

2022

City of Elk Grove Recycling CALENDAR

*Why the New
Schedule?*

Organic Waste Collection

As of July 1, all residents are required to recycle food waste to comply with a new law (SB 1383). SB 1383 is a statewide effort to reduce emissions of short-lived climate pollutants generated from food waste. In order to satisfy the requirements of this effort, the City of Elk Grove and Republic Services have worked together to expand the solid waste services provided to customers.

Moving forward, trash and organic waste will be collected weekly, while recycling will continue to be collected every other week.

New Calendar Explained

Due to the service changes, your recycling week may have changed. However, your service day remains the same. The new recycling calendar alternates between "schedule A" (gray) and "schedule B" (green), indicating which week your recycling will be collected.

Which schedule am I on?

You should have already received notification from Republic Services of your assigned schedule. To determine your recycling week schedule, call Republic Services at 916-635-2500 or use the "lookup tool" at elkgrovecity.org/recycle.
