CHAPTER 2: VISION

What is a Community Vision

A community vision is a long-term aspiration describing a community's values and shared image of what a community wants to be in the future. Put simply, it describes the ideal condition of a community.

CREATING OUR VISION

The Community Vision for Elk Grove, expressed through a Vision Statement and a series of Supporting Principles, is a declaration of the kind of community that Elk Grove wants to become in the future and sets the course for this General Plan.

The Community Vision draws upon findings derived from research into existing conditions, demographics, and trends in Elk Grove, and was crafted based on input provided by the community during a visioning process. The City conducted community engagement events between August and December of 2015 to identify key values and issues, with subsequent outreach activities that allowed for refinement of the Community Vision. City staff and officials contributed their feedback at joint City Council/Planning Commission study sessions. Representatives from organizations with an interest in the community shared their visions through focused interviews. Members of the public offered input at mobile workshops conducted at community events held throughout the City and at an all-day visioning workshop.

COMMUNITY VISION

The Community Vision establishes the basis for General Plan goals and policies. The Vision Statement describes the values and aspirations for Elk Grove in the future. It identifies key characteristics necessary for sustaining what is important to the community and for Elk Grove to achieve its potential. The Vision Statement is supported by nine Supporting Principles, statements that together contribute to the larger Community Vision and provide more specific guidance for General Plan goals and policies.

SUPPORTING PRINCIPLES

REGIONAL GOALS & INFLUENCE – OUR REGIONAL NEIGHBORS KNOW US & OUR CONTRIBUTIONS

Elk Grove occupies a prominent place in the regional dialogue. The City’s identity and brand are clear in the minds of its neighbors, and our unique sense of place makes our City an appealing destination to live, work and visit. Our contributions to the region continue to strengthen that identity and include recreational opportunities, higher education, job centers, and quality neighborhoods. City officials engage with other cities, Sacramento County, and other partners to plan and build for an ever more dynamic region. The City’s employment potential within the regional economy is fulfilled.

New businesses have emerged, providing new employment centers that support technology and build from our agricultural roots. Both housing and jobs are available in the community, providing flexible opportunities for many lifestyles including the opportunity to live-work-and play, within the distance that can be walked in twenty-minutes.

INFILL DEVELOPMENT & OUTWARD EXPANSION – DEVELOPMENT FILLS IN THE GAPS & EXPANSION OCCURS WITH PURPOSE

Unfinished, undeveloped gaps found throughout the City become opportunities to develop economically successful compact and walkable additions that provide added value to our community as well as new job opportunities and lifestyle improvements while reducing dependence on single occupancy vehicles. Existing small businesses are protected even as we invite in new businesses and different economic opportunities. New development plans are grounded by community needs and market demand, and are carried out efficiently and holistically. New housing built in a variety of shapes and sizes to meet the needs and desires of our diverse community also fills in these gaps.

Infill development is consistently executed with programs that address impacts and encourage innovative urban design and building solutions. A creative growth management strategy allows expansion to occur when economic need, community vision, and regional goals align. There is a strong system in place to guarantee that as the community accommodates new neighbors and new jobs, it continues to maintain and improve facilities and services, such as schools, roads, and parks. Our development review process works to ensure that new development is compatible with surrounding neighborhoods and to preserve the character of our community.

ECONOMIC VITALITY – OUR ECONOMY IS DIVERSE & BALANCED & ENHANCES QUALITY OF LIFE
