by partners Patrick Beatty, Brett Johnson (pictured), and Rex Vanier, the Leawood, Kan.—based firm develops and owns affordable and market-rate housing for seniors and families in Colorado, Iowa, Kansas, Missouri, Oklahoma, and Texas.

"We operate as a very small organization but have managed to develop in a wide-ranging footprint across six states," Johnson says. "We are collectively a very active group out in the field."

¶ OPG started six affordable housing developments with 351 units and completed five developments with 176 units last year. It's new to the AHF 50 developers list, coming in at No. 26.

¶ One of the developments started last year will bring 48 units of much-needed affordable housing to the resort town of Steamboat Springs, Colo. With little affordable housing in northwest Colorado, the developer received an allocation for low-income housing tax credits, the first ever for the town, for The Reserves at Steamboat Springs.

The two- and three-bedroom units will serve residents earning 40%, 50%, and 60% of the area median income. Already 100% pre-leased, the development is expected to be completed by the end of April.
OPG is looking to continue its growth this year, projecting to start three affordable housing developments with 163 units and to

complete seven developments with

386 units. —c.s.

OUR STORY

Established in Orange County in 1974, AO is a multidisciplinary firm specializing in architecture, design, and relationships. AO has evolved from a two-person shop designing small commercial and retail improvements to a team of nearly 300, delivering some of the West Coast's most sought after multifamily, mixed-use, shopping, restaurant, and entertainment destinations. Last year we celebrated our 45th anniversary and the indelible relationships that have made us a leader in our craft. It is a moment to reflect on our legacy of creative design and quality architecture, and an opportunity to advance our story by developing new ways to capture in projects the inspired vision of our clients.

Firm Profile

PRACTICE

With a talented team skilled in a variety of project types, AO has emerged as a national leader in the design of multifamily and mixed-use developments. We are adept at leading multi-disciplined, high-performance teams to provide solutions of design relevance, cost effectiveness and operational and organizational excellence. We strive to understand the specific location constraints and site features, and pursue intelligent solutions that maximize the opportunities and create high value for our clients.

AO is organized around a Principal led system which ensures the highest quality expertise and continuity from beginning to end of each project. Principal commitment means that your project will receive the resources and talent needed to meet all deadlines and deliverables every time.

Burrell knows that the commitment to project deadlines is of vital importance to our success. All projects are treated with the utmost care and attention to detail. These statements are not just words in a brochure; but are persistently implemented by the staff at Burrell. Department managers regularly review each project and the project's status is updated on a status report sheet. These status report sheets are then submitted and reviewed at weekly project status meetings, which is attended by all department managers and other pertinent staff. At this meeting, every project, including critical path items are discussed and everyone involved is updated with the present status and plans are made for any upcoming requirements the project are planned in advance and not managed reactively.

Burrell's project management protocol includes regularly updating our clients regarding the status of their project in writing or in person. These updates keep the client

informed on the status of their project, allowing both the client and Burrell to effectively track progress, thereby avoiding potential miscommunication.

Professional Membership

Burrell has considerable experience within the consulting field, however we also strongly believe that to provide the client with a high level of expertise, it takes a full-time commitment by the members of our staff to keep abreast of the latest issues. Total Quality Management System

Burrell takes pride in maintaining a high standard of quality. We train all employees to make sure that the work produced is to the highest standards. They are taught to do all work with such quality that they would be proud to have their name attributed to the work.

A new "buzz" word in the professional engineering community is Total Quality Management (TQM). Essentially this involves an understanding that all people in the firm contribute to the success or failure of its level of quality, timeliness, and success and to incorporate this idea into our everyday management system. This idea has been used ever since Burrell's inception and it has resulted in many changes in the way we handle everything from payroll to reprographic techniques. Usually, the best feedback we get is from the person who is directly involved with day to day workings of the company.

Weekly staff management meetings (separate from the project meetings) are held at which the principals of the firm along with the office manager meet to review how the company can serve the client and the employees more effectively. These meetings are part of Burrell's ongoing process to constantly modernize the firm. We also measure how our current methods are working and evaluate them to make them work better. This total quality management approach is used at Burrell; it is a continuous, meticulous, measurable, constantly evolving, and sometimes painful process to achieve the very best that we can.

As part of this commitment to quality, we purchase and are constantly updating our firm with the best possible equipment. Our computers and their respective software have been and always will be utilized in the most cost-effective manner. This commitment to technology is expensive; however, we believe that this firm cannot wholeheartedly dedicate themselves to their client and promise the utmost of service without the best technology available. This commitment requires a balancing act because one must also be reminded that while computers can be effective, it is important to recognize that computers are not always the answer. Within our computer section this is always an ongoing discussion, we delicately balance the needs of technological effectiveness versus human effectiveness during the course of our work.

Overview

Financing affordable and mixed-income housing projects requires legal complexity not normally found in traditional market real estate deals. Working with federal, state and local entities not only yields much-needed, quality affordable and mixed-income housing, but also presents attractive financing and tax benefits to developers and project owners. Katten's Affordable Housing and Community Development group is made up of experienced practitioners, including pioneers in the industry, who guide owners, developers, equity investors, tax credit syndicators, public and private lenders, quasi-governmental entities and government agencies through the regulatory and financing requirements of affordable and mixedincome housing projects throughout the nation.

