

**CITY OF ELK GROVE
CITY COUNCIL STAFF REPORT**

AGENDA TITLE: Adopt resolutions: 1) authorizing the City Manager to execute a contract and other documents required by the State Board of Equalization to collect the City's Utility User's Tax on prepaid wireless service; and 2) authorizing the examination of prepaid mobile telephony services surcharge and local charge records

MEETING DATE: August 26, 2015

PREPARED BY: Jannet Meyer, Administrative Analyst

DEPARTMENT HEAD: Brad Koehn, Director of Finance and Administrative Services

RECOMMENDED ACTION:

Staff recommends that the City Council adopt 1) a resolution authorizing the City Manager to execute certain documents required by the State Board of Equalization to collect the City's Utility User's Tax (UUT) on prepaid wireless service, including authorizing the City Manager to enter into a contract with California State Board of Equalization in order to receive UUT imposed on consumers of prepaid mobile services; and 2) a resolution authorizing the examination of prepaid mobile telephony services surcharge and local charge records by the City and its consultant.

BACKGROUND INFORMATION:

Traditionally, a city's UUT is collected by wireless service providers that include the charge on their customers' monthly invoices. In contrast to this arrangement, customers who purchase pre-paid wireless services have sometimes avoided paying any UUT due to collection complications. With prepaid wireless, there is no contract and no monthly invoice. Also, the prepaid wireless services are usually sold by retailers, not the service providers. It is estimated statewide that approximately 70% of all prepaid wireless services are sold by retailers. Since these transactions bypass the City's UUT, the City experiences a loss or 'leakage' of revenue.

The State has addressed these UUT collection difficulties with the passage of AB 1717. Beginning January 1, 2016, California retailers and on-line sellers will be required to collect the local UUT at the same time it collects sales tax on its other retail products, based on the point of sale. Under this new law, all local jurisdictions have to contract with the California State Board of Equalization (BOE) in order to receive UUT imposed on consumers of prepaid wireless phone service.

The City-adopted UUT Ordinance No. 14-2010 imposes a rate of 2.25% on the consumption of prepaid mobile telephony services. However, AB 1717 created a nine-tier UUT rate plan and the City falls in the structured rate tier of 1.5% to 2.5%. This will result in the Board of Equalization collecting and remitting to the City 1.5% on prepaid mobile telephony services.

FISCAL IMPACT

While the actual impact to this current revenue source is unknown, the City's UUT revenue consultant (MuniServices) estimates that the recovery of this revenue will range from 15% to 20% of current UUT telecommunication revenues. This estimate is a statewide average, and individual cities will vary depending on their demographics and the number of large retail stores (located in a city) selling prepaid wireless services.

For Elk Grove, this 15 to 20% increase equates to an estimated annual UUT revenue recovery of \$176,000 to \$235,000. The State Board of Equalization (BOE) implementation, collection and administrative costs are estimated to be 5% to 6% of the recovered revenue and will be deducted from the City's quarterly apportionments. The BOE costs are expected to decline after the first year. Since revenue recovery would begin January 2016, the estimated net impact to Fiscal Year 2015-16 revenues is approximately \$83,000 to \$111,000. This BOE collection effort will mitigate revenue leakage that the City could have experienced if users continued to migrate to the use of prepaid wireless services.
