Dear Elk Grove Community Member,

This communication is to inform you that the planned discussion of the Sheldon Road and Bradshaw Road Bridge Replacement and Intersection improvements with City Council on January 27th has been postponed and another community meeting scheduled for the evening of February 16th. Details of the community meeting and rescheduled City Council discussion are highlighted below.

On January 14th, the City hosted a community open house about the future improvement to the Sheldon Road and Bradshaw Road intersection. The goal of that meeting was to share information about the improvement options (signal or roundabout) and ask for community preferences. At that meeting and through follow up communications, several participants expressed concern about the materials presented, concerns about limitations in meeting format, and requested additional information before proceeding with City Council discussion. Your input has been taken into consideration and as a result, the City has decided to postpone City Council consideration and host another meeting with the community to respond to questions and comments and to allow for additional questions and discussion in an open forum. Please join us!

Follow Up Community Meeting

Sheldon Road & Bradshaw Road Bridge Replacement and Intersection Improvements

Tuesday, February 16, 2016

Pleasant Grove High School (same room as the 1/14 open house)

9531 Bond Road, Elk Grove, CA 95624

6:00 PM – 8:00 PM

Staff and consultants will start the meeting by sharing results from the last meeting, presenting the questions and comments raised from the January 14th meeting, along with responses and additional information as appropriate. The majority of the time will be allocated to any questions or comments you may have about the project and options. Community input from the meetings will be summarized along with any staff recommendation for City Council consideration on March 9th. Thank you for your continued input and participation.

Regards,
City of Elk Grove Public Works Department

If you have questions or would like additional information, please contact **Tom Metcalf, Sr. Project Manager**, at TMetcalf@elkgrovecity.org or (916) 478-2281.