Moreover, during times of economic crisis, our attorneys know how to handle workouts and restructurings for troubled affordable housing loans thanks to their deep experience dealing with the complexity of affordable and mixed-income housing and workoutchallenged developments during past and current distressed real estate markets.

Innovative structuring

Katten's Affordable Housing and Community Development group comprises real estate and tax attorneys who work jointly to deliver practical solutions to complex problems, whether in the case of new transactions or working out non-performing properties and loans. Our attorneys have a thorough understanding of both the financing available for affordable housing and the maze of regulatory requirements clients must navigate to attain it. Katten attorneys have been instrumental in creating innovative financing structures for affordable housing, workforce housing, mixed-income housing and community development projects, utilizing public-private partnerships, federal and state tax credits, taxable bonds, tax-exempt bonds and private equity. It is this experience and innovation that

"Their knowledge and ability to manage through the process is very helpful and they are typically able to do the work at a cost that is far less than some of the larger firms."

- U.S. News – Best Lawyers® 2019 "Best Law Firms" (Real Estate Law) survey response

separate us from our peers. Our breadth of experience includes working on the following transactions:

- In New York City, where these types of transactions originated and are most prevalent, our track record of steering complex deals through to completion is exemplary. Our real estate and tax attorneys engineered the creation of a number of unique tax structures that began in New York and have since become widespread across the country. One of these formed the basis for the "80/20" mix of market-to-low-income rent structures now standard in the industry. In one recent case in New York, Katten attorneys assisted a developer in a complex transaction in which the City of New York conveyed the land to the developer and provided significant long-term, subordinated low-interest financing for the development of a mixed-income project. The project comprised three separate condominium units containing more than 1,200 residential units, ancillary parking facilities and a large retail eatery. In this project, 20 percent of the units were affordable rate, 33 percent were market rate and the remaining units were workforce housing.
- In California, our attorneys worked closely with an affordable housing developer to create and implement a B-bond program, which enables affordable housing projects to support a larger debt burden than is typical for most projects. This structure has been used on a number of urban infill transactions throughout California, including projects located in Los Angeles, San Jose, Santa Ana, Rohnert Park, Inglewood, Hawthorne, Garden Grove, Gilroy and Oxnard.
- In Illinois, we provided value-added advice to a developer in connection with a mixed-use project anchored by Whole Foods in an area that was previously a food desert on Chicago's South Side. The financing for the project was a true public-private partnership that included a below-market ground lease, federal New Markets Tax Credits, TIF dollars and private equity. We have also worked with several market rate developers to satisfy the requirements imposed by Chicago's affordable housing ordinance.
- Nationwide, in connection with the bankruptcy of Lehman Brothers, our affordable housing attorneys represented a major US bank and utilized innovative strategies in preserving the client's interests in its collateral, which consisted of troubled mortgages in more than 35 properties located throughout the country with an aggregate value of more than \$1 billion dollars.

Our attorneys have represented owners, lenders and bond issuers in connection with defaulted Department of Housing and Urban Development (HUD), Fannie

Mae and Freddie Mac insured loans and have extensive experience in restructuring defaulted, tax exempt, bond funded, HUD insured loans through the issuance of refunding bonds thanks to collaboration with our Insolvency and Restructuring practice. Our attorneys also have a broad base of experience working with HUD and have a deep understanding of many HUD and GSE programs that generate (or help preserve) affordable and mixed-income housing units throughout the country.

National reach

While our approximately 100-attorney real estate department is well-represented in every major US property market, our day-to-day collaboration transcends geography — our attorneys routinely work with colleagues in offices throughout the country. This national platform ensures that the experience from one market can be readily leveraged and applied to other markets. Wherever affordable housing becomes a viable option, anywhere in the US, we have the know-how and experience to steer clients through the regulatory complexities and financing obstacles to close the deal or to restructure a troubled deal.

We are experienced in all aspects of affordable and mixed-income/mixed-use housing and community development transactions, including:

- Low-Income Housing Tax Credits (LIHTC)
- Opportunity zones
- Workforce housing
- Mixed-income and mixed-use developments/public-private partnerships
- Public finance tax-exempt bonds
- FHA-insured and GSE mortgage programs
- Federal, state and local government housing assistance and grant programs
- Projects receiving Section 8 housing assistance payments
- Rental Assistance Demonstration (RAD) program development
- Quasi-governmental financing programs
- Corporate, tax and business entity structuring
- New Market Tax Credits (NMTC)
- Historic Tax Credits (HTC)

