

Welcome to the Zoo

This series of boards will present the design for the proposed zoo. The following areas will be highlighted:

- The Entry Complex
- The Giraffe Lodge
- Key Habitats, including the Savanna, Lion, Okapi, and Gelada
- The Animal Care Center

But there is so much more that we couldn't fit it all here, including meerkat, rhino, cheetah, lemur, alligator, flamingo... you get the idea.

Look around and let us know what you think. If you have questions, members of the design team are here and can help you out.