Our Experience

- Advise multifaceted real estate company regarding the structuring, financing, redevelopment and preservation of RAD conversion projects. The transactions were structured to facilitate the greatest leveraging of public funds with private financing sources, including maximization of available equity from the syndication of LIHTC. Financing was obtained through the issuance of tax-exempt bonds, secondary financing from the housing authority and utilization of certain tax benefits, such as a PILOT agreement.
- Developer counsel in the negotiation and closing of a purchase and development agreement (with different kinds of debt and equity) with the United States General Services Administration (GSA) for a mixed-use, 42acre property in Washington, DC, next to the baseball stadium.
- Senior bondholder representative counsel in the workout of a defaulted bond financed loan for a low-income housing tax credit project located in Richmond, Virginia, in which the bondholder acquired a general partnership interest in the owner and additional tax credit investor equity capital in lieu of pursuing a mortgage foreclosure.
- Developer counsel for many affordable housing transactions across the country utilizing multiple tranches of debt and equity financing, including LIHTC equity, HOME and CDBG loans, AHP funds, TIF, HTCs and energy grants. Served as developer counsel in closing a series of transactions utilizing a new structure to preserve existing Section 8-subsidized projects involving restructuring of existing HUD-held debt, tax-exempt bond financing, LIHTC equity, and subordinate municipal financing, which may also include TIF and bridge financing.
- NMTC community development entity and developer counsel on multiple NMTC transactions throughout the United States. Serve as counsel to a nonprofit educational institution in Chicago in the development of athletic facilities using NMTC equity and as counsel to a nonprofit developing a mixed-use project in Washington, DC, providing nonprofit office space and housing for victims of domestic violence.
- Developer counsel in HUD regulatory and compliance issues on a nationwide basis, including Section 8 contract renewals, rent adjustments, approval of property transfers, allowable distributions and equity take-outs, fair housing and accessibility issues, transfers of physical assets, 2,530 previous participation clearances, 202 project transfers and loan subordinations.

- Lender counsel in a variety of construction and permanent loan transactions across the United States involving LIHTCs and HTCs—including workouts, foreclosures and recapitalizations. Lender counsel in closing a restructuring and recapitalization of a \$1.4 billion, 3,700-acre master-planned community in Orange County, California.
- Lender counsel in refinancing a portfolio of 30 affordable, multifamily housing projects located in five states. The refinancing involved 30 separate municipal bond transactions totaling \$171 million and included tax-exempt and taxable bonds and associated derivative products.
- Lender counsel to an agency lender and several national banks providing credit enhancement for multifamily housing bond transactions. Serve as counsel to sponsors in the securitization of more than \$3 billion of tax-exempt and taxable multifamily housing bonds through an agency lender program and credit enhancement programs. Lender counsel assisting lenders in obtaining agency lender licenses and approvals. Provide ongoing advice on regulatory and compliance issues.
- Counsel for a city government and state in connection with the workout of billions of dollars of defaulted loans in the Mitchell-Lama program through a HUD insurance program, specifically created through federal and state legislation to address the problem loan portfolio.*
- Bond counsel in numerous placements of tax-exempt bonds involving a wide range of facilities and projects (multifamily housing, continuing care facilities, medical offices, airports and port facilities).
- Public Housing Authority representation in mixed-finance transactions involving public housing capital grants, HOME funds and TIF. Includes counsel in four large mixed-finance transactions and as trustee counsel in bond issuances, in which HUD receipts were pledged as security for the payment of the bonds.
- Represented a large national bank as construction lender for the development of a \$120 million mixed-use, commercial retail/apartment project in Chicago, which will include 110,000 (rentable) square feet of commercial/retail space anchored by a grocery store, and 180 apartment units, including 36 affordable housing units in a project that includes TIF with a redevelopment agreement with a city government.
- Tax credit investor counsel and developer counsel in investments in numerous 80/20 mixed-income apartment and multi-use projects in California, New York and Washington, DC. Developer counsel in more than 75 high-rise 80/20 and mixed-use projects in Manhattan and elsewhere in

New York City, including \$1.2 billion construction financing for three towers between West 59th and West 61st streets, \$539 million construction financing on West 42nd Street, \$470 million financing in the Hudson Yards area, \$407 million financing in Midtown West, and permanent construction financing on West 38th Street. Individual matters involve the New York State HFA issuing tax-exempt bonds and taxable bonds that are credit-enhanced by a letter of credit from an international bank, LIHTCs, 421-a real property tax exemptions, and floor area bonuses pursuant to the Inclusionary Zoning Program of the City of New York.

- Represented various lenders, investors and owners with respect to debt and bond restructurings and workouts, REIT lease modifications, and project recapitalizations with specific emphasis on the tax implications of such transactions.*
- Represented Starrett City Associates, as seller, and Brooksville Company LLC and Rockpoint Group LLC, as purchasers, in the \$905 million sale of Spring Creek Towers (formerly called Starrett City), the largest federally subsidized housing development in the United States.
- Represent various real estate developers in the financing and development of mixed-income multifamily projects in the Long Island City, East Harlem and Jamaica neighborhoods of New York City. Each project will be one of the largest apartment projects in its respective neighborhood. These transactions are structured to facilitate the generation and potential syndication of LIHTCs.
- Represent strategic real estate development company in ground leasing more than one acre of land off Webster Avenue in the Bronx. Involves client demolishing the existing structures on the property, constructing a multifamily residential rental building with accompanying retail spaces, and operating the new development under a 99-year ground lease. This project will create 340 brand new, affordable housing units in a highly desirable area of the Bronx and showcases the client's commitment to including a valuable resource to the community in the form of a neighborhood grocery store in an area lacking healthy, nutritious food options.
- Public-private representation, including of a residential and commercial real estate acquisition, development and management company, in financing a very large and impactful multifamily development in Long Island City, Queens. The project creates a public-private partnership between New York City and our client to create much-needed and difficult-to-develop affordable and workforce housing. Tax-exempt bonds will be issued to finance the

affordable portion of the development, and the transaction will be structured to facilitate the generation and potential syndication of LIHTCs.

Represent real estate developer in a 20-acre planned unit development in northeast Washington, DC. The redevelopment is expected to contain approximately 1,750 apartments (22 percent affordable) in multifamily buildings, seniors-only housing and row houses, plus approximately 180,000 square feet of retail space, including a 56,000-square-foot anchor grocery store along with community and open/green spaces. The years-long development process will require the coordination of zoning approvals, temporary relocation of tenants, attracting retail tenants, updating HUD contracts, obtaining private and public financing, providing community support programs, demolition of the existing structures and the phased construction of the new buildings.

With over 160 projects developed and under ownership, TPC recurrently designs, develops, constructs and operates properties to a standard that produces resident, lender and investor satisfaction. The firm has maintained positive net income and cash flow in every year since inception, including throughout the recent real estate collapse and recession that began in 2008.

With no defaults, foreclosures, bankruptcies, or unanticipated investor capital calls in the firm's history and over \$1.5 billion in asset value produced, TPC today is a sought-after client among industry providers of debt and equity. This gives TPC an optimal environment to continue to pursue its mission of delivering high-quality, high-impact housing and schools to the communities we serve.

Site Acquisition

Site selection and acquisition is a key factor in the ultimate performance and acceptance of a quality multi-family residential community. Stringent standards of property selection, professional market research, and management help to establish the future success of any development.

TPC's land acquisition process is under the guidance and direction of Caleb Roope with several real estate specialists strategically situated in regional offices. The team combines nearly 60 years of experience and has successfully acquired over one hundred sites for the development of multi-family and senior citizen residential communities. The group specializes in close coordination with local government officials, which ensures proper community support in processing the proposed development through governmental approvals and regulations. Prior to acquisition and financing applications, each site has undergone careful analysis by in-house professionals in real estate, construction, architecture, engineering, legal, marketing, and finance.

Applications, Financing, and Due Diligence

TPC's qualified and experienced professionals are experts in the complicated realm of affordable housing finance. Key staff includes former state housing agency officers Denise Carter and Peter Van Dorne, who specialize in the acquisition of affordable housing resources and the management requirements this entails. With the successful financing of over 180 affordable housing developments in 14 states, each with their own unique application processes, compliance details and funding requirements, the team has developed an outstanding reputation among local and state housing finance agencies as well as private debt and equity providers throughout the industry.

Architecture and Engineering

TPC's affiliated design group, Pacific West Architecture, provides the architectural and engineering components of the real estate development process. TPC's architects work closely with civil engineering firms to craft an integrated design program that produces quality housing developments. The philosophy of PWA is to embrace local architectural preferences first while designing facilities that fully meet developmental needs, are cost effective to construct and maintain, energy efficient to operate, responsive to environmental and site conditions, and are aesthetically pleasing to the natural landscape and surrounding land uses.

PWA is led by Douglas Gibson, a very accomplished architect licensed throughout the western United States. Mr. Gibson has been involved in the planning, design, and construction of hundreds of developments and is a high-touch service provider of construction oversight, satisfaction of municipal entitlement requirements, and client program administration.

Project Development and Management

TPC employs specialty project management staff to coordinate the development activities associated with multi-family housing developments. The project management team coordinates the work of architects, engineers, infrastructure service providers, and contractors in order to ensure developments promptly complete the sometimes difficult entitlement processes in accordance with strict timeframes governed by financing, weather, and local agency requirements. The project management team views the planning and entitlement process as a partnership with local government, so that all agency staff and elected officials are satisfied with TPC's residential communities.

Construction

Pacific West Builders, Inc. (PWB) executes construction for the majority of TPC's housing developments. As a licensed and bonded general contractor and construction management firm, PWB specializes in energy efficient multifamily, single-family, and modular construction. By working with an extensive network of experienced regional and local subcontractors, PWB has a greater ability to ensure each project is built to quality standards that surpass expectations. Under the direction of executives with a combined 60 years of experience, the PWB team is fully equipped to meet and exceed quality, cost, and schedule expectations.

Asset Management

The ultimate success of any real estate venture rests in its long-term economic performance and acceptance within a community. TPC employs staff in its asset management division who are exclusively committed to following this principle. Properties are visited on a quarterly basis at a minimum, with significant attention devoted toward the outward appearance as well as confirming the development continues to maintain a positive local image. These comprehensive inspections also serve as a tool to evaluate and improve the performance of each local management agent. Such close coordination with the on-site team and their supervisors produces an environment in which quality control standards are upheld, operational goals are met, and residents enjoy the comfort and safety of an affordable home.

The same level of excellence that influences each property's physical condition is also applied to those seeking residency. Applicants are evaluated based upon their credit profile, their criminal history, and their previous housing references in an effort to ensure that we attract responsible individuals and families to our communities. Stringent standards of behavior and respect are applied to every resident with the goal of creating a community in which all can be proud.

Our Goal

At TPC, our goal is to bring quality real estate developments and desirable communities to an underserved segment of families and senior citizens. Not only do we believe in addressing the overwhelming need for affordable housing, we have the expertise, experience, and willingness to commit to the challenge of building safe, quality, affordable homes for those who need them most. By working with government agencies, non-profit organizations, and other developers, we will continue to bring enviable housing options to communities across the western United States.

federal low-income housing tax credit projects, inclusionary multifamily housing developments, and charter schools. Highly skilled in accounting, finance, construction oversight, and project management, he is an adept and discerning leader who moves skillfully through financial, political, and other challenges. With a strong team of specialists supporting him, Caleb completes approximately ten multifamily and special-purpose projects each year, always watching the marketplace for emerging and complementary opportunities to innovate, deploy his firm's special skill set, and produce lasting community assets.

MINDY REX joined TPC in 2013 as COO and is responsible to oversee the fulfillment of TPC's various offers including coordinating the activities of the firm to ensure that TPC's multifamily and special-purpose projects meet the expectations of our public funders, corporate and private lenders and investors, and residents. TPC has completed over 160 affordable housing developments totaling nearly 10,000 units, and currently has an additional 40 projects with nearly 5,000 units under construction or in development. TPC is often ranked among the "Top 10 Developers in the Nation" as published by Affordable Housing Finance Magazine, and most recently earned the #1 spot as 2018's top producer.

Below is a table of our previous affordable housing projects that demonstrates our experience with various financing sources and their accompanying regulations. The column at the far right indicates the projects (and the dollar amount, in millions) for which we've originated the private, tax-exempt subordinate bonds that we're proposing for this project.

Following the table are a sampling of our recently completed, under construction, and in- development projects.

RE: Bonding Capacity for Pacific West Builders, Inc.

To Whom it may concern:

Pacific West Builders, Inc. has asked us to submit this letter to you outlining their surety relationship with The Hartford. The Hartford has been the bonding company for Pacific West Builders, Inc. since 2006. Since the inception of our relationship we have bonded projects in several western states with the largest of these being \$30,000,000 in size and supported work programs as high as \$350,000,000 in size. We have currently made arrangements to support single projects up to \$30,000,000 in size, and aggregate programs of up to \$350,000,000. These figures should by no means be considered the upward limit of our support. We have every confidence in this organization's abilities and feel they would be an excellent addition to your construction team.

Hartford's decision to issue any bond is conditioned upon acceptable review of and approval of the individual project characteristics, acceptable contract terms, and other pertinent underwriting information at the time of request. You understand that any arrangement for a bond on a project is a matter between Pacific West Builders, Inc. and The Hartford and we assume no liability to third parties or you if, for any reason, we do not execute a bid or final bond for any project.

Very truly yours, Hartford Fire Insurance Company

Re: The Lyla - Affordable Residential Apartments - Elk Grove, California - Preliminary Review

This letter will look at market conditions in the Elk Grove area, in regards to your proposed 294 unit family tax credit development to be located in the City of Elk Grove, California. The proposed site is located on the west side of Bruceville Road, just north of Laguna Blvd. The proposed subject will include 294 studio, one, two and three bedroom LIHTC units. The subject is very well located with a credit union and a Walgreens pharmacy directly south of the proposed site. A large shopping center anchored by Target and including a bank, several retail businesses and restaurants is located directly across Bruceville Road. The middle and high schools are just 0.5 miles, with an elementary school 0.8 miles. A grocery store (Nugget) is 1.0 miles, with Costco at 1.2 miles.

We will calculate the numbers of eligible households at 50, 60, 70 & 80 % of the area median income. The project will include the following unit mix:

50 - Studio one bath units	429 S.F.
93 - One bedroom one bath units	544 & 582 S.F.
76 - Two bedroom one bath units	693, 723 & 769 S.F.
<u>75</u> - Three bedroom two bath units	1,062 S.F.
294 - Total Units

Population

Sacramento County

Between 1990 and 2010 Sacramento County experienced very good growth, with its population increasing by 377,569 or 36.3 %. Growth over those two decades was very steady, increasing by 1.75 % annually between 1990 and 2000, and by 1.6 % per year on average between 2000 and 2010. From 2000 to 2010 the County population increased by 195,289 or 16.0 %, with the majority of that growth occurring between 2000 and about 2006 to 2007. Growth then slowed substantially over the last three years of that decade, coinciding with the economic downturn in the State and Country. The State of California Department of Finance has estimated the 2020 population of Sacramento County at 1,555,365, an increase of 136,577 or 9.6 % or 0.96 % from the 2010 Census total of 1,418,788. The State of California is projecting the 2025 population of the County at 1,637,045, an increase of 81,680 or 5.25 % or a 1.05 % annual average increase from their 2020 estimate. That projection was made in January 2020 with a 2019

baseline. Environics Analytics is projecting an increase of 3.5 % or 0.7 % annually from 2021 to 2026. We should note that their (Environics Analytics) 2021 County estimate of 1,564,478, is 9,113 or 0.6 % higher that the State's 2020 estimate of 1,555,365.

City of Elk Grove - Primary Market Area

Elk Grove is the 2nd most populous of Sacramento County's seven (7) incorporated cities. In 2020 the State of California DOF has estimated the City's population at 173,170, an increase of 96,872 or 127 % from the 2001 estimated population of 76,298 (note, Elk Grove was incorporated in 07/2000). The majority of that growth, like the County, occurred between 2001 and 2010, with its population increasing by 76,717 or 100.5 %, a very strong 11.2 % annual average increase. Over the past decade (2010 to 2020), growth in the City has slowed, although its population still increased by a good 1.5 % per year on average. Over the past ten years (2010 - 2020), the City population has increased by 23,139 or 15.1 %, from 153,015 in 2010 (Census) to 173,170 in 2020 (DOF estimate). Over the past year (2019 - 2020), Elk Grove's population increased by 2,984 or 1.7 %, just above the previous ten year average of 1.5 %. While the State does not make projections at the city level, Environics Analytics is projecting an increase of 5.5 % or 1.1 % per year on average between 2021 and 2026. We should note that Environics Analytics estimated an increase of 20.7 % or 1.9 % per year on average for the City/primary market area from 2010 and 2021, well above the State's 1.5 % annual rate of growth.

Households Trends

For household data we will use information from Environics Analytics/Ribbon Demographics. In 2021 they have estimated that there are 54,953 total households in the primary market area (City of Elk Grove), with an average household size of 3.32. Over the past twenty-one years (2000 - 2021), the total number of households in the primary market area increased by 29,189 or about 1,390 per year on average. Over the past eleven years (2010 - 2021), the total number of households has increased by 7,340 or 667 annually. That compared to an annual average increase of 2,185 from 2000 to 2010. Of the total existing households in 2021, 40,784 or 74.2 % are non-senior, with the remaining 14,169 or 25.8 % being senior (62+). According to Ribbon Demographics, while renter tenure for the primary market area in 2021 was 26.21 %, renter tenure for non-seniors was 27.084 %. So, 27.084 % x 40,784 (existing non-senior households) = 11,046 non-senior renter tenure households in the primary market area in 2021. In the five (5) year period between 2021 and 2026, Environics Analytics/Ribbon has projected

that the number of households in the primary market area will increase by 2,497 or 499 per year on average. Of that total, Ribbon is projecting that 142 will be non-senior, an annual average increase of 28. Of those, 24 or 5 per year on average are projected to be renter households, with the number of 1 - 5 person non-senior renter households actually decreasing by 136 or 27 annually.

Rents/Vacancies

On Monday, April 19, 2021, we surveyed by phone five (5) market rate projects in Elk Grove with 1,243 total units. The five projects were all located in the north-central part of the City, near the subject. Note that two of the projects were actually located just outside the northern Elk Grove City limits. At these five projects we found eight vacancies for a 0.6 % vacancy rate. That compared to a 0.4 % rate in January of this year, a 2.6 % rate in January 2019 and a 2.0 % rate in May 2018. Note that those surveys were of different projects in the City.

Market Rate Projects in Planning

Projects in Planning - We talked to Antonio Ablog, Planning Manager for the City of Elk Grove, regarding projects currently in the "pipeline" (under construction or in planning). Mr. Ablog was aware of just two projects currently in planning, both in the Laguna West part of the City. The first, Toscan Apartments, will include 206 total units with 104 one bedroom, 92 two bedroom and 10 three bedroom units. This project is located at W. Lake Dr. & Laguna Way and is currently in major design review. The second project, Laguna Main Street Apartments, will include 150 units with 80 - one bedroom and 68 two bedroom units. Laguna Main Street is located at Vaux Avenue & Nolan Street and is also in major design review.

We have listed below a summary of the rents at the five projects surveyed. We have also listed a market rent, although that will change slightly after a site visit. We were not able to locate any studio or two bedroom one bath units near the subject location.

	Range	Average Rent	Proposed Net Rent @ 50 - 80 % AMI
Studio one bath	\$ NA	\$ NA	\$ 733.00 - 1,210.00
One bedroom one bath	\$ 1,250-2,420	\$ 1,507.00	\$ 768.00 - 1,278.00
Two bedroom one bath	NA	\$ NA	\$ 917.00 - 1,529.00
Two bedroom two bath	\$ 1,225-2,815	\$ 1,673.00	\$ NA
Three bedroom two bath	\$ 1,929-3,280	\$ 2,089.00	\$ 1,052.00 - 1,759.00

Rents at the subject's one bedroom units will run from \$ 229 to \$ 739 or from 15 - 49 % below the average rent from our survey. The subject's two bedroom one bath units will run from \$ 144 to \$ 756 or from 9 - 45 % below the two bedroom two bath average (again note that we were not able to locate any two bedroom one bath comparables). Three bedroom two bath units at the subject will run from \$ 330 to \$ 1,037 or from 16 - 50 % below the area average. Note that these comparisons are to the average rent from our survey, not the market rent.

Family Tax Credit

In January 2021 we surveyed fourteen tax credit projects in Elk Grove including 1,771 total units. Thirteen of the fourteen projects surveyed were 2 and 3 story garden style apartments, with the remaining project being a townhome community. All of the projects are in good condition and would be comparable to the subject in terms of amenities offered. At the fourteen competitive projects we found no vacancies, including long wait lists ranging from 75 to 1,400 names.

Tax Credit Projects in Planning

According to Antonio Ablog, Planning Manager for the City of Elk Grove, there is one other competitive project in planning with one currently under construction. The project under construction is phase I of the Gardens at Quail Run. Phase I includes 96 total units with 12 one bedroom units, 60 two bedrooms and 24 three bedroom units, with income levels at 30, 40, 50 & 60 % AMI. The Gardens at Quail Run is scheduled to open in Spring 2021. This project currently has over 20,000 applications. Phase II of the Gardens at Quail Run will include 108, one, two and three bedroom units at 30, 50, 60 & 80 % of the area median income. That project is scheduled to begin construction in October 2021, with completion in October 2022. That project is scheduled to begin construction in October 2021 although it has not yet been funded by CTCAC.

Eligible Households

We have calculated on the following page the numbers of income and tenure eligible households for a family tax credit community at 50 to 80 % of the area median income. Also note that we have narrowed the income ranges so as to not double count households. Because of that, the numbers of eligible households would be slightly higher for each income range. For the studio units we will use one person, for the one bedroom units we will use 1 - 1.5 persons, for the two bedroom units we will use 1.5 - 3 persons and for the three bedroom units we will use 4 & 5 person non-senior households. Note, as the studio and one bedroom eligible households (one person) overlap, for the total we will use only the one bedroom figures. The minimum is assuming households will pay 40 % of their income to gross rent.

For the Units Needed we have multiplied the total eligible households by the turnover rate of 31 % - Average turnover rate for subsidized projects in Region 10 (includes California) from the 2018 National Apartment Association Survey of Operating Income and Expenses in Rental Apartment Communities

* We have determined using the subject's pre-determined ranges that there are currently 2,633 size, income and tenure eligible households in the market area for this proposed project. Note that the total include all 1, 2 & 3 bedroom eligible households, as well as the studio households from \$ 23,790 to \$ 25,500 (24 eligible households). The remaining studio eligible households overlap with the one bedroom households.

Conclusions

It is clear that there is a strong need in the Elk Grove area for additional affordable rental units. We have determined that there are currently 2,633 size, income and tenure eligible households in the primary market area for this proposed project. Using CTCAC's New Unit Demand Formula, we have determined that there is currently an annual need for 815 new studio, 1, 2 &

3 bedroom units at 50 - 80 % of the area median income. The overall capture rate for the project is 36.1 %. Note that these numbers are for the primary market area only (City of Elk Grove). If this is a typical affordable development, we would expect about 20 to 40 % of the units to be filled by persons currently living outside of this area. That would mean that of the 294 total units, about 59 to 118 of the units will be filled by someone not currently living in Elk Grove, with the majority of those coming from Sacramento. It is also important to again note that all existing competitive LIHTC family projects in the City are 100 % occupied with wait lists up to 1,400 names. Also note that the Gardens at Quail Run, a 96 unit LIHTC family project that is scheduled to open shortly, received over 20,000 applications and will be able to pre-lease all of their units. The Gardens at Quail Run includes 1, 2 & 3 bedrooms at 30 to 60 % AMI. Vacancies at market rate projects in the area are also low at 0.6 % (from our April 2021) survey of five projects with 1,243 total units). Rents at the subject will run from 9 - 50 % below the "average" rent for our survey of five (5) market rate projects in the area. In addition, according to the Census, a high 42.9 % or 5,715 rental households in Elk Grove paid more than 35 % of their income towards rent (rent overburdened). This figure is well above average with a typical city in the 25 - 35 % range. In fact, 3,476 or 26.1 % paid more than 50 % of their income to rent.

The population of the City and County have both seen good population growth since at least 2000, with all projections indicating continued growth. Environics Analytics is projecting the City/primary market area population will increase by 5.5 % or 1.1 % annually from 2021 to 2026. Overall, we would rate economic conditions in the City and County as good and improving, until the Covid-19 pandemic. Total employment in Sacramento County increased by 1.56 % annually from 2015 to 2019, before a large loss of (6.1)% in 2020. In Elk Grove, employment increased by 1.9 % per year on average and like the County, saw a large drop of 6.1 % in 2020. Those losses were due to the Covid-19 pandemic. In addition, employment in both areas were again down when comparing the latest monthly figures available, March 2020 to March 2021 (down by 3.9 % in the City and 3.8 % in Sacramento County), again due to the on-going pandemic.

We do not seen any potential problems that would negatively affect this proposed subject's success. It is well located near area services, with a large shopping center anchored by Target and including a bank, several retail businesses and restaurants located directly across

Bruceville Road. An elementary, middle and high schools are within 0.8 miles, with a grocery store (Nugget) is 1.0 miles and Costco at 1.2 miles. Sacramento Regional Transit bus service is located at the site along Bruceville Road. In looking at the number of applications of 20,000 at the Gardens at Quail Run, as well as wait lists at existing competitive projects in the City, we feel that the subject will be equally as successful. It is our opinion that this project should proceed and feel that it will lease quickly if built as planned.

FUTURE SHADE IS CALCULATED BY ADDING THE PORTION OF THE CANOPY AREA OF EACH PROPOSED TREE (USING DIAMETER OF THE TREE CROWN IN FIFTEEN (15) YEARS) THAT IS COVERING THE PAYED LOT AT HIGH NOON, EXCLUSIVE OF OVERLAPPING CANOPIES. SHADE CALCULATIONS SHALL BE CONSISTENT WITH FIFTEEN (15) YEAR CANOPY COVERAGE ESTIMATES. THE PARKING LOT AREA TO BE SHADED IS INDICATED WITH CROSS-HATCHING, WHICH INCLUDES DRIVE AISLES LEADING TO PARKING STALLS AND THE PARKING STALLS THEMSELVES, EXCLUDING PARKING STALLS BENEATH CARPORTS. SHADE PROVIDED PER TREE IS INDICATED

A. INSTALL 3" DEPTH FIR BARK MULCH OVER THE FILTER FABRIC ON ALL SHRUB AND GROUND COVER PLANTING AREAS, EXCEPT BIO-FILTRATION AREAS. BARK MULCH SHALL BE WOOD RESIDUAL DERIVED AND MANUFACTURED FROM PINE, WHITE AND/OR RED FIR TREE BARK. THE MATERIAL SHALL BE EQUAL TO THAT REFERRED TO AS 'WALK ON BARK' IN THE TRADE.

B. ONE-THIRD (33 PERCENT) OF ALL TREES ON A PROJECT SITE BE PLANTED AT A MINIMUM TWENTY-FOUR (24") INCH BOX SIZE; (212 TOTAL / 113 PROVIDED, OR 53%). THERE ARE 68 EVERGREEN TREES SPECIFIED,

C. TREES PLANTED WITHIN TEN (1' Θ ") FEET OF A STREET, SIDEWALK, PAVED TRAIL, OR WALKWAY SHALL BE A DEEP-ROOTED SPECIES OR SHALL BE SEPARATED FROM HARDSCAPES BY A ROOT BARRIER TO PREVENT PHYSICAL DAMAGE TO PUBLIC IMPROVEMENTS.

D. LANDSCAPING SHALL CONFORM TO THE CCSDED WRITTEN GUIDELINES. ALL LANDSCAPING SHALL PROVIDE A MINIMUM OF 3 FEET OF CLEARANCE (WHEN FULLY GROWN) FROM FIRE PROTECTION EQUIPMENT. NO TREE SHALL BE PLANTED WITHIN EIGHT (8) FEET OF ANY POTABLE OR NON POTABLE WATER MAIN AS MEASURED FROM THE TRUNK OF THE TREE TO THE CENTER OF THE PIPE

E. WATER-EFFICIENT LANDSCAPE. CONSISTENT WITH THE PURPOSES OF SECTION 65591 OF THE CALIFORNIA GOVERNMENT CODE (WATER CONSERVATION IN LANDSCAPING ACT), ALL NEW MULTIFAMILY AND NONRESIDENTIAL DEVELOPMENT SHALL COMPLY WITH EGMC CHAPTER 14.10, WATER EFFICIENT LANDSCAPE

F. A CERTIFICATE OF COMPLETION SHALL BE OBTAINED FROM THE CITY AND THE PROJECT APPLICANT SHALL FILL OUT THE CERTIFICATE TO THE SATISFACTION OF THE CITY UPON COMPLETION OF THE

G. THE INSTALLING LANDSCAPE CONTRACTOR SHALL MAINTAIN THE NEW LANDSCAPE AREAS FOR A (90) NINETY DAY PERIOD. AFTER THE 30 DAY WARRANTY MAINTENANCE PERIOD THE OWNER SHALL BE RESPONSIBLE FOR LANDSCAPE MAINTENANCE OF THE ON-SITE AND THE OFF-SITE LANDSCAPE AREAS

H. CONTACT THE CITY OF ELK GROVE DEVELOPMENT SERVICES (916) 478-3620 WHEN PLANTINGS ARE COMPLETE FOR VERIFICATION FOR TREE MITIGATION PURPOSES. THE PROJECT REQUIRES VERIFICATION AND ACCEPTANCE BY THE CITY WHEN THE PLANTINGS ARE COMPLETE.

I. THE LANDSCAPE WILL BE IRRIGATED WITH POTABLE WATER AND IS A FULLY AUTOMATIC SYSTEM THAT CONFORMS TO THE STATE WATER EFFICIENT LANDSCAPE ORDINANCE (WELO). POINT SOURCE IRRIGATION WILL BE THE PRIMARY MEANS TO IRRIGATE PLANT MATERIAL. CONTROL OF THE SYSTEM WILL BE WITH A 'SMART' WEATHER BASED SYSTEM UTILIZING WEATHER AND SITE SPECIFIC DATA TO CONSERVE WATER WITH STATE OF THE ART EFFICIENCY. A DEDICATED SUB METER WILL SEPARATE THE IRRIGATION WATER USE FROM THE POTABLE SUPPLY. A MASTER VALVE AND FLOW SENSOR WILL BE INCLUDED TO CONTROL WATER FLOW AND TO SHUT THE SYSTEM OFF DURING A HIGH OR LOW EVENT.
